Educating one's children is a huge responsibility. There seem to be more "answers" than there are questions! Everyone has a textbook, a method, or a philosophy. But how are we supposed to figure out just what path to take? For more than 25 years, Sherry Hayes, the homeschooling mother of 15 children, has been asking these same questions about education. During her own journey, she has read books and research by the most insightful and influential homeschooling leaders such as Dr. Raymond and Dorothy Moore, Ruth Beechick, Charlotte Mason, John Taylor Gatto, and many

more. They were true pioneers of the current homeschool movement and all were dedicated to the welfare of children and their families. But how do we implement these ideals? Sherry's heart was burdened with the realization that there were many others just like her that were seeking a way to simplify their homeschooling into a coherent system which made room for individual personality and gifts, but at the same time gave each child structure as well as discipline. She came to realize that the modern educational systems and methods are strangely unique in our human history, and

Access Free Robinson Curriculum Homeschool Curriculum Excellence

have failed us abysmally. Never before have we had so much knowledge at our fingertips, and yet, the literacy rates of our nation's school systems are at an all-time low. Despite the fact that we live in the information age; the divorce, homicide and suicide rates are at all-time highs. Our children face greater challenges today than we would have ever dreamed; nevertheless, many don't have the tools to handle these new demands and pressures. It is time we threw out the progressive educational philosophies and ideologies which have lead us here. We need to turn back the clock and promote

the fear of God which is the beginning of wisdom. We must revive the unswerving Christian devotion that used to be lived out by our predecessors before the present narcissistic influence of humanism took over! We can rediscover the tools of learning that helped our forefathers overcome the great obstacles of their time, that have only recently been replaced by "dumbed-down" work texts and worthless statistics which require no higher thinking on the part of young learners. Homeschool Sanity: a Practical Guide to Redemptive Home Educating is Sherry's attempt to

It is now time to break down the ideology of exceptionalism in the United States and other Anglo-American nations if we are to develop reforms that will truly inspire our teachers to improve learning for all our students especially those who struggle the most. In that essential quest, Pasi Sahlberg is undoubtedly one of the very best teachers of all.
