Having this book in your pocket is just like having a real marque expert by your side. Benefit from the author's years of real ownership experience, learn how to spot a bad car quickly, and how to assess a promising car like a true professional. Get the right car at the right price!

Dune Buggies have been around for over four decades. In this stunningly comprehensive volume you can relive their colorful history from crude off roaders developed in the 1960s, to the superb show vehicles of the 1980s and 1990s, and take a glimpse into the future of these unique, fun vehicles.

This book details the origin and racing history of the Ferrari 333 SP. Uniquely, none of the 333 SP models were entered into races by Ferrari itself. The cars were built specifically for customer use; a purchase price of \$900,000 included two spare engines and race technical support supplied by Ferrari engineers. A total of 40 cars were built; the first four by Ferrari, the remainder manufactured by Dallara & Michellotto using Ferrari engines. All of the cars were sold to, and race entries made by, privateer teams. From 1994, the cars contested the IMSA World Sports Car Championship, the United States Road Racing Championship, and the American Le Mans Series, at circuits throughout North America. In 1997, the cars also featured in the Europe-based International Sports Racing Series, as well as the 24 Hours of Le Mans. Two years later, the Doran-Lista team installed a Judd V10 engine into its 333 SP, with the aim of increasing power and improving fuel efficiency. In all, from the 126 races entered, 47 victories were claimed by the 333 SP.

Text and Context: Document Storage and Processing describes information processing techniques, including those which do not appear in conventional textbooks on database systems. It focuses on the input, storage, retrieval and presentation of primarily textual information, together with auxiliary material about graphic and video data. There are chapters on text analysis as a basis for lexicography, full-text databases and information retrieval, the use of optical storage for both ASCII text and scanned document images, hypertext and multi-media systems, abstract document definition, and document formatting and imaging. The material is treated in an informal way with an emphasis on real applications and software. There are, among others, case studies from Reuters, British Airways, St. Bartholomew's Hospital, Sony, and HMSO. Relevant industry standards are discussed including ISO 9660 for CD-ROM file storage, CCITT Group4 data compression, the Standard Generalised Markup Language and Office Document Architecture, and the Postscript language. Readers will benefit from the way Susan Jones has brought together this information, in a logical sequence, to highlight the connections between related topics. This book will be of interest to second and third year undergraduates and MSc students in computer science, to B/TEC HTD final year computing and information science students either specialising in IT or taking an IT option, and to students taking courses in IT and in business computing systems.

The Escort RS Cosworth, which began rallying in 1993, was one of the most ingenious designs of all time, and eventually became Ford's most successful model since the legendary Escorts of the 1970s. The combination of Cosworth power, four-wheel-drive transmission, and an effective aerodynamic package made it a Rally Giant in all conditions, and, until the all-new Focus WRC was launched in 1999, this generation of Escorts was the most effective rally car that Ford had ever produced.

The detailed story of Pontiac's F-body coupe & convertible throughout three decades--from the height of the personal car/sporty car era of the late sixties, through the fuel crisis/safety first seventies, eighties renaissance and nineties indifference.

This unique book will help you work through the long list of XJ variants to choose the one that best suits your budget and intended use. Full of practical first-hand tips and pictures to guide even a novice through all the stages of becoming a Jaguar or Daimler saloon owner. Packed with 100 new detail pictures, and with a unique points system to assess the condition of potential purchases, this book is a must for any potential XJ6 owner.

A guide to body and chassis restoration offers advice on all aspects of restoration for metal-bodied cars, including patching panels, removing dents, and protecting against rust.

Motorcycle Apprentice

17 days of craftsmanship: step-by-step from specification sheet to finished car

A concise history of the North American Racing Team 1957 to 1983

Everything You Need to Know to Build Any VW-based Dune Buggy Yourself!

The concise history of the Bugatti Type 57, 57S, 64 & 101. The magnificent Type 57 was the final flowering of the genius of Ettore and Jean Bugatti, and the last truly new model from Molsheim, France. Packed with over 300 images - mostly contemporary - this book is recognised as THE standard reference on the 57 and its close relatives.

A young Londoner had only one ambition in life - to work with motorcycles. That simple wish led to an apprenticeship that was to change Bill Cakebread's life forever as the training that Associated Motorcycles Limited provided enabled achievements that he never dreamed possible. This book gives a unique insight to the atmosphere and excitement of working in a motorcycle factory. It is an inspiring story, supported by a host of period photographs and rare documents, which provides a fascinating record of work within the British motorcycle industry in the final years of its decline into oblivion.

This book details the evolution of Ford's family car through the golden era of Detroit. It tells how Henry took the no-frills Fairlane, added more zing to create the Torino, and satisfied America's luxury desires with the LTD II, and follows the evolution of Ford's midsize muscle cars, to the creation of the first car-based pickup - the Ranchero.

When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?

The Rolls-Royce Armoured Car

Matchless - in name & reputation

V8 Dynamite 1955-1979

Ford Escort RS Cosworth & World Rally Car

Chrysler's Potent Pony Cars

The first Rolls-Royce armoured car was a privately owned vehicle fitted with a machine-gun and a limited amount of armour plate, used by the Royal Naval Air Service in Flanders in 1914. By 1915, nearly 100 had been built and turned over to the Army. From then on, as Sir Albert Stern said 'They searched the world for war', operating as far apart as the northwest frontier of India, the Middle East and southern Africa. The cars were fast, quiet and reliable but above all powerful. 'A Rolls in the desert is above rubies,' said Lawrence of Arabia. After World War I, the War Office continued to produce the Rolls-Royce while tinkering with the design.

These further cars served all across the Empire, including in Ireland and even later Shanghai, returning for a final brief appearance in the early stages of World War II.This book tells the complete story of the Rolls-Royce Armoured Car, following its design and development as it fought from theatre to theatre during World War I and the turbulent inter-war years.

This book covers the full history of the Porsche 928, looking at the variants sold on the domestic, American, British, Australian and Japanese markets, from the time the car was launched in 1977 until the last one was built in 1995.

To Boldly Go details 26 sometimes controversial vehicles, from 1911 to present, all solving different design challenges. From the Issigonis Mini that changed design and social mores, to racers so successful they were banned from competition, from cars produced in millions, to one-offs, all created by those marching to the beat of their own drum.

Complete guide to modifying Bus suspension. brakes and chassis for max performance. Essential information on using aftermarket and interchangeable parts to achieve maximum performance. Covers all T1 & T2 buses, vans, campers & pick-ups 1950-79, and much applies to T3 models 1979-82.

THE LAST FRENCH BUGATTI

– back to the future!

This budget paperback tells the complete history of the 'Cinderella' Porsches which have now become respected and established classics. Includes 914 and 914-6 in international motorsport and expert advice on buying and restoring. Period illustrations acquired with the assistance of Porsche.

The Ford Escort MkII was a worthy successor to the original MkI. It became Ford's most successful rally car and the cars are still winning historic events today. It brought new standards to the sport, inspiring many others to copy it. Contains full details of every 'works' Escort MkII that went rallying, plus driver and personality profiles, and detailed car evolution.

This easy to use guide helps you to prepare for your European trip, and check the information you require on the road. With unrivalled coverage, it provides the key facts you need to drive in 50 countries across Europe – as well as general advice to help you deal with the unexpected, no matter where you are!

A fascinating and nostalgic compilation of rider profiles written over a three year period, which originally appeared in Classic Motorcycle magazine, and is now accompanied by a new set of over 100 photographs. All of the riders featured became top achievers in their field, although, for some, it was their first interview.

During the 1950s and 60s, scrambling especially drew huge crowds to meetings all across the country, and, thanks to TV coverage such as BBC Grandstand Trophy, and ITV's World of Sport, many of the competitors featured in this book became household names. Each chapter includes the competition years of the riders,

and also gives an overview of their careers, and conveys their enthusiasm for the sport.
