Roly's Big Adventure is a delightful children's book. It is about a puppy (Roly) and his mother (Blondie). We also meet some of their friends and one character who is definitely not a friend. In the book, Roly decides not to listen to his mother's warning to not leave his yard without her. He is having a wonderful time at first when things go bad and he has a frightening experience with the villain of the story (Mack). In the end, his mother is there to save him, teaching Roly that he should always

for a father, but Felix knew that ultimately he would have to remain with his own son, Piers, at the gracious, mellow Michaelgarth, the family home on the edge of Exmoor. Many years later, Lizzie comes at last to Michaelgarth and meets Piers for the first time. There she finds a family in trouble--and miraculously, they need her to help them heal. Written with shining honesty and compassion, The Birdcage has every bit of the wonder that Marcia Willett's fans have come to expect.

NEW YORK TIMES BESTSELLER • A worthy heir to Isak Dinesen and Beryl Markham, Alexandra Fuller shares visceral memories of her childhood in Africa, and of her headstrong, unforgettable mother. “This is not a book you read just once, but a tale of terrible beauty to get lost in over and over.”—Newsweek “By

turns mischievous and openhearted, earthy and soaring . . . hair-raising, horrific, and thrilling.”—The New Yorker Though it is a diary of an unruly life in an often inhospitable place, *Don't Let's Go to the Dogs Tonight* is suffused with Fuller's endearing ability to find laughter, even when there is little to celebrate. Fuller's debut is unsentimental and unflinching but always captivating. In wry and sometimes hilarious prose, she stares down disaster and looks back with rage and love at the life of an extraordinary family in an extraordinary time. From 1972 to 1990, Alexandra

Fuller—known to friends and family as Bobo—grew up on several farms in southern and central Africa. Her father joined up on the side of the white government in the Rhodesian civil war, and was often away fighting against the powerful black guerilla factions. Her mother, in turn, flung herself at their African life and its rugged farm work with the same passion and maniacal energy she brought to everything else. Though she loved her children, she was no hand-holder and had little tolerance for neediness. She nurtured her daughters in other ways: She taught them, by example, to be resilient and self-

sufficient, to have strong wills and strong opinions, and to embrace life wholeheartedly, despite and because of difficult circumstances. And she instilled in Bobo, particularly, a love of reading and of storytelling that proved to be her salvation. Alexandra Fuller writes poignantly about a girl becoming a woman and a writer against a backdrop of unrest, not just in her country but in her home. *But Don't Let's Go to the Dogs Tonight* is more than a survivor's story. It is the story of one woman's unbreakable bond with a continent and the people who inhabit it, a portrait lovingly realized and

Dogs know when we are feeling down. They love it when we are happy and seeking friendship and fun, and they understand when we are feeling sad and desperate. This book presents a series of real-life tales of the positive effects dogs have had on people at the end of their lives, chronicling the visits by two therapy dogs, Woody and Katie, to patients in a south Florida hospice facility.

Through twenty-one stories, infused with humor amidst the sadness, Michelle Rivera, an experienced animal therapist, explores the many ways in which animals can ease human suffering. Her book begins with the deeply personal story of

her own mother Katherine's illness and dying appeal to have the company of a dog, and proceeds to tell the stories of patients young and old who the author was inspired to visit with her "hospice hounds." As well as demonstrating many of the techniques of animal therapy, Rivera argues powerfully that not allowing pets in health care facilities is a counterproductive policy that deprives patients of comfort at the time they need it most. Some of the stories were previously published in *Hospice Hounds* (2001), but the author has substantially expanded her introduction and added an invaluable final section

that gives practical tips on training and certifying your dog to be a therapy animal.

For many years, a great pine tree stood deep in the Black Forest. It was so tall, it towered over all the other trees. It was a very special tree. Not only the animals, who found cover under and in the pine tree, sensed how special the tree was, but so did the children who came to play near the pine tree. This time, however, the wind shook the tree harder than ever before and suddenly, a powerful bolt of lightning struck its crown. When that happened, something changed in the tip of the great pine tree and that is when the exciting adventures of the roly-poly pine cone began.
