The Winter Issue: This edition has a seasonal theme that brings the focus back to the magazine's core goals, ideas and values. The issue will feature personal essays, simple recipes, uplifting photo essays and portraits of people living the good life. It also offers inspiration to do some indoor sparring; Professor Deane Curtin talking about eating in the moment; sculptures that show the way our bodies change when chilled; a visit to a hot spring; home tours in Copenhagen and Melbourne; a profile of a changing neighborhood in South East London; and something to inspire you while commuting. The issue contains a special themed section about Light, one of the most missed aspects of our winter days, with features on circadian rhythms, solstice traditions and the aurora borealis, along with profiles on artists and designers who work with light. Along with lots of things to cook, make and do, Kinfolk suggests ways to live a more creative, simple, connected life.

Are we all at the mercy of our brain chemistry? Do you think that the amygdala and the hippocampus are fantastical sea monsters? What can an MRI scan tell us? Could you explain to dinner-party guests why we don't giggle when we tickle ourselves? 30-Second Brain is here to fill your mind with the science of exactly what's happening inside your head. Using no more than two pages, 300 words and an illustration, this is the quickest way to understand the wiring and function of the most complex and intricate mechanism in the human body. Discover how the networks of 90 billion nerve cells work together to produce perception, action, cognition and emotion. Explore how your brain defines your personality, and what it gets up to while you are asleep. Illustrated with mind-bending graphics and supported by biographies of pioneers in the field of neuroscience, it's the book to get your grey matter thinking about your grey matter.

With U.S. intelligence agencies wracked by internal power struggles and paralyzed by bureaucracy, the president has been forced to establish his own clandestine group--Covert-One. It's activated only as a last resort, when the threat is on a global scale and time is running out.The Utopia Experiment When Dresner Industries unveils the Merge, a device that is destined to revolutionize the world and make the personal computer and smartphone obsolete, Covert-One operative Colonel Jon Smith is assigned to assess its military potential. He discovers that enhanced vision, real-time battlefield displays, unbreakable security, and near-perfect marksmanship are only the beginning of a technology that will change the face of warfare forever--and one that must be kept out of the hands of America's enemies at all costs. Meanwhile, in the mountains of Afghanistan, CIA operative Randi Russell encounters an entire village of murdered Afghans--all equipped with enhanced Merge technology that even the Agency didn't know existed. As Smith and Russell delve into the circumstances surrounding the Afghans' deaths, they're quickly blocked by someone who seems to have access to the highest levels of the military--a person that even the president knows nothing about. Is the Merge really as secure as its creator claims? And what secrets about its development is the Pentagon so desperate to hide? Smith and Russell are determined to learn the truth. But they may pay for it with their lives . . .

Better than fireworks, this classic Beginner Book edited by Dr. Seuss celebrates all the wonderful things that come with summer! From trips to the beach and eating watermelon to fireworks and fishing, Alice Low and Roy McKie’s Summer will have young readers eager for the kind of fun only warm breezes and sunny weather can bring. Originally created by Dr. Seuss, Beginner Books encourage children to read all by themselves, with simple words and illustrations that give clues to their meaning.

We are constantly being told that happiness should be our goal, and how we can achieve it. But does the advice of happiness 'experts' really work? Sophie Scott, the ABC's medical reporter, roadtests the most popular methods to find out. We are constantly told that happiness should be our goal, but how can we achieve it? Does the advice of happiness 'experts' really work? that is what Sophie Scott decides to find out. Exploring the science of happiness, the ABC's award-winning medical reporter gets inside the ideas of leading happiness experts, including Buddhist monk Mathieu Ricard (the 'world's happiest man'), psychologist Dr tim Sharp (aka 'Dr Happy') from the Happiness Institute, and Assistant Professor Alice Domar from the Harvard Medical School, to discover the best ways to achieve and maintain happiness. then she tries it all out. Using each approach suggested by the experts, she 'roadtests' her way from depression to happiness, sampling techniques such as cognitive behaviour therapy; meditation, mindfulness and spirituality; acceptance and gratitude; altruism and volunteering; food choices and exercise. If you want to become happier than you are right now and stay that way, here are the tools - and shortcuts - to make it happen.

Pulitzer Prize-winning author John McPhee continues his Annals of the Former World series about the geology of North America along the fortieth parallel with Rising from the Plains. This third volume presents another exciting geological excursion with an engaging account of life—past and present—in the high plains of Wyoming. Sometimes it is said of geologists that they reflect in their professional styles the sort of country in which they grew up. Nowhere could that be more true than in the life of a geologist born in the center of Wyoming and raised on an isolated ranch. This is the story of that ranch, soon after the turn of the twentieth century, and of David Love, the geologist who grew up there, at home with the composition of the high country in the way that someone growing up in a coastal harbor would be at home with the vagaries of the sea.

With U.S. intelligence agencies wracked by internal power struggles and paralyzed by bureaucracy, the president was forced to establish his own clandestine group--Covert-One. It is activated only as a last resort, when the threat is on a global scale and time is running out. THE JANUS REPRISAL It begins with a terrorist attack. Covert-One operative Colonel Jon Smith is attending a conference in The Hague on infectious diseases, together with leading scientists and political figures from around the world. Without warning, the conference hotel is consumed in a bloodbath. Smith is caught in the crossfire and barely escapes . . . but not before discovering a picture of himself and two other targets in the pocket of one of the shooters. But the hotel is not the only location under attack in The Hague. Bombs are going off at the train station, the airport, and the International Criminal Court, where Pakistani warlord Oman Dattar is being held while he’s tried for crimes against humanity. In the resulting chaos, the prisoner escapes. Dattar nurses a special hatred for the United States and its allies. With his freedom, and access to a mysterious new weapon, Dattar puts in motion a murderous, ambitious plot to exact his revenge and bring down the West once and for all--unless Covert-One can stop him.

Following the Pulitzer prize-winning collection Stag’s Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender “Ode to the Hymen,” Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as “Ode to My Sister,” “Ode of Broken Loyalty,” “Ode to My Whiteness,” “Blow Job Ode,” and “Ode to the Last Thirty-Eight Trees in New York City Visible from This Window,” Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Robert Browning (1812 – 1889) was one of the defining figures of the Victorian age. Famous in his lifetime for his elopement and marriage to Elizabeth Barratt, his critical reputation grew steadily in the years following her early death. Browning’s mastery of dramatic verse was evident throughout his career, from such chillingly unforgettable monologues as ‘My Last Duchess’ and ‘Porphyria’ to the mature work included in his collection Dramatis Personae. This selection, chosen by leading scholars, reveals the innovation, complexity and profound psychological insight that have ensured Browning’s enduring reputation and his continuing appeal to readers today. Browning: Selected Poems results from a completely fresh appraisal of the canon, text and context of the writer’s work. The poems are presented in the order of their composition and in the text in which they were first published, giving a unique insight into the development of Browning’s art. An introduction and chronology offer useful background material, whilst annotations and headnotes provide details of composition, publication, sources and contemporary reception. This authoritative yet accessible selection should become the first point of reference for scholar, student and general reader alike.

From the New York Times bestselling author of The Last Wife of Henry VIII comes a novel about the bitter rivalry between Queen Elizabeth I and her fascinating cousin, Lettice Knollys, for the love of one extraordinary man. Powerful, dramatic and full of the rich history that has made Carolly Erickson’s novels perennial bestsellers, this is the story of the only woman to ever stand up to the Virgin Queen— her own cousin, Lettie Knollys. Far more attractive than the queen, Lettie soon won the attention of the handsome and ambitious Robert Dudley, Earl of Leicester, a man so enamored of the queen and determined to share her throne that it was rumored he had murdered his own wife in order to become her royal consort. The enigmatic Elizabeth allowed Dudley into her heart, and relied on his devoted service, but shied away from the personal and political risks of marriage. When Elizabeth discovered that he had married her cousin Lettie in secret, Lettie would pay a terrible price, fighting to keep her husband’s love and ultimately losing her beloved son, the Earl of Essex, to the queen’s headsman. This is the unforgettable story of two women related by blood, yet destined to clash over one of Tudor England’s most charismatic men.

The RIVER CAFE COOKBOOKS are a publishing phenomenon, with over a quarter of a million sold. Following a successful pilot on BBC, Rose Gray and Ruth Rogers were asked by Channel 4 to make a series in which they showed how to make some of their fantastic dishes and explained why they cook how they do. This unique book, which is photographed at both the River Cafe and in Italy, complements the existing cookbooks, contains all the recipes shown in the series 1 and 2 of ITALIAN KITCHEN and provides a platform for the authors to explain the philosophy behind their food with passion and verve.

The Psalms, ESV (Press-Grain Paperback)

The chilling autobiography of the notorious female serial killer who was recently the subject of a two-hour Investigation Discovery special. Between 1989 and 1990, Aileen Wuornos, a hitchhiking prostitute, shot, killed, and robbed seven men in remote Florida locations. Arrested in 1991, she was condemned to death on six separate counts executed by lethal injection in 2002. An abused runaway who turned to prostitution to survive, Wuornos has become iconic of vengeful women who lash out at the nearest target. She has also become a touchstone for women's, prostitutes', and prisoners' rights advocates. Her story has inspired myriad books and articles, as well as the 2002 movie Monster, for which Charlize Theron won an Academy Award. But until now, Wuornos's uncensored voice has never been heard. Dear Dawn is Wuornos's autobiography, culled from her ten-year death row correspondence with beloved childhood friend Dawn Botkins. Authorized for publication by Wuornos and edited under the guidance of Botkins, the letters not only offer Wuornos's riveting reflections on the murders, legal battles, and media coverage, but go further, revealing her fears and obsessions, her rich humor and empathy, and her gradual disintegration as her execution approached. A candid life story told to a trusted friend, Dear Dawn is a compelling narrative, unwaveringly true to its source. "It is both empowering and heartbreaking, because Wuornos represents the fury of a wronged girl-gone-wild, whose rage was unleashed on men." —The Rumpus "Condenses ten years of obsessive correspondence into a fragmented, sometimes funny, sometimes nightmarish, often paradoxical portrait of Wuornos." —Muzzle Magazine

"Architect Tom Kundig is known worldwide for the originality of his work. This paperback edition of Tom Kundig: Houses, first published in 2006, collects five of his most prominent early residential projects, which remain touchstones for him today. In a new preface written for this edition, Kundig reflects on the influence that these designs continue to have on his current thinking. Each house, presented from conceptual sketches through meticulously realized details, is the product of a sustained and active collaborative process among designer, builder, and client. The work of the Seattle-based architect has been called both raw and refined--disparate characteristics that produce extraordinarily inventive designs inspired by both the industrial structures ubiquitous to his upbringing in the Pacific Northwest and the vibrant craft cultures that are fostered there." --

Risk: A Very Short Introduction

Reinsurance is an important production factor of non-life insurance. The efficiency and the capacity of the reinsurance market directly regulate those of insurance markets. The purpose of this book is to provide a concise introduction to risk theory, as well as to its main application procedures to reinsurance. The first part of the book covers risk theory. It presents the most prevalent model of ruin theory, as well as a discussion on insurance premium calculation principles and the mathematical tools that enable portfolios to be ordered according to their risk levels. The second part describes the institutional context of reinsurance. It first strives to clarify the legal nature of reinsurance transactions. It describes the structure of the reinsurance market and then the different legal and technical features of reinsurance contracts, known as reinsurance 'treaties' by practitioners. The third part creates a link between the theories presented in the first part and the practice described in the second one. Indeed, it sets out, mostly through examples, some methods for pricing and optimizing reinsurance. The authors aim is to apply the formalism presented in the first part to the institutional framework given in the second part. It is reassuring to find such a relationship between approaches seemingly abstract and solutions adopted by practitioners. Risk Theory and Reinsurance is mainly aimed at master's students in actuarial science but will also be useful for practitioners wishing to revive their knowledge of risk theory or to quickly learn about the main mechanisms of reinsurance.

The absolute best advice from experts in men's fashion and lifestyle forms the ultimate handbook on daily living for the modern man.

From a debut author comes a story of finding oneself in a place all too familiar. After Dulcie Morrigan Jones's dad dies, her mom decides they need to find a new life in California. But Dulcie doesn't understand what's wrong with her old life back in Newbury, Connecticut.

So she heads across country and back home in her father's red 1968 Chevy pickup truck. When she arrives, she meets Roxanne, a girl whose home life makes Dulcie see that her own situation may not be all that bad after all. And as the summer comes to an end, Dulcie realizes that maybe it's necessary to leave a place in order to come back and find out who you really are.

Covering a series of important topics which are of current research interest and have practical applications, this book examines all aspects of risk analysis and hazard mitigation, ranging from specific assessment of risk to mitigation associated with both natural and anthropogenic hazards.
