

Ryan The Mallick Brothers Book 2

AVA has been suffering from sexual dysfunction for years. Tired of not being able to have a normal relationship with a man, she is steered in the direction of DR. CHASE HUDSON, a psychologist and sexual surrogate. When she signed up for her sessions, she wasn't prepared for his god-like good looks or her instant, intense, and growing connection with him. But as things heat up... and professional lines get blurred, she is forced to confront the question: What are you supposed to do when you start falling for your sex surrogate?
THE STORY: The home of the Blackwoods near a Vermont village is a lonely, ominous abode, and Constance, the young mistress of the place, can't go out of the house without being insulted and stoned by the villagers. They have also composed a nasty s
While Web 2.0 was about data, Web 3.0 is about knowledge and information. Scripting Intelligence: Web 3.0 Information Gathering and Processing offers the reader Ruby scripts for intelligent information management in a Web 3.0 environment—including information extraction from text, using Semantic Web technologies, information gathering (relational database metadata, web scraping, Wikipedia, Freebase), combining information from multiple sources, and strategies for publishing processed information. This book will be a valuable tool for anyone needing to gather, process, and publish web or database information across the modern web environment. Text processing recipes, including speech tagging and automatic summarization
Gathering, visualizing, and publishing information from the Semantic Web Information gathering from traditional sources such as relational databases and web sites
Networking doesn't have to feel like a sales-focused event where you're using people to get ahead. Create meaningful connections, easily strike up genuine conversations, and dazzle people with your natural charm. In Confident Introvert, Stephanie Thoma shows you the key steps you'll need to take to unlock your potential and win at networking. Within these pages, you'll discover strategies that go beyond collecting business cards to find your natural confidence and connect with anyone.

Hunter is on the run from a past he wants nothing more than to forget about. He settles into his new life in a new city with a sexy new neighbor who seems to have a lot of kinky, fantastic sex every day. Fiona has more than a few scars from her past, nightmares so bad she cant be in her own apartment at night. She spends her days moaning like a porn star to her phone sex callers and putting up walls so thick no one can break them down. That is until she keeps getting woken up from the hot new guy next door and goes over to confront him, sending them both into uncharted territory. When their pasts come charging into their present, will they be able to heal the old wounds enough to let each other in? Or is there some damage that is simply too difficult to overcome?
An isolated town with a dark past... Devils Reach in the Hawkesbury River is known for its secluded location and picturesque beauty. But within its tight-knit community of loggers, store owners and tight-lipped locals, a killer is on the loose. When three bodies are unearthed in an excavation site, park ranger and wilderness expert Taylor Bridges is called in to help local police, and he discovers the town has an unsettling history. But Taylor has a past of his own that still haunts him and his family. As a torrential storm grows closer, The Reach goes into lockdown. With no way in or out, Taylor finds himself in race against the power of nature to catch the killer before the whole town goes under.
From the USA Today bestselling author of Sweet Temptation, a new novel of opposites attracting-and igniting. There is nothing Connor Malone wants to do less than babysit the outrageous and out-of-control pop star Lyric Jones. But part of him relishes taming the celebrity songstress and showing her what it's like to be possessed-body and soul-by one man. And though Lyric's crazy antics nearly drive Connor to the edge, his quiet intensity penetrates her defenses, leaving them both vulnerable to the secrets that could topple Lyric from the stage.
Elsie has a problem. She has a mystery she is bent on solving, a mystery that led her to run for her life down the streets of Navesink Bank until she found herself rescued by a sexy stranger. Paine has a past. He's done everything in his power to move on from it, to distance himself from the things he has done. But then one night he finds himself saving a woman whose naive dabbling in matters she doesn't understand threatens to drag him right back into the world he had done unspeakable things to escape from in the first place...

Most lifting bodies, or "flying bathtubs" as they were called, were so ugly only an engineer could love them, and yet, what an elegant way to keep wings from burning off in supersonic flight between earth and orbit. Working in their spare time (because they couldn't initially get official permission), Dale Reed and his team of engineers demonstrated the potential of the design that led to the Space Shuttle. Wingless Flight takes us behind the scenes with just the right blend of technical information and fascinating detail (the crash of M2-F2 found new life as the opening credit for TV's "The Six Million Dollar Man"). The flying bathtub, itself, is finding new life as the proposed escape-pod for the Space Station.

A girl raised by monsters.A man who helped get her free.A love that spans decades.Let's go back to the 80s to see how Charlie and Helen Mallick fell in love.

I'm not crazy. It's not amnesia. But I somehow lost a year of my life. When the cops and doctors think you're out of your mind, but you still need answers, where else is there to turn but a private investigator? Sawyer is nothing you'd want in a friend- a little detached, cool, sarcastic, cocksure. But he's everything you'd want in a private investigator- calm, capable, experienced, and just jaded enough by the darkness he'd seen to take a chance on some random girl who insists something more sinister must have happened to her than simple memory loss. But thrown together, trying to get to the root of my mystery, feelings that were most definitely not client/professional start to emerge.

"Rahul Kapoor is heading into seventh grade in a small town in Indiana. The start of middle school is making him feel increasingly anxious, so his favorite person in the whole world, his grandfather Bhai, gives him some well-meaning advice: Find one thing you're really good at. And become the BEST at it. Those four little words sear themselves into Rahul's brain. While he's not quite sure what that special thing is, he is convinced that once he finds it, bullies like Brent Mason will stop torturing him at school. And he won't be worried about staring too long at his classmate Justin Emery. With his best friend, Chelsea, by his side, Rahul is ready to crush this challenge. . . . But what if he discovers he isn't the best at anything?"--Goodreads.com.

Friends of the family were forbidden fruit.You didn't get to take a bite, no matter how tempting it might be.And it sure was tempting when they showed up at your doorstep, soaking wet, shaking, begging for your help, your protection, when you suddenly found them hiding out from their problems in your place, in your bed while you attempted to take on their case, figure out how someone who led the quiet kind of life she did ended up on some bad guy's radar, who wanted her badly enough to chase her through the streets, to make her need to uphold her entire life.She was trusting me, depending on me.There were plenty of things to keep my mind occupied.Yet all I could think about was what it might be like to get a taste, a touch, a bite.Maybe if I had been more focused on her case, I would have seen what was coming, could have prevented it before it was too late...

In this, her second novel, (awarded the 1967 John Llewellyn Rhys Prize) Angela Carter's brilliant imagination and starting intensity of style explore and extend the nature and boundaries of love.

Thomas Piketty's book Capital in the Twenty-First Century has enjoyed great success and provides a new theory about wealth and inequality. However, there have been major criticisms of his work. Anti-Piketty: Capital for the 21st Century collects key criticisms from 20 specialists—economists, historians, and tax experts—who provide rigorous arguments against Piketty's work while examining the notions of inequality, growth, wealth, and capital.

I was just supposed to be laying low, keeping my head down, staying out of trouble. And "trouble" was exactly what Shane freaking Mallick was. Knee-cap breaker, loan shark enforcer, panty-dropper. Trouble with a capital T. And the absolute last thing I needed in my life...

Happily-ever-after is never quite what you expect in this hot and gritty romance.

"From 2006 to 2009, AA Bronson collaborated with artist Peter Hobbs on the project Invocation of the Queer Spirits. The rituals that resulted are evoked, and invoked in Queer Spirits, Bronson and Hobbs(2019) diaristic and imagistic exploration of the project."--Note de l'éditeur.

Mark-Love and commitment might be great. You know, for my brothers. Not for me. But then, in a chance meeting, I came across her. Why was she different? I couldn't say for sure. Maybe it was the fact that she was the most gorgeous woman I had ever seen. Maybe it was the sharp edges she wore like a shield that made me want to see what was beneath. Or maybe it had something to do with whatever secret she was trying so desperately to hide. Scott-Love and commitment weren't even in the realm of possibilities for me. My life had one purpose, one mission, and I couldn't afford to let anyone get in the way. But then there was Mark Mallick - ladies man, loanshark enforcer, and very determined to know my secrets. That was problematic any day, but especially so with him. Why? Maybe because the things he would offer me, the things he would show me were possibilities for my life could make me completely reevaluate the mission that had completely consumed the last ten years of my life.But could I lose those things? Could I escape the life I had been trapped in for so long? With Mark Mallick by my side, I was thinking maybe it was possible...

This new edition of Bill Nichols's bestselling text provides an up-to-date introduction to the most important issues in documentary history and criticism. Designed for students in any field that makes use of visual evidence and persuasive strategies, Introduction to Documentary identifies the distinguishing qualities of documentary and teaches the viewer how to read documentary film. Each chapter takes up a discrete question, from "How did documentary filmmaking get started?" to "Why are ethical issues central to documentary filmmaking?" Carefully revised to take account of new work and trends, this volume includes information on more than 100 documentaries released since the first edition, an expanded treatment of the six documentary modes, new still images, and a greatly expanded list of distributors.

A Concise Introduction to Logic

Helmuth Newton

A second short story collection from Joanne Harris, author of Chocolat and Peaches for Monsieur le Cure. Stories are like Russian dolls; open them up, and in each one you'll find another story.' Conjured from a wickedly imaginative pen, here is a new collection of short stories that showcases Joanne Harris's exceptional storytelling art.

Six years on the inside gave a man a lot of time to think. And a lot of time to plan. When I got out, I was determined for things to go a different way. I never wanted to lose control and rage out again. The only way to accomplish that, though, was to shut it all down. Complete disconnect. That meant no family, no friends, no links to anything attached to the man I was before. Of course the problem was, I never factored HER into my plans. And try as I might, I couldn't find a way to shut it down, to disconnect from her. I had a sneaking suspicion she was going to take all my carefully constructed plans and toss them out the window, was going to force me to face up the demons inside and confront the ghosts from my past. Those ghosts? They wore the faces of my family. And a confrontation with them, yeah, I had a feeling it was going to show me that I had spent six years taking action on beliefs about the demons inside. Demons that had never actually existed in the first place...

RYAN She was perfect: Sweet, smart, awkwardly adorable, and beautiful as hell. The only problem was: she was terrified to leave her apartment. And, apparently, she had somehow gotten herself wrapped up with some pretty bad guys to boot. DUSTY He was perfect: He was a living, breathing, walking, talking statue come to life. But when would a man like that ever want to be with a woman who was too anxious to even walk into the hallway? Let alone go on a date with him. Or meet the family he was so close with. That being said, he seemed interested for some reason. So obviously, he was just as crazy as I was. On top of that whole confusion situation, something was going on with my business partners. And things were about to go straight to hell...

Academic Ableism brings together disability studies and institutional critique to recognize the ways that disability is composed in and by higher education, and rewrites the spaces, times, and economies of disability in higher education to place disability front and center. For too long, argues Jay Timothy Dolmage, disability has been constructed as the antithesis of higher education, often positioned as a distraction, a drain, a problem to be solved. The ethic of higher education encourages students and teachers alike to accentuate ability, valorize perfection, and stigmatize anything that hints at intellectual, mental, or physical weakness, even as we gesture toward the value of diversity and innovation. Examining everything from campus accommodation processes, to architecture, to popular films about college life, Dolmage argues that disability is central to higher education, and that building more inclusive schools allows better education for all.

An editorial team of highly skilled professionals at Arihant, works hand in glove to ensure that the students receive the best and accurate content through our books. From inception till the book comes out from print, the whole team comprising of authors, editors, proofreaders and various other involved in shaping the book put in their best efforts to ensure that the students receive. Keeping in mind the specific requirements of the students and various examinations, the carefully designed exam oriented and exam ready content comes out only after intensive research and analysis. The experts have adopted whole new style of presenting the content which is easily understandable, leaving behind the old style.

I have been developing the latest content & updates as per the needs and requirements of the students making our books a hallmark for quality and reliability for the past 15 years.
I lost my virginity when I was twenty-five years old to a hooker my sister hired because she felt bad for me. That was six years ago and it's probably the least shocking fact about my life. That was, until I met Darcy Monroe, and "shocking" took on a whole new meaning... ---- Six years after escaping his cloistered, abusive, fundamentally repressed life, Darcy is back in the world. He's got demons of his past, detached from society as a whole, and wholly unable to connect with, or trust, women. He engages in constant, meaningless sport sex with women, trying to numb the feeling of inadequacy inside. Then he sets his sights on his new neighbor... DARCY is strong, capable, outspoken, and in no way going to put up with so much abuse. Darcy is relentless. And Darcy finds herself torn between not letting him win, and giving into her own desire. Just as they start to get close, they realize that something more sinister is afoot and they will both be forced to confront feelings of betrayal that will set their lives in an unexpected direction.

This open access book offers the first comprehensive account of the pan-genome concept and its manifold implications. The realization that the genetic repertoire of a biological species always encompasses more than the genome of each individual is one of the earliest examples of big data in biology that opened biology to the unbounded possibilities of genomics and has profound consequences for our understanding of the fundamental mechanisms underpinning bacterial biology and evolution. The underlying rationale extends well beyond the initial prokaryotic focus to all kingdoms of life and evolves into similar concepts for metagenomes, phenomes and epigenomes. The books respective chapters explore the emergence of the pan-genome concept and its impacts on the fields of microbiology, vaccinology and antimicrobial resistance, to the study of microbial communities, bioinformatic applications and mathematical models that tie in with complex systems and economic theory. Given its scope, the book will appeal to a broad readership interested in genomics, microbiology and systems biology.

-Coco- There are a few things I learned recently: The love of my life, well, wasn't. My new roommate is a kook. Nothing is the way I had believed my whole life. -Jasper- Some things are abundantly clear: My sister is missing. I have her new roommate tagging along into a dangerous realm she knows nothing about. And Cece, well, she is not what you think she is.

Confident Introvert

Introduction to Documentary, Second Edition

Shane

Magic Toyshop B

Xander Rhodes, a private investigator known for taking cases that other PIs wont touch (and perhaps pushing the lines of legality in order to help his clients) is suffering from sleepless nights and a fall in confidence having failed his last case... protecting a woman from a malicious stalker. One night, a woman shows up at his office, battered and begging for help. She herself is dealing with a stalker. What he doesn't know, however, is that Ellie is hiding things from him. A dark and troubled past that threatens to put her, and his, life in jeopardy. Among trying to figure out the mystery of the woman begging asylum at his apartment, Xander is forced to deal with his growing attraction to her. Will he be able to reconcile his feelings for her or put the pieces of her life together and help her before it is too late?

Short stories inspired by the ancient Celtic god of love and youth, from the New York Times–bestselling author of The No. 1 Ladies’ Detective Agency, Angus is one of the earliest Celtic deities and one of the most cherished to this day. Like an even more handsome combination of Apollo and Eros, he is the god of love, youth, and beauty. Just the sight of him has made people fall in love, and he has the power to reveal a person’s true love in a dream, if asked politely. Alexander McCall Smith has turned his storytelling talents to crafting a collection of short fiction from this Irish mythology. Five contemporary fables of love lost and found unfold alongside Angus’s search for the beautiful Caér, the swan maiden he met in his dreams. McCall Smith mesmerizingly unites reality and dreams, today and the ancient past, leaving the reader to wonder: what is life but the pursuit of dreams? “Smith fluidly weaves in contemporary vignettes of the dream god’s benevolent influence, touching the lives of honeymooners on a windswept northern island; of a teenage boy sent away to boarding school in Scotland who tricks his mother into revealing who his true father is; and of a Toronto woman bereft at the discovery that her husband is having an affair. Angus, who presides over love and youth is also, it turns out, kindly to pigs. He is nicely reimagined in this spare, polished work.” —Publishers Weekly “This slim, elegant volume is further evidence of [Smith’s] consummate ability to blend wit, wisdom, and heart.” —Booklist (starred review)

CASH My life has been about three things- brotherhood, good times, and women. Easy. Nothing complicated. That was until Willow Swift came barging back into my life, face bloodied, banging at the gates of The Henchmen compound calling in a favor owed. Now a marker is a marker and I had to make good, but if there was one woman in the world I didn't need in my life, it was the hard-as-stone, hot-as-sin Willow Swift and whatever mysterious ghosts from her past that were haunting her present. WILLOW My life has been nothing but two things: hard and complicated. The last person I wanted in my business was the notorious love-em and leave-em Cash, but I needed help and he was the only one I could lean on without worrying about him finding out about my past. But I was starting to wonder if maybe he was his own kind of dangerous bent on making me believe in some things I had long since learned were not possible for me- like falling for a guy I could not, ever, let see the real me.

The #1 New York Times bestselling author of Year One and Of Blood and Bone concludes her stunning new trilogy praised as “A match for end-of-the-world classics like Stephen King’s The Stand.” After the sickness known as the Doom destroyed civilization, magick has become commonplace, and Fallon Swift has spent her young years learning its ways. Fallon cannot live in peace until she frees those who have been preyed upon by the government or the fanatical Purity Warriors, endlessly hunted or locked up in laboratories, brutalized for years on end. She is determined to save even those who have been complicit with this evil out of fear or weakness—if, indeed, they can be saved. Strengthened by the bond she shares with her fellow warrior, Duncan, Fallon has already succeeded in rescuing countless shifters and elves and ordinary humans. Now she must help them heal—and rediscover the light and faith within themselves. For although from the time of her birth, she has been The One, she is still only one. And as she faces down an old nemesis, sets her sights on the enemy’s stronghold, and pursues her destiny—to finally restore the mystical shield that once protected them all—she will need an army behind her...

Where the Stars Still Shine

Chronicles of The One, Book 3

367 Days

Dissent

Being engaged to Alex Waters, team captain and the highest paid NHL player in the league, is awesome. How could it not be? In addition to being an amazing hockey player, he's an incurable romantic with an XL heart, and an XXL hockey stick in his pants. And he knows how to use it. Incredibly, orgasmically well. Alex is the whole package and more. Literally. Like his name, Alex Waters is a package deal. So it makes complete sense that Violet Hall can't wait to nail him down to the matrimonial mattress and become Mrs. Violet Waters. It's so romantic. Violet is totally stoked to set a date. Eventually. At some point. Likely before the next millennium. Or when Violet stops getting lives every time someone brings up the wedding, and their mothers stop colluding on stupid things.
PUCKED is a followup to PUCKED (The Pucked Series Book 1), while it is not necessary to have read Pucked Up (Book 2) or Pucked Over (Book 3) it is highly recommended to that you read Pucked First.***

Neurofibromatosis type 1 (NF1), caused by mutational inactivation of the NF1 tumour suppressor gene, is one of the most common dominantly inherited human disorders, affecting 1 in 3000 individuals worldwide. This book presents in concise fashion, but as comprehensively as possible, our current state of knowledge on the molecular genetics, molecular biology and clinical features of NF1. Written by internationally recognized experts in the field, the 44 chapters that constitute this edited volume provide the reader with a broad overview of the clinical features of the disease, the structure and expression of the NF1 gene, its germ line and somatic mutational spectra and genotype-phenotype relationships, the structure and function of its protein product, and the pathogenesis of NF1-associated tumours, animal models of the disease, psycho-social aspects and future prospects for therapeutic treatment.

Young black women bear all the hallmarks of a fundamentally unequal society. They do well at school, contribute to society, are good efficient workers yet, as a group they consistently fail to secure the economic status and occupational prestige they deserve. This book presents a serious challenge to the widely held myth that young black women consistently underachieve. A comparative study of research and writig from America, Britain and the Caribbean Young, Female and Black re-examines our present understanding of what is meant by educational underachievement, the black family and, in particular, black womanhood in Britain.

I knew the exact moment I'd become a 'yes' girl.December 16th, a cold winter's night, four years ago.The night my innocence was stolen, the night I made the mistake of saying no--a mistake I'd never make again.The dream of a 'happily ever after' was now a locked away myth. I promised myself that I'd never return to the place of my worst nightmare, that I'd never let myself be someone like him.The intense, confident and beautiful Ky Crawford! had no plans to become someone's Prince Charming!I couldn't be. I refused to be. My plan was simple--do whatever it takes to correct my biggest mistake, my one regret that now controlled my life!I was on track. I had plans, but then everything changed when I saw her--the girl in the red jacket who had stolen my innocence. Academic Ableism
