This remarkable study rescues from undeserved obscurity the name and reputation of Sacajawea — a true Native American heroine. The volume also unravels the tangled threads of her family life and traces the career of her son Baptiste (the "papoose" of the Lewis and Clark expedition). It also describes her personal traits, the significant services she rendered during the expedition and while she acted as counselor to her own people, discloses the true meaning of her name and describes her "lost years" among the Comanches. The text is enhanced with 21 illustrations, including a map, and 6 appendices containing testimonies by Indian agents, missionaries, teachers, and Shoshone tribespeople.

I try to personally respond to all the e-mails but I've also decided to use this forum to answer the best questions I receive, such as this one from Jeffrey Dawson, Wales: "An American friend told me about your book and I have ordered but not received it yet from [Amazon.co.uk/United Kingdom](http://Amazon.co.uk/United Kingdom). WOW! I have a question. As Sacajawea led the mission from the Missouri to the Pacific and back, were there any deaths among the members of the expedition on the arduous journey?" ANSWER: There were many close calls but only one member of the expedition died during the journey. That was Sergeant Charles Floyd. He died on August 20th, 1804, near present day Sioux City, Iowa. "I enjoyed your book and notice you spell your icon 'Sacajawea' but from time to time I see it spelled 'Sacagawea' or 'Sacakawea' or even 'Sakakawea' just as often. Can you explain this to me?"

ANSWER: I use the "Sacajawea" spelling simply because she was a Shoshone and my Shoshoni friends think of her and spell her name that way. In other words, Sacajawea is family to them and that gives them the prerogative, I think. If a white family had a daughter named Kathy, for example, I would think of Kathy with a "K" and not Cathy with a "C." But I understand your confusion. Sacajawea

was Shoshoni but she was captured and enslaved by the Hidatsa Indians of Knife River in present day North Dakota when she was a child. Her Hidatsa captors named her "Sacagawea," which to them meant "Bird Woman." The Lewis and Clark Expedition helped reunite her with her Shoshoni people in 1805 and by then her brother Cameahwait had become Chief of the Shoshones. Even within their own tribe, Shoshoni women often had several name changes from time to time but Sacajawea apparently liked her Hidatsa name and it closely resembled the Shoshoni name that meant "one who launches boats." So, even today the Hidatsas and Shoshones pronounce the name basically the same except for the third syllable. Lewis and

Clark, on the expedition, spelled her name as they pronounced it -- "Sah-cah-gah-we-ah." The Hidatsa word for bird is "sacaga" and the Hidatsa word for woman is "wea" and combining the two was how Sacajawea originally was named. But the general acceptance of the name by her Shoshoni people affords them the right to start the third syllable with a "j" and not a 'g' and pronounce it "Sack-a-ja-wea," I think. To the Shoshones, her name is "Sacajawea" and it means "boat launcher" but to the Hidatsas her name is "Sacakawea" and it means "Bird Woman." The third spelling -- "Sakakawea" --is promoted by the North Dakota Hidatsa and they pronounce it "sa-ka-ka-we-a." In 1814, eight years after the expedition, a man
