

Saga 7

In this national bestseller, David A. Robertson “weaves an engrossing and unforgettable story with the precision of a historian and the colour of a true Indigenous storyteller.” (Rosanna Deerchild) 7 Generations: A Plains Cree Saga is an epic, four-part graphic novel. Illustrated in vivid colour, the story follows one Indigenous family over three centuries and seven generations. This compiled edition was originally published as a series of four graphic novels: Stone, Scars, Ends/Begins, and The Pact. Stone introduces Edwin, a young man who must discover his family’s past if he is to have any future. Edwin learns of his ancestor Stone, a young Plains Cree man, who came of age in the early 19th century. When his older brother is tragically killed during a Blackfoot raid, Stone, the best shot and rider in his encampment, must overcome his grief to avenge his brother’s death. In Scars, the story of White Cloud, Edwin’s ancestor, is set against the smallpox epidemic of 1870-1871. After witnessing the death of his family one by one, White Cloud must summon the strength to find a new home and deliver himself from the terrible disease. In Ends/Begins, readers learn about the story of Edwin’s father, and his experiences in a residential school. In 1964, two brothers are taken from the warm and loving care of their grandparents, and spirited away to a residential school. When older brother James discovers the anguish that his brother is living under, it leads to unspeakable tragedy. In The Pact, the guilt and loss of James’s residential school experiences follow him into adulthood, and his life spirals out of control. Edwin, mired in his own pain, tries to navigate past the desolation of his fatherless childhood. As James tries to heal himself he begins to realize that, somehow, he must save his son’s life—as well as his own. When father and son finally meet, can they heal their shattered relationship, and themselves, or will it be too late? The Xenoworld Saga

Njáls saga is the best known and most highly regarded of all medieval Icelandic sagas and it occupies a special place in Icelandic cultural history. The manuscript tradition is exceptionally rich and extensive. The oldest extant manuscripts date to only a couple of decades after the saga’s composition in the late 13th century and the saga was subsequently copied by hand continuously up until the 20th century, even alongside the circulation of printed text editions in latter centuries. The manuscript corpus as a whole has great socio-historical value, showcasing the myriad ways in which generations of Icelanders interpreted the saga and took an active part in its transmission; the manuscripts are also valuable sources for evidence of linguistic change and other phenomena. The essays in this volume present new research and a range of interdisciplinary perspectives on the Njáls saga manuscripts. Many of the authors took part in the international research project "The Variance of Njáls saga" which was funded by the Icelandic Research Council from 2011-2013.

Representative of a unique literary genre and composed in the 13th and 14th centuries, the Icelandic Family Sagas rank among some of the world’s greatest literature. Here, Heather O’Donoghue skillfully examines the notions of time and the singular textual voice of the Sagas, offering a fresh perspective on the foundational texts of Old Norse and medieval Icelandic heritage. With a conspicuous absence of giants, dragons, and fairy tale magic, these sagas reflect a real-world society in transition, grappling with major new challenges of identity and development. As this book reveals, the stance of the narrator and the role of time – from the representation of external time passing to the audience’s experience of moving through a narrative – are crucial to these stories. As such, Narrative in the Icelandic Family Saga draws on modern narratological theory to explore the ways in which saga authors maintain the urgency and complexity of their material, handle the narrative and chronological line, and offer perceptive insights into saga society. In doing so, O’Donoghue presents a new poetics of family sagas and redefines the literary rhetoric of saga narratives.
