The Yellow Wallpaper is a story by the American writer Charlotte Perkins Gilman. It is regarded as an important early work of American feminist literature, illustrating attitudes in the 19th century toward women's physical and mental health. Presented in the first person, the story is a collection of journal entries written by a woman (Jane) whose physician husband (John) has confined her to the upstairs bedroom of a house he has rented for the summer. She is forbidden from working and has to hide her journal

The windows of the room are barred, and there is a gate across the top of the stairs, allowing her husband to control her access to the rest of the house. The story depicts the effect of confinement on the narrator's mental health and her descent into psychosis. With nothing to stimulate her, she becomes obsessed by the pattern and color of the wallpaper. "It is the strangest yellow, that wallpaper! In the end, she imagines there are women creeping around behind the patterns of the wallpaper and comes to believe she is one of them. She locks herself in the room, now the only place she feels safe, refusing to leave when the summer rental is up. "For outside you have to creep on the ground, and everything is green instead of yellow. But here I can creep smoothly on the floor, and my shoulder just fits in that long smooch around the wall, so I cannot lose my way."

Forsaking blindingly technical statistics and doomsday scenarios, Dr. Spencer explains in simple terms how the climate system really works, why man ' s role in global warming is more myth than science, and how the global warming hype has corrupted Washington and the scientific community. The reasons, Spencer explains, are numerous: biases in governmental funding of scientific research, our misconceptions about science and basic economics, even our religious beliefs and worldviews. From Al Gore to Leonardo DiCaprio, the climate change industry has given a platform to leading figures from all walks of life, as pandering politicians, demagogues and biased scientists forge a self-interested movement whose proposed policy initiatives could ultimately devastate the economies of those
