Many social workers, health care staff and teachers maintain high standards of professionalism, often in stressful and challenging circumstances. However, research also reveals instances where individual practitioners and managers, or whole organisations, fail to act lawfully, ethically and/or carefully. This book addresses just those instances by providing guidance on how to maintain accountable professionalism in tricky "what if?" situations. Dilemmas are explored using case studies and the mosaic of legal rules and regulatory body requirements for accountable professionalism are also laid out. The book will appeal to students and newly qualified practitioners in teaching, health and social work and their managers.

In today's courts, there is no crime more aggressively legislated, prosecuted, or adjudicated than driving while under the influence of alcohol or drugs. This one-stop resource demystifies a complex area of law, analyzing exhaustively the many available avenues of prosecution and lines of defense. Noted DUI expert Robert S. Reiff, rated the most effective DUI advocate in South Florida in a 1991 Miami Herald study, shows you how to sell yourself to your client, select a jury, cross-examine the arresting officer, and deliver a strong closing argument. He offers his "Top Twenty Tips" for defending DUI cases and provides a large assortment of proven forms for pleadings, motions, correspondence, and other uses. Learn from the Master DUI Practitioner, who has taught thousands of attorneys how to better manage their practices, win their cases, and increase their profits. The new Fifth Edition of Drunk Driving and Related Vehicular Offenses, updated with new case law and practical advice, provides coverage of numerous topics relevant to DUI and other driving offenses, including: • Physical sobriety exercises • Breath, urine, and blood tests • Double jeopardy limitations on prosecutions • Administrative driver's license hearings • Entrapment and necessity defenses • Jury instructions • Expert witness preparation and examination • Sentencing • Accident investigation and reconstruction • DUI and drug recognition • Boating under the influence • Murder, manslaughter, vehicular homicide, reckless driving, and other serious vehicular offenses A new "Trial Notebook" has been added to assist you in trial preparation. The Appendices include dozens of sample forms and motions to streamline your practice, along with sample questions for jurors and witnesses, and a wealth of other helpful materials for the DUI practitioner.

To win regularly, you need to capture both the hearts and the minds of jurors. The mind is simpler to persuade. You capture jurors' minds through your cross examination, if the defense is one of prosecutorial problems ... bad machine or bad procedures, or through your witnesses if the defense is something else ... GERD, necessity, etc. The heart is more difficult. To persuade the heart, you need to give jurors a simple answer to the question posed by family and friends, "How come you let the drunk go?" You need to make jurors want to let your client off. Innovative DUI Trial Tools provides strategies and language for persuading both hearts and minds. These methods and arguments have succeeded in trial after trial, and can work for you.
