Nationalism and patriotism are

Where To Download Sample Sociology Papers

two of the most powerful forces shaping world history. Though seen by many as two sides of the same coin, they have developed widely different connotations. Nationalism is increasingly seen as destructive, and at the root of the

Where To Download Sample Sociology Papers

world's bloodiest conflicts; patriotism seems something more benign, a political virtue. How are we to mark the distinction between these two phenomena? How can we rescue patriotism from the tainted grasp of

Where To Download Sample Sociology Papers

nationalism? Reconstructing the historical the meaning of the terms, Maurizio Viroli shows how the two concepts have been used within specific cultural and ideological contexts. He reviews the political thought of Italy,

Where To Download Sample Sociology Papers

England, and Germany and shows how patriotism and nationalism have fundamentally different roots. Professor Viroli concludes that it is morally unacceptable, and indeed unnecessary, to be a nationalist to defend the values

Where To Download Sample Sociology Papers

that nationalists hold dear. Patriotism, however, is a valuable source of civic responsibility. Counter to popular perceptions, contemporary American sociology is and promotes a profoundly sacred project at heart. Sociology

Where To Download Sample Sociology Papers

today is in fact animated by sacred impulses, driven by sacred commitments, and serves a sacred project. Sociology appears on the surface to be a secular, scientific enterprise--its founding fathers were mostly atheists. Its basic

Where To Download Sample Sociology Papers

operating premises are secular and naturalistic. Sociologists today are disproportionately not religious, compared to all Americans, and often irreligious. The Sacred Project of American Sociology shows, counter-

Where To Download Sample Sociology Papers

intuitively, that the secular enterprise that everyday sociology appears to be pursuing is actually not what is really going on at sociology's deepest level. Christian Smith conducts a self-reflexive, tables-turning, cultural and

institutional sociology of the profession of American sociology itself, showing that this allegedly secular discipline ironically expresses Emile Durkheim's inescapable sacred, exemplifies its own versions of Marxist false

consciousness, and generates a spirited reaction against Max Weber's melancholically observed disenchantment of the world. American sociology does not escape the analytical net that it casts over the rest of the ordinary

world. Sociology itself is a part of that very human, very social, often very sacred and spiritual world. And sociology's ironic misrecognition of its own sacred project leads to a variety of arguably self-destructive and
