This book provides a general survey of all the inscriptional material in the Sanskrit, Prakrit, and modern Indo-Aryan languages, including donative, dedicatory, panegyric, ritual, and literary texts carved on stone, metal, and other materials. This material comprises many thousands of documents dating from a range of more than two millennia, found in India and the neighboring nations of South Asia, as well as in many parts of Southeast, central, and East Asia. The inscriptions are written, for the most part, in the Brahmī and Kharosthī scripts and their many varieties and derivatives. Inscriptional materials are of particular importance for the study of the Indian world, constituting the most detailed and accurate historical and chronological data for nearly all aspects of traditional Indian culture in ancient and medieval times. Richard Salomon surveys the entire corpus of Indo-Aryan inscriptions in terms of their contents, languages, scripts, and historical and cultural significance. He presents this material in such a way as to make it useful not only to Indologists but also non-specialists, including persons working in other aspects of Indian or South Asian studies, as well as scholars of epigraphy and ancient history and culture in other regions of the world.

Drawing on the personal experience of a leading international jurist, this book provides insights into the workings of international law and human rights from a global perspective that transcends the traditional divide between the West and the East, and the Global South and Global North. The work follows the author’s remarkable journey from a simple village in Nepal to becoming an international jurist acclaimed for his innovative academic and influential practical legal work and nomination for the Nobel Peace Prize. It offers insights into the powers bearing on international policymaking, the dynamics of human rights negotiations with governments, and the effects of their outcomes on the lives of their citizens. While much has been written on international human rights law, this inspirational memoir casts a new light on the working of human rights, law, and justice through the eyes of a leading actor. It provides a valuable contribution to the study of justice and human rights and the importance of individual action. As such, the book presents an accessible source for current debates around the development and effectiveness of international law and human rights and practices for decolonising these debates. The book will provide inspiration and practical guidance for students, academics, international lawyers, jurists, and human rights advocates.
