*#1 NATIONAL BESTSELLER • "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism." —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray, would also provide the impetus for *Into Thin Air*, Krakauer's epic account of the May 1996 disaster. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters—a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."*

This book contains as many as 1,395 core SAT words along with synonyms, definitions, and example sentences. In addition, in order to help students preparing for the SAT to memorize the words more effectively, certain words more effectively, certain words have stars (), which indicate the degrees of difficulty of memorizing them. Based on Mr. Shin's long-term SAT teaching degree experience, students preparing for the SAT must precisely learn the long-term definitions of the SAT words in this book to enhance their SAT Critical Reading scores, particularly on the sentence completion and the short reading passage sections. Once students have memorized all the words, they will be able to start dealing with questions related to the long passages more easily and efficiently. This book will enable students to become better SAT test takers.*

Expanding students' word power for higher SAT scores has just become more fun—and more effective! This brand new book uses cartoon-style illustrations that present visual puns, augmented with verbal mnemonics and sample sentences. All examples are designed to help students learn words and meanings, then retain them in their memories when the time comes to take that important college entrance exam. A total of 300 words frequently encountered on the SAT I are presented, each with its own illustration, definition, and set of memory aids. A review is presented at the end of every 12-word group with an amusing written passage to

reinforce the words and meanings within a narrative context.

Provides definitions and study tips for over sixteen hundred frequently used SAT words and includes strategies for memorizing the words and answering questions on the test.

One teenager in a skirt. One teenager with a lighter. One moment that changes both of their lives forever. If it weren't for the 57 bus, Sasha and Richard never would have met. Both were high school students from Oakland, California, one of the most diverse cities in the country, but they inhabited different worlds. Sasha, a white teen, lived in the middle-class foothills and attended a small private school. Richard, a black teen, lived in the crime-plagued flatlands and attended a large public one. Each day, their paths overlapped for a mere eight minutes. But one afternoon on the bus ride home from school, a single reckless act left Sasha severely burned, and Richard charged with two hate crimes and facing life imprisonment. The 57 Bus is Dashka Slater's true account of the case that garnered international attention and thrust both teenagers into the spotlight.

Test your knowledge with more than 400 words to amaze, confuse, and inspire budding wordsmiths (and adults). All of the words featured in this book are difficult to spell, hard to say, and their meanings are obscure to most children (and most adults)! Written with simple, easy-to-understand definitions by lexicographer Jane Solomon, this dictionary celebrates the beauty of the English language for family trivia time spent around the printed page.

SAT Vocabulary: A New Approach covers key vocabulary for the Reading test, Writing and Language test, and Essay of the redesigned (2016) SAT. Written by two leading test-prep authors, this book offers an approach that is aligned with the new SAT's focus on vocabulary in context. Rather than provide long lists of words and definitions for students to memorize, it features thorough explanations of the various contexts in which vocabulary is tested, then gives students the opportunity to practice applying knowledge via carefully sequenced series of exercises.
