The book is bringing to fore new ways and approaches to governance in Africa and it underscores what politics can do in realizing this to modern states, including those in Africa. It captures the beyond 21st Century moment for Africa in lieu of the vast resources associated with the continent. The questions asked pertinently in the book include; What should a new Africa (same resources, same methods of governance, recycled leadership, Western leaning academicians, same traditional export–import trade) entail? The authors yearn for good agricultural forms, profitable business models, seeing ills and rectifying them, and dealing with power dispositions responsibly.

A comprehensive filmography, this book is composed of lengthy entries on about 75 films depicting legendary New Mexico outlaw Billy the Kid—from the lost Billy the Kid (1911) to the blockbuster Young Guns (1988) to the direct-to-video 1313: Billy the Kid(2012) and everything in between. Each entry gives a synopsis, cast and credits, critical reception, and a discussion of the events of the films compared to the historical record. Among the entries are made-for-TV and direct-to-video films, foreign movies, and continuing television series in which Billy the Kid made an appearance. Safe and effective structural firefighting requires a complex thought process. It is not a simple matter of “how to.” Decisions depend on many factors, from the type of building, to the likelihood of occupancy, to the water supply. The third edition of Structural Firefighting: Strategy and Tactics leads readers through all phases of planning, evaluation and implementation to enable them to effectively manage structure fire incidents safe and effective manner, regardless of size or complexity. The third edition has been revised to thoroughly cover the practical applications and limitations of the latest research from Underwriters Laboratories (UL) and National Institute of Standards and Technology (NIST).

Modern Consumer Law is a lively, concise, problem-focused text on contemporary consumer law. It is the only text on the market conceptualized after Dodd-Frank and its creation of the Consumer Financial Protection Bureau. The book takes a functional approach to consumer law, looking at types of transactions such as mortgages as well as kinds of laws such as disclosure rules. It examines core theoretical questions in an accessible way, revealing consumer law as a series of statutes built on the common law foundations of contract and tort. Organized into 28 class-sized assignments, the book is easy to adapt to a teacher's preferences in terms of focus and class credits. The problems provide students with the opportunity to apply statutes to realistic situations and ask them to consider the perspectives of consumers, businesses, and lawmakers. Katherine Porter is a national expert in consumer law and a co-author of Wolter Kluwer's The Law of Debtors and Creditors.

There exists a series of contemporary artists who continually defy the traditional role of the artist/author, including Art & Language, Guerrilla Girls, Bob and Roberta Smith, Marvin Gaye Chetwynd and Lucky PDF. In Death of the Artist, Nicola McCartney explores their work and uses previously unpublished interviews to provoke a vital and nuanced discussion about contemporary artistic authorship. How do emerging artists navigate intellectual property or work collectively and share the recognition? How might a pseudonym aid 'artivism'? Most strikingly, she demonstrates how an alternative identity can challenge the art market and is symptomatic of greater cultural and political rebellion. As such, this book exposes the art world's financially incentivised infrastructures, but also examines how they might be reshaped from within. In an age of cuts to arts funding and forced self-promotion, this offers an important analysis of the pressing need for the artistic community to construct new ways to reinvent itself and incite fresh responses to its work.

Wyatt Earp, the Gunfight near the O.K. Corral, and related events happened in the larger context of an area in turmoil. The Tombstone Mining District was a fluid area, filled with hard working settlers, some of the nations best mining engineers, and some of the nations worst criminals. The Tombstone saga and its greatest conflicts were linked to incidents outside of Tombstone. A shooting near Drew's Station, drew Wyatt Earp more closely into conflict with the local outlaw element. This in turn would set in motion a chain of events that would in part lead to the West's most famous gunfight, the Gunfight near the O.K. Corral. The Earps were brought into court at Contention City over the shootings in Tombstone. The all important history of Drew's Station, Contention City, and Fairbank, Arizona Territory are now revealed for the first time ever. Heavily documented and thoroughly researched, many misconceptions about this portion of the wild west are brought to light, and a great deal of previously unpublished research is now available for the first time, bringing to light the key stories of these key locations along the road to Tombstone.

“Black Hawks Rising” tells the story of the formation and deployment of the African Union Mission to Somalia (AMISOM) in March 2007. Initially confined to peacekeeping within the Mogadishu enclave, it transformed into a peace-making mission. Many - including the author, who predicted the mission was DOA (Dead on Arrival) - gave the mission little chance of success. As a fighting force, however, AMISOM took on the Somali insurgents in 2010; expelled them from Central Mogadishu on Saturday, 6 August 2011; and expanded control of territory under the Somali Government in the succeeding years to most of Somalia. The opening chapters of the book take the reader behind the scenes to highlight the inconsistent - and sometimes disastrous - US policy in the Horn of Africa generally, and in Somalia (specifically dating back to the Kennedy administration in the early 1960s). Under President George Bush, the US strongly and vigorously opposed deployment of regional African troops in Somalia - instead sponsoring Somali factions to fight against each other and, when that flopped, egged on Ethiopia to invade Somalia in December 2006, which caused the rise of violent insurgency that spilled across borders. Young jihadists streamed from the heart of USA to fight the invaders. To clean up the mess, the Bush administration finally supported the deployment of regional troops. Black Hawks Rising captures intimately the stories of the men and women who made up AMISOM: their triumphs, setbacks and victories. The spotlight focuses on the Uganda People's Defence Forces (UPDF), whose Herculean efforts supported by Burundi National Defence Forces (BNDF) - and later the Kenya Defence Forces (KDF), Forces Armées Djiboutiennes (FAD), Ethiopian National Defence Forces (ENDF) and Republic of Sierra Leone Armed Forces (RSLAF) - were pivotal to the success of the mission. Their dedication, professionalism, ideological commitment, hard work and humanity turned Somalia from a wasted nation to one with hope for peace, stability and a better future for the Somali people. Like Heru - the Hawk-God of Ancient Egypt - AMISOM's new breed of African peace-warriors have demonstrated the capacity to work across borders regionally, continent-wide and globally to help resolve conflicts whenever and wherever they arise - protecting lives and property, and preventing genocides before they happen.

“A gentleman when the game was hard-bitten, played by rough-and-ready lads out to win whatever the cost...” Australia had few sporting heroes in the years preceding its federation in 1901. But before its 20th-century Olympic trailblazers, and Depression-era icons such as Phar Lap and Don Bradman, came an Australian sporting pioneer who was celebrated on the most glamorous stage in the world—American major league baseball. Joe Quinn’s story has long been lost in the land of his birth. This tale gallops from the deprivation of famine-ravaged Ireland through colonial Australia to the raucous ballfields of 19th-century America, with their unruly players and owners, brawls and adulation and backroom betrayals. Through 17 seasons in the major leagues, “Undertaker” Joe Quinn earned his place among the colorful characters who pioneered the modern game of baseball, as much for his ability to stand apart from their bad behavior as for his steadfastness on the field. Meet Australia’s first professional baseball player and manager, whose willingness to “have a go” in the grand Australian tradition will live long in the minds of sports fans on both sides of the Pacific.

The Story of AMISOM’s Successful War against Somali Insurgents, 2007-2014

On the Road to Tombstone

During the run-up to Kenya's 2013 general elections, crucial political and civic questions were raised. Could past mistakes, especially political and ethnic-related violence, be avoided this time round? Would the spectre of the 2007 post-electoral violence positively or negatively affect debates and voting? How would politicians, electoral bodies such as the IEBC, the Kenyan civil society, and the international community weigh in on the elections? More generally, would the 2013 elections bear witness to the building up of an electoral culture in Kenya, characterized by free and fair elections, or would it show that voting is still weakened by political malpractices, partisan opinions and emotional reactions? Would Kenya's past be inescapable or would it prepare the scene for a new political order? Kenya's Past as Prologue adopts a multidisciplinary perspective - mainly built upon field-based ethnography and a selection of case studies - to answer these questions. Under the leadership of the French Institute for Research in Africa (Institut français de recherche en Afrique, IFRA), political scientists, historians and anthropologists explore various aspects of the electoral process to contribute in-depth analyses of the last elections. They highlight the structural factors underlying election and voting in Kenya including the political system, culture and political transition. They also interrogate the short-term trends and issues that influence the new political order. The book provides insight into specific case studies, situations and contexts, thus bringing nuances and diversity into focus to better assess Kenya's evolving electoral democracy.

Discover one of the greatest true crime stories in music history, as only James Patterson can tell it. With the Beatles, John Lennon surpasses his youthful dreams, achieving a level of superstardom that defies classification. “We were the best bloody band there was,” he says. “There was nobody to touch us.” Nobody except the original nowhere man, Mark David Chapman. Chapman once worshipped his idols from afar—but now harbors grudges against those, like Lennon, whom he feels betrayed him. He’s convinced Lennon has misled fans with his message of hope and peace. And Chapman’s not staying away any longer. By the summer of 1980, Lennon is recording new music for the first time in years, energized and ready for it to be “(Just Like) Starting Over.” He can’t wait to show the world what he will do. Neither can Chapman, who quits his security job and boards a flight to New York, a handgun and bullets stowed in his luggage. The greatest true-crime story in music history, as only James Patterson can tell it. Enriched by exclusive interviews with Lennon’s friends and associates, including Paul McCartney, The Last Days of John Lennon is the thrilling true story of two men who changed history: One whose indelible songs enliven our world to this day—and the other who ended the beautiful music with five pulls of a trigger.
