**This book investigates the causes and consequences of image-based sexual abuse in a digital era. Image-based sexual abuse refers to the taking or sharing of nude or sexual photographs or videos of another person without their consent. It includes a diversity of behaviours beyond that of "revenge porn", such as the secret trading of nude or sexual images online; "upskirting", "downblousing" and other "creepshots"; blackmail or "sextortion"**

This book investigates the pervasiveness and experiences of these harms, as well as the raft of legal and non-legal measures that have been introduced to better respond to and prevent image-based sexual abuse. The book draws on groundbreaking empirical research, including surveys in three countries with over 6,000 respondents and over 100 victim-survivor and**

Guided by theoretical frameworks from gender studies, sociology, criminology, law and psychology, the authors argue that image-based sexual abuse is more commonly perpetrated by men than women, and that perpetration is higher among some groups, including younger and sexuality minority men. A landmark biography explores the crucial resonances among the life, work, and times of one of the most influential filmmakers of our age. When Jean-Luc Godard wed the ideals of filmmaking to the realities of autobiography and current events, he changed the nature of cinema. Unlike any earlier films, Godard's work shifts fluidly from fiction to documentary, from criticism to art. The man himself also projects shifting images—cultural hero, fierce loner, shrewd businessman. Hailed by filmmakers as a—if not the—key influence on cinema, Godard has entered the modern canon, a figure as mysterious as he is indispensable.

In *Everything Is Cinema*, critic Richard Brody has amassed hundreds of interviews to demystify the elusive director and his work. Paying as much attention to Godard's technical inventions as to the political forces of the postwar world, Brody traces an arc from the director's early critical writing, through his popular success with *Breathless*, to the grand vision of his later years. He vividly depicts Godard's wealthy conservative family, his fluid politics, and his tumultuous dealings with women and fellow New Wave filmmakers. *Everything Is Cinema* confirms Godard's greatness and shows decisively that his films have left

indomitable will of the human spirit. For Kivrin, preparing an on-site study of one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of

There is something so strong, and at the same time unique, in any Indian work of art that its 'Indianness' is felt first of all, and what it is, is seen only on second thought. How this Indianness is expressed in terms of the relationship between line, surface, volume and other elements of visualisation is dealt with in this book. There are permanent qualities throughout the fabric of Indian sculpture which are discussed in detail. These essential qualities, all interrelated

The underlying and essential qualities are viewed in their permanency throughout the special conditions that the single monuments imply. Their outward connections, geographical and chronological, are seen to resolve themselves into ethical problems and those of the artistic process itself. An Intimate War tells the story of the last thirty-four years of conflict in Helmand Province, Afghanistan as seen through the eyes of the Helmandis. In the West, this period is often defined through different lenses - the Soviet intervention, the civil war, the Taliban, and the post-2001 nation-building era. Yet, as experienced by local inhabitants, the Helmand conflict is a perennial one, involving the same individuals, families and groups, and driven by the same arguments over land, water and power. This book - based on both military and research experience in Helmand and 150 interviews in Pashto - offers a very

different view of Helmand from those in the media. It demonstrates how outsiders have most often misunderstood the ongoing struggle in Helmand and how, in doing so, they have exacerbated the conflict, perpetuated it and made it more violent - precisely the opposite of what was intended when their interventions were launched. Mike Martin's oral history of Helmand under- scores the absolute imperative of understanding the highly local, personal, and non-ideological nature of internal conflict in much of the 'third' world. genuine and vibrant people's movement. Culled from the voices of people, often such stories only feed into the research of scholars, largely unacknowledged and forgotten. The dominant narrative is always from the perspective of the ruler and single individuals. One had hoped that democracy would set it right. But the people who are the primary contributors to the discourse always remain on the fringes. Written by Aruna Roy with the MKSS collective, this book is for everyone who asks questions, seeks answers to fight corruption and injustice and challenges arbitrary power. It is a

A Washington Post Notable Book This New York Times bestseller is a “masterful” (The Washington Post), “juicy tour of the company [Jeff] Bezos built” (The New York Times Book Review), revealing the most important business story of our time by the bestselling author of The Everything Store. Unbound, Brad Stone presents an “excellent” (The New York Times), deeply reported, vividly drawn portrait of how a retail upstart became of the most powerful and feared entities in the global economy. Stone also probes the evolution of Bezos himself—who started as a geeky technologist totally devoted to building Amazon, but who transformed to become a fit, disciplined billionaire with global ambitions, who ruled Amazon with an iron fist, even as he found his personal life splashed over the tabloids. Definitive, timely, and “engaging” (Jon Meacham, author of *The Soul of*

An empathetic, moving account of what drives indigenous peasants to support armed struggle despite severe state repression, including lives lost, and homes and communities destroyed Over the past decade, the heavily forested, mineral-rich region of Bastar in central India has emerged as one of the most militarized sites in the country. The government calls the Maoist insurgency the "biggest security threat" to India. In 2005, a state-sponsored vigilante movement,

the Salwa Judum, burned hundreds of villages, driving their inhabitants into state-controlled camps, drawing on counterinsurgency techniques developed in Malaysia, Vietnam and elsewhere. Apart from rapes and killings, hundreds of “surrendered” Maoist sympathizers were conscripted as auxiliaries. The conflict continues to this day, taking a toll on the lives of civilians, security forces and Maoist cadres. In 2007, Sundar and others took the Indian government to the Supreme Court over the human rights violations arising out of the conflict. In a landmark judgment

in 2011 the court banned state support for vigilantism. The Burning Forest describes this brutal war in the heart of India, and what it tells us about the courts, media and politics of the country. The result is a fascinating critical account of Indian democracy.
