'Lake Como' is a name you will often hear from friends or read in travel blogs if you are planning a vacation in Italy. The third largest lake in Italy is a hit amongst

vacationers, and there are plenty of reasons behind it. Why is it so famous? Those who are unfamiliar with the charm of Lake Como often wonder why it garners so much attention. Why people fly from all around the world to see just a lake? Well, the answer the query is that Lake Como is not just any lake; it is marked by one of the best properties, natural beauty, mountains, picturesque villages, adventure sports options and, last but not the least, pure luxury of Lake Como holiday villas. This guide covers the Lake Como, and the towns of Como, Bellagio, Menaggio, and Varenna, in addition to the one-day trips you can make from one of these towns to Piona, Villa Carlotta, and Villa del Balbianello.

The Great Dolomites Road crosses three regions: Südtirol, Trentino, and Veneto. It is a classic itinerary to visit some of the most scenic parts of the Dolomites. Anyone driving along it is advised to begin in Bozen (Bolzano in Italian). The very well developed road is paved; however, it is very curvy with a maximum gradient of 12% and requires real driving. For teams, the route is only partly recommended because the streets are very narrow and confusing, especially from the Fassa Valley onwards. Numerous viewpoints and parking areas allow a panoramic view of the surrounding Dolomites. This guide leads you in a drive on the Great Dolomite Road, from Bolzano to Cortina d'Ampezzo, going through

The book focuses on the common visa policy as a case study on the constitutional structure of the European Union. After introducing the nature of visas, the book concentrates on the difficulties in forging a common visa policy at European level. Cooperation on visas has been characterized by a continuous reformulation of the framework for cooperation. The book describes cooperation before the Treaty on European Union adopted at Maastricht, under the Maastricht Treaty, and under the Treaty of Amsterdam. Furthermore, the book traces the essential characteristics of the

are three European Member States—France, Belgium, and Italy—that implement EU visa policy in Morocco, a country whose nationals are considered to be a migratory ‘risk’ for the EU. The book focuses on the implementation of EU visa policy in the consulates of Belgium, France and Italy in Casablanca. The empirical research and the comparative perspective make this book distinct. The book uses a ‘comprehensive implementation approach’ by taking account of the local, national and supranational locations of policy-making. It builds on in-depth pioneering fieldwork and a comparative research design that includes those three locations.

The research design has determined the evolving of the puzzle and the realizing of the unanticipated: cross-national differences diminish when policy is put into practice. Extensive research into the visa sections of those EU Member States provides highly original material that sheds light on the obscure black box of EU visa policy implementation, therefore contributing to policy studies, migration studies, and studies on the European Union.

The upheavals of the Arab Spring grabbed the world ' s immediate attention, and concern quickly grew over their potential aftermath, with the fear that a ' tidal wave ' of immigrants and refugees would ' flood ' European territory. The Arab Spring has highlighted the Mediterranean as a migration region, and new research is now required to bring to light too often neglected mobility patterns and border practices that predate and outlast the tumultuous spring of 2011. The edited volume *Space, Mobility and Borders in the*

Western Mediterranean tackles these contemporary issues related to migration in the Mediterranean region. It brings together high-quality, original academic contributions from both empirical and theoretical points of view by scholars from diverse disciplines, who draw upon Anglophone, Francophone, Spanish and Italian research. It reexamines borders in the light of a now full-blown body of literature that seeks to capture the complexity of their contemporary features beyond their most direct visual enactments, in particular the sweeping deployment of policing devices and operations along the North/South fault line. Another distinctive binding thread in this book is that it emphasizes migrants as active subjects interacting with local events, national policies and the bordering process. Offering an examination of the intricate interplay among the events of the

This volume traces the African ramifications of Europe ' s southern border. While the Mediterranean Sea has become the main stage for the current play and tragedy between European borders and African migrants, Europe ' s southern border has also been “ offshored ” to Africa, mainly through cooperation agreements with countries of transit and

origin. By bringing into conversation case studies from different countries and disciplines, this volume seeks to open a window on the backstage of this externalization of borders. It casts light on the sites – from consulates to open seas and deserts – in which Europe's southern border is made and unmade as an African reality, yielding what the editors call "EurAfrican borders." It further describes the multiple actors – state agents, migrants, smugglers, activists, etc. – that variously imagine, construct, cross or contest these borders, and situates their encounters within the history of uneven exchanges between Africa and Europe.

Based on a multi-sited ethnographic case study on transnational care chains between Milan (Italy) and Lima, Huancayo, and Cuzco (Peru), the book explores how social inequalities are reproduced through the care practices that follow the introduction of Peruvian migrants into home-based elderly care. Anna Katharina Skornia adopts an innovative approach in combining research on transnational care and migration with a perspective on entangled inequalities. In particular, the study sheds light on the role of state regulations in contributing to these inequalities as well as their ambiguous

Valle d'Aosta is a vertical region, you might say, and not just in the physical sense, for the many high peaks that surround it (including Mont Blanc, the highest mountain in Europe at 4,807 meters), but

also for the surprising concentration, in a region of such reduced dimensions, of so many natural splendors, of so many monuments, of so much precious historic and artistic heritage. For Aosta the Middle Ages were anything but dark: as an important center of commercial traffic with France and Switzerland, the city enjoyed a long period of prosperity. It is no coincidence that the Cathedral and Cathedral Church of S. Orso, two churches of great beauty, date back to the Middle Ages. The locations covered are the city of Aosta, the lower valley with its castles, a visit to

Cogne and the Gran Paradiso Park, a visit to Morgex, La Thuille and the Piccolo San Bernardo Pass, one to Courmayeur, one to Valpelline and the Gran San Bernardo Pass, and all the villages of the Valtournance Valley.

2019 edition Florence surely is the most beautiful city in the entire world. And, the major Florence tourist attractions are great historical monuments and magnificent structures that are true masterpieces. Besides, this beautiful city has a rich history, and the United Nations have stated this city as one of the most beautiful cities in the world. Also, this city is

famously known as the City of Lilies, and Jewel of the Tuscan region. The very famous Florence tourist attraction Piazza della Signoria is situated right in the heart of the historic center of the city is the main square of the town surrounded by forbidding Palazzo Vecchio. Besides, the sculptures of this square stood with fiercely different political connotations of the city's history. Furthermore, some most beautiful statues are placed at the entrance of Piazza della Signoria which fascinates the visitors. The statue of David by Michelangelo is a must see and

is considered one of the significant Florence tourist attractions, this incomparable work of art stands right at the front entrance of Palazzo Vecchio. Also, on the other side of the door, there is a statue of a mighty Hercules by Baccio Bandinelli, these adorable statues have always been beloved by tourists. India Migration Report 2018 looks at Indian migrants in Europe and their lived experiences. It looks at how over the last few decades, the European Union has emerged as the preferred destination for Indian migrants surpassing the United States of America – and is home to Indian students and high-skilled

Online Library Schengen Visas Italy

professionals ranging from engineers to medical graduates, contributing to the economy and society both at the countries of origin and destination. The chapters in the volume look at a host of themes and issues, including agreements India has signed with the EU, the Blue Card, the impact of Brexit and the plight of unskilled workers. The volume will be of great interest to scholars and researchers of development studies, economics, sociology and social anthropology and migration studies.

This edited contribution explores strategies and measures for leveraging the potential of skilled diasporas and for advancing knowledge-based evidence on return skilled migration and its impact on

Online Library Schengen Visas Italy

development. By taking the example of Indian skilled migration, this study identifies ways of involving returned skilled migrants in home country development as well as proposes approaches to engage the diaspora in development. As high-skill immigration from India to mainland Europe is a rather recent phenomenon, the activities of Indian professionals in Europe are under-researched. The findings have wider application in contributing to the policy dialogue on migration and development, specifically to the advantage for developing and emerging economies. The book employs an interdisciplinary, two-fold approach: The first part of the research looks at how international

Online Library Schengen Visas Italy

exposure affects the current situation of skilled returnees in India. The second, European, part of the research examines migration policies, labour market regulations and other institutional settings that enable or hinder skilled Indians' links with the country of origin. Structural differences between the host countries may facilitate different levels of learning opportunities; thus, this book identifies good practices to promote the involvement of Indian skilled diaspora in socio-economic development. In applying the framework of diaspora contributions as well as the return channel to study the impact on India, the book draws on qualitative and quantitative

Online Library Schengen Visas Italy

research methods consisting of policy analysis, in-depth interviews with key experts and skilled migrants and on data sets collected specifically for this study.

It is no mistake that Bellagio is called the "pearl" of Lake Como. It is undoubtedly the most famous resort on the lake. For centuries, Bellagio's scenic location has enchanted artists and writers, not only from Italy but also from abroad. It is situated on the tip of a headland that divides the lake into the two legs of Como and Lecco. The town stretches along the coast, and part of it goes up the slopes of the peninsula. Because of its location Bellagio has a great variety of views; indeed, it offers a good view of the whole lake. On the northern

horizon, one can see the Pre-Alps. Some of the best views can be seen from the top of Monte San Primo and from the park of Villa Serbelloni. On a particularly bright day, one can make out the Alps, from Mont Blanc to the Ortles, and the Madonnina on top of the Duomo of Milan. Both the historic center situated at a higher level dominated by the Romanesque Basilica Of San Giacomo (enlarged in the Baroque Age) and the more recent arcade lake-front are all preserved intact. Among the aristocratic villas let's remember Villa Serbelloni, first castle, then country residence and transformed into a villa at the end of the 15th century. Later once again restructured in the 17th and turned

into a hotel during the last decade of the 19th century, it is presently appointed headquarters of conventions and study tours.
