Build the bridge from data collection to improved instruction  
Students are people—not data. How can you use  
assessment data to focus on reaching every student? This  
book shows how to develop a common language for sharing  
all students' progress with all teachers and leaders, and how  
to use ongoing assessment to inform instruction. Based on  
worldwide research of more than 500 educators, the book  
presents solutions organized by: Assessment Instruction

**book to offer a comprehensive examination of lockdown drills in K–12 schools, Lockdown Drills balances research findings with practical applications and implications. Schildkraut and Nickerson, school safety experts with complementary backgrounds in criminology and school psychology, review the historical precedents for lockdown drills, distinguish school lockdowns from other emergency procedures (such as active shooter drills), explain why they are conducted, present evidence-based research on their effectiveness, and describe how to conduct them according to best practices. Proponents of lockdown drills as a life-saving necessity, the authors help to bring much-needed standardization to how these drills are studied and conducted. The authors present common arguments for and against the inclusion of lockdown drills in**

**emergency preparedness efforts, balancing their discussion of the perceptions and psychological impacts of lockdown drills with scholarly research on the extent to which lockdown drills improve how effectively individuals respond to a potential threat. Placing lockdown drills in the larger context of school safety and preparedness, they examine the broader implications for policymakers. Finally, they emphasize that drills, of which lockdowns are only one type, are just a part of the complex school safety puzzle. Ensuring that schools are safe places for students and educators begins long before a crisis occurs and continues through the days, weeks, and years of recovery following a crisis.**
