highlighted in papers from eastern and western Europe. The importance and benefits of having adequately functioning seed potato systems with up to date rapid multiplication systems is shown in chapters from various countries with a special contribution on the commercial quality standards of the United Nations Economic Commission for Europe (UNECE). Developments of recent agronomic and crop management practices are illustrated with examples of countries in technological and market transition. Innovations in crop protection put special emphasis on diagnostics and detection of resistance

**Five centuries ago, the elemental artform of seal-binding was introduced to a world once devastated by senseless conflict. Seal binders—those with the ability to bestow seals—used their powers to bring order to the continents of Armos and Omallia. These lands prospered under the watchful eyes of the seal binders, and with the help of seal wielders—those with the ability to harness the powers of seals—the laws of the Seal-Binding Society were guarded for the years to come. Things changed, however, due to a sudden shift in the monarchy within the last 100 years. By order of a new king, the seal-binding practice was banned, and subsequently, it was decreed that the seal binders were to be executed on sight. With the widespread extermination of the seal binders came a radical increase in poverty everywhere**

victimology--the scientific study of victims for the purposes of addressing investigative and forensic issues. It provides case-based coverage with original insights into the role that victimology plays in the justice system, moving beyond the traditional theoretical approaches already available. The purpose of this textbook is to distinguish the investigative and forensic aspects of victim study as a necessary adjunct to the field of victimology. It identifies forensic victimologists in the investigative and forensic communities and provides them with methods and standards of practice needed to be of service. This book is intended to educate students on the means and rationale for performing victimological
