BUYING GUIDE

A new, revised manual of archaeological illustrating, largely written by and for students, intended to aid the archaeologist with no formal training in art or drafting. Discussed under separate sections are basic tools and techniques, the rendering of maps, architectural floor plans and reconstructions, stratigraphic sections, relief monuments, ceramics, ceramic figurines, lithic artifacts, burials, artifacts of shell and bone, and illustrating from photographs.

"Now including the latest information about computers and technology throughout, this Fourth Edition of Technical Communication offers coverage of the processes and models of technical communication available today. Burnett melds the best of work-place practice, current theory, research, and helpful pedagogy to make this edition of her book an essential guide and tool for the student and professional alike."
