

## Section 1 Guided Marching Toward War Answer

***A lively, clear explanation of the American healthcare reform movement from a noted expert—giving women the tools they need to demand fair and affordable coverage for all people Healthcare is one of America’s most dysfunctional and confusing industries, and women bear the brunt of the problem when it comes to both access and treatment. Women, who make 80 percent of healthcare decisions for their families, are disproportionately impacted by the complex nature of our healthcare system—but are also uniquely poised to fix it. Founder and CEO of Day Health Strategies Rosemarie Day wants women to recognize their trouble with accessing affordable care as part of a national emergency. Day encourages women throughout the country to share their stories and get involved, and she illustrates how a groundswell of activism, led by everyday women, could create the incentives our political leaders need to change course. Marching Toward Coverage gives women the clear information they need to move this agenda forward by breaking down complicated topics in an accessible manner, like the ACA (Affordable Care Act), preexisting conditions, and employer-sponsored plans. With more than 25 years working in healthcare strategy and related fields, Day helps the average American understand the business of national health reform and lays out a pragmatic path forward, one that recognizes healthcare as a fundamental human right.***

In early 1968 the grisly on-the-job deaths of two African-American sanitation workers in Memphis, Tennessee, prompted an extended strike by that city's segregated force of trash collectors. Workers sought union protection, higher wages, improved safety, and the integration of their work force. Their work stoppage became a part of the larger civil rights movement and drew an impressive array of national movement leaders to Memphis, including, on more than one occasion, Dr. Martin Luther King, Jr. King added his voice to the struggle in what became the final speech of his life. His assassination in Memphis on April 4 not only sparked protests and violence throughout America; it helped force the acceptance of worker demands in Memphis. The sanitation strike ended eight days after King's death. The connection between the Memphis sanitation strike and King's death has not received the emphasis it deserves, especially for younger readers. *Marching to the Mountaintop* explores how the media, politics, the Civil Rights Movement, and labor protests all converged to set the scene for one of King's greatest speeches and for his

tragic death. National Geographic supports K-12 educators with ELA Common Core Resources. Visit [www.natgeoed.org/commoncore](http://www.natgeoed.org/commoncore) for more information.
