View the Independent Writing Within, Beyond and About Texts Webinar Now there are three distinct Reader's Notebooks to help students grades K through 8 become better readers through writing. New! Reader's Notebook: Primary (recommended for Grades K-2) Reader's Notebook (recommended for Grades 2-4) Reader's Notebook: Advanced (recommended for Grades 4-8) Here's an engaging way for primary grade (K-2) students to respond to reading-through thinking, talking, drawing, and writing. Fountas & Pinnell Reader's Notebook: Primary is an 8 1/2 x11 spiral notebook organized into three color-coded tabbed sections: All About Me, Books I Read, and Letters and Words. It is specifically designed for younger children who may not yet be writing, with ample space to respond through both drawing and writing, with room for teacher support. All About Me recognizes the younger child's interest in their own developing identities-as individuals and as readers-with space for them to draw and write about themselves, their friends and family, and the books and authors they love. Books I Read outlines the steps for Readers' Workshop in a simple format that includes illustrations that support the print, and provides space for children to record the titles and authors of books they have read, along with space to draw and write about those books. The helpful Letters and Words section provides children with an alphabet chart, high-frequency words, a chart for children to record words as they encounter them, and an Alphabet Linking Chart. Reader's Notebook: Primary promotes reflection and dialogue about reading and is an excellent assessment tool for documenting reading achievement over time in a readers' workshop that includes independent reading, guided reading, and literature study (book clubs). Used throughout the academic year, the notebook serves as a continual record of one reader's book list, interests, and reading responses. The Reader's Notebook: Primary is also available in 25-packs.

Much has been written on the topic of guided reading over the last twenty years, but no other leaders in literacy education have championed the topic with such depth and breadth as Irene Fountas and Gay Su Pinnell. In the highly anticipated second edition of Guided Reading, Fountas and Pinnell remind you of guided reading's critical value within a comprehensive literacy system, and the reflective, responsive teaching required to realize its full potential. Now with Guided Reading, Second Edition, (re)discover the essential elements of guided reading through: a wider and more comprehensive look at its place within a coherent literacy system a refined and deeper understanding of its complexity an examination of the steps in implementation-from observing and assessing literacy behaviors, to grouping in a thoughtful and dynamic way, to analyzing texts, to teaching the lesson the teaching for systems of strategic actions a rich text base that can support and extend student learning the re-emerging role of shared reading as a way to lead guided and independent reading forward the development of managed independent learning across the grades an in-depth exploration of responsive teaching the role of facilitative language in supporting change over time in students' processing systems the identification of high-priority shifts in learning to focus on at each text level the creation of a learning environment within which literacy and language can flourish. Through guided reading, students learn how to engage in every facet of the reading process and apply their reading power to all literacy contexts. Offers lesson plans, time management tips, phonics information, and guidelines for working with individuals and groups for the literacy volunteer

Twice before, Carol Lyons and Gay Su Pinnell teamed up as coauthors and helped tens of thousands of literacy educators transform classroom practice. Now, with their latest collaboration, Lyons and Pinnell turn their eye to K-6 literacy teachers' professional development, offering the theories, designs,

guidelines, examples, and materials needed to bring about schoolwide, long-lasting change. Lyons and Pinnell asked themselves: "What if we could create more and better ways for teachers to learn from their own teaching? What if we could provide high-quality, ongoing professional development and coaching for literacy teachers that result in improving their students' achievement?" Well, they could . . . and they did. Systems for Change offers specific - and, quite often, unique - suggestions for planning and implementing a literacy professional development course. Everything is covered, including how to get started the right way, what materials are needed and where to find them, what are the best activities for effective, hands-on practice, and how to develop K-6 inservice courses throughout the year. Particular emphasis is placed on how to help teachers of the reading and writing processes improve via coaching. Most books about teacher-education processes are generic in their descriptions. This one is different. It is uniquely designed to enable staff developers and teacher educators to help teachers become effective in their teaching of the reading and writing processes. A framework for conceptualizing professional development programs is presented, along with guidelines, descriptions, and examples for using this framework to create a comprehensive K-6 professional development literacy program.
