Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

The Cambridge Companion to Modern American Culture offers a comprehensive, authoritative and accessible overview of the cultural themes and intellectual issues that drive the dominant culture of the twentieth century. The essays explore the social, political and economic forces that have made America what it is today. Varied, extensive and challenging, this Companion is essential reading for students and teachers of American studies around the world. It is the most accessible and useful introduction available to an exciting ...

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755-1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

This text provides in-depth balanced content covering the beginnings of U.S. history through the present.

FRIGHTENED MONSTERS. STOLEN TIME. AND ONE SERIOUSLY UNDERESTIMATED DAMSEL. Katie ran from the magical world years ago. She never planned on being dragged back in by a prophesying clamshell. The seers believe she alone can prevent an apocalypse of ruined time and broken worlds. Bran the Crow King believes she can save him from his cannibalistic grandfather. Katie believes they're all nuts. One thing is for certain: she's not waiting around for help. Operation Katie Saves her Own Damn Self is officially on.

An illuminating and authoritative history of America in the years between the Civil War and World War I, Jackson Lears's Rebirth of a Nation was named one of the best books of 2009 by The Washington Post, The Chicago Tribune, and The Pittsburgh Post-Gazette. "Fascinating.... A major work by a leading historian at the top of his game—at once engaging and tightly argued." —The New York Times Book Review "Dazzling cultural history: smart, provocative, and gripping. It is also a book for our times, historically grounded, hopeful, and filled with humane, just, and peaceful possibilities." —The Washington Post In the half-century between the Civil War and World War I, widespread yearning for a new beginning permeated American public life. Dreams of spiritual, moral, and physical rebirth formed the foundation for the modern United States, inspiring its leaders with imperial ambition. Theodore Roosevelt's desire to recapture frontier vigor led him to promote U.S. interests throughout Latin America. Woodrow Wilson's vision of a reborn international order drew him into a war to end war. Andrew Carnegie's embrace of philanthropy coincided with his creation of the world's first billion-dollar corporation, United States Steel. Presidents and entrepreneurs helped usher the nation into the modern era, but sometimes the consequences of their actions failed to match the grandeur of their hopes. Award-winning historian Jackson Lears richly chronicles this momentous period when America reunited and began to form the world power of the twentieth century. Lears vividly captures imperialists, Gilded Age mavericks, and vaudeville entertainers, and illuminates the roles played by a variety of seekers, male and female, from populist farmers to avant-garde artists and writers to progressive reformers. Some were motivated by their own visions of Christianity; all were swept up in longings for revitalization. In these years marked by wrenching social conflict and vigorous political debate, a modern America emerged and came to dominance on a world stage. Illuminating and authoritative, Rebirth of a Nation brilliantly weaves the remarkable story of this crucial epoch into a masterful work of history.

People, Places, and Societies: Guided Reading

A Critical History

The Federalist Papers

The Half Has Never Been Told

The Schlager Anthology of the Gilded Age and Progressive Era

From the invention of eyeglasses to the Internet, this three-volume set examines the pivotal effects that inventions have had on society, providing a fascinating history of technology and innovations in the United States from the earliest colonization by Europeans to the present. • Encourages readers to consider the tremendous potential impact of advances in science and technology and the ramifications of important inventions on the global market, human society, and even the planet as a whole • Supports eras addressed in the National Standards for American history as well as curricular units on inventions, discoveries, and technological advances • Includes primary documents, a chronology, and section openers that help readers contextualize the content

The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success—a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save—are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation.

The individuals presented in these narrative biographies significantly, and sometimes decisively, impacted contemporary American life in a wide range of areas, including national politics, foreign policy, social and political activism, popular and literary culture, sports, and business. The combined biographical/thematic approach is designed to serve two purposes: to present more substantive biographical information, and to offer a fuller examination of key events and issues. The book is an ideal supplement for undergraduate courses on The United States Since 1945, as well as for courses on Modern America and 20th Century America.

Forgotten and Famous Historical Events

Black Identities

American Anthem(HOLT

Winner of the 2015 Avery O. Craven Prize from the Organization of American Historians Winner of the 2015 Sidney Hillman Prize A groundbreaking history demonstrating that America's economic supremacy was built on the backs of slaves

Americans tend to cast slavery as a pre-modern institution -- the nation's original sin, perhaps, but isolated in time and divorced from America's later success. But to do so robs the millions who suffered in bondage of their full legacy. As historian Edward E. Baptist reveals in *The Half Has Never Been Told*, the expansion of slavery in the first eight decades after American independence drove the evolution and modernization of the United States. In the span of a single lifetime, the South grew from a narrow coastal strip of worn-out tobacco plantations to a continental cotton empire, and the United States grew into a modern, industrial, and capitalist economy. Told through intimate slave narratives, plantation records, newspapers, and the words of politicians, entrepreneurs, and escaped slaves, *The Half Has Never Been Told* offers a radical new interpretation of American history.

The seventh edition of the Encyclopedia of American History updates this indispensable and classic reference book to cover the history of the United States from pre-Columbian times through the first year of the Clinton Administration. Unequaled

in the amount of information contained within a single volume, and designed to be read as a narrative, the Encyclopedia chronicles all the essential facts of American history, from government and politics to science, thought and culture. The Encyclopedia is divided onto four parts: Part 1: "THE BASIC CHRONOLOGY" presents the main political and military events in the history of the United States, beginning with the era of discovery. It has been updated to reflect newly discovered facts and modern perspectives on domestic and foreign affairs. Part 2: "THE TOPICAL CHRONOLOGY" records the nonpolitical aspects of American life and has been extensively revised to include a newly titled section "Land, Natural Resources,

Energy and the Environment," as well as updated sections dealing with the American economy. A few of the topics covered in this section are the fine arts, religion, medicine, education, television and radio, immigration, population, United States expansion and Supreme Court decisions. Part 3: "NOTABLE AMERICAN BIOGRAPHIES" contains profiles of 450 influential Americans from all walks of life and their outstanding achievements. Part 4:"THE STRUCTURE OF FEDERAL

GOVERNMENT" includes tables of U.S Presidents and their cabinets, party strength in Congress from 1789, and Supreme Court justices, as well as the complete texts of the Declaration of Independence and the Constitution of the United States. Jeffrey B. Morris, is professor of law at the Jacob D. Fuchsberg Law Center of Touro College. Associate editor for the last two revised editions of the Encyclopedia of American History, Morris is the author of over a dozen books, including *Federal Justice in the Second Circuit and To Administer Justice on Behalf of All the People: The United States District Court for the Eastern District of New York, 1965-1990*. He has been professor of political science at City College of the City University of

New York and the University of Pennsylvania and visiting professor of law at the Brooklyn Law School. From 1976 to 1981 Morris served as the chief research associate to Chief Justice Warren E. Burger in Burger's role as head of the federal court system. Richard B. Morris, (1904-1989) was Gouverneur Morris Professor of History at Columbia University and past president of the American Historical Association. Morris wrote more than 40 books spanning legal, labor, diplomatic, political and social history, including *The Peacemakers: The Great Powers and American Independence*, *The Forging of the Union 1781-1789*, *Witnesses at the Creation, Government and Labor in Early America* and *Studies in The History of American Law*. He lectured throughout the world, serving as Fulbright Research Professor at the Sorbonne and Distinguished Professor at the John F. Kennedy Institute of the Free University of Berlin.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed

to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender.

The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

The Schlager Anthology of the Gilded Age and Progressive Era offers a modern, original sourcebook covering a pivotal era in U.S. history. From the creators and publishers of Milestone Documents in American History, this new title is built on the principles of inclusivity and accessibility. While presenting the essential primary sources from the Gilded Age and Progressive Era, from the Reconstruction amendments to the Sherman Anti-Trust Act to *Plessy v. Ferguson*, this anthology also emphasizes often-marginalized voices, from women to immigrants to Native Americans, Asian Americans, and African Americans. In addition, document texts are abridged to remain brief and accessible, even to struggling readers (including ESL students), while activity questions range in difficulty from basic to more advanced. Edited by Jennifer Koshatka Seman (*Borderlands Curanderos: The Worlds of Santa Teresa Urrea and Don Pedrito Jaramillo*, Univ. of Texas Press) and featuring the contributions of numerous scholars, *The Schlager Anthology of the Gilded Age and Progressive Era* covers 80 milestone sources from this period of American history. An Inclusive Approach *The Schlager Anthology of the Gilded Age and Progressive Era* includes all of the classic documents from this era while also emphasizing a wide spectrum of voices and perspectives, including visual sources. Chapter 1 ("Reconstruction, Post-Reconstruction, and the Jim Crow South") focuses on the triumph and ultimate tragedy of Reconstruction and the white southern reaction to it. The volume opens with Jourdan Anderson's letter to his former slave owner, before covering the Sharecropper Contract and Mississippi Black Codes in 1865. The three Reconstruction Amendments are included, as are indelible images such as Thomas Nast's "Worse Than Slavery" and the Lynching of C.J. Miller. The unit then covers two iconic figures from African American history: Booker T. Washington and W.E.B. Du Bois. In Chapter 2 ("Industrialization, Immigration, and Labor in the City," students and researchers will find coverage of the increasing urbanization of America and its many ills; the reactions to that development via Progressive

legislation; the battle over alcohol use and abuse; immigration battles; and the growing importance of organized labor. Here the anthology covers well-known acts such as the Chinese Exclusion Act, little-known voices such as Bettie Gay ("The Influence of Women in the Alliance") and Anzia Yezierska (*Bread Givers*), and famous images from the muckraking journalist Jacob Riis. Chapter 3 covers imperialism and Westward expansion, through an in-depth look at the destruction of Native American communities. From Chief Joseph to Zitkala-Sa and Black Elk, the unit presents essential voices of the loss of Native American sovereignty. Also included in this chapter are images documenting the Wounded Knee Massacre and the advent of Indian boarding schools, plus sources covering the U.S. imperialism via the war in the Philippines. The volume concludes with a focus on the Progressive Era in Chapter 4. Students and researchers are presented with major legislation via the Pure Food and Drug Act as well as important articles from Progressive figures such as Florence Kelley, Ida B. Wells, and Jane Addams. A Focus on Accessibility *The Schlager Anthology of the Gilded Age and Progressive Era* features carefully curated primary sources along with highly targeted activities to help students engage with and analyze primary documents from this important era. Document texts are carefully abridged to remain brief and accessible, even to struggling readers (including ESL students), both at the high school as well as early college levels. The commentary that accompanies each source is simple and straightforward. First, a fact box contains the key information about the source: document title, author name, date, document type, and a brief statement of the document's significance. Next, each document includes a concise overview section that places the source in its proper historical context. Following the document text is a list of activity questions that prompt students to think more deeply about the source and its meaning and impact, as well as a glossary that defines any unfamiliar words or references in the document text. Other Features In addition to the nearly 70 sources and accompanying commentary, *The Schlager Anthology of the Gilded Age and Progressive Era* includes chapter introductions and Further Readings sections for each of the four chapters in the set. The set also features a comprehensive subject index and an appendix of document categories. *The Schlager Anthology of the Gilded Age and Progressive Era* represents a modern approach to historical reference. It is an essential resource for students, researchers, and teachers of this important era in U.S. history and is appropriate for high school, academic, and public libraries.

Colonial American History Stories - 1215 - 1664 contains almost 300 history stories presented in a timeline that begins in 1655 with the performance of the first documented play performed in British North America and ends with the switch from the Julian to the Gregorian Calendar in 1752. This journal of historical events mark the beginnings of the United States and serve as a wonderful guide of American history. These reader friendly stories include: September 27, 1540 - Society of Jesus (Jesuits) Founded By Ignatius Loyola December 19, 1675 - The Great Swamp Fight September 19, 1676 - Bacon's Rebellion - Bacon Burns Jamestown April 18, 1689 - 1689 Boston Revolt February 29, 1692 - Sarah Good, Sarah Osborne and Tituba Accused Of Witchcraft in Salem, Massachusetts May 22, 1718 - Edward Teach - Blackbeard - Begins Blockade of Charlestown. November 02, 1734 - Daniel Boone Born December 08, 1741 - Vitus Bering Died December 23, 1750 - Ben Franklin Attempts to Electrocute a Turkey December 31, 1752 - Julian/Gregorian Calendar Switch Complete timeline, journal, events, stories, united states, beginnings, guide

The Gilded Age Construction of American Homophobia is an analysis of the negative response to the discovery of the homosexual in late Nineteenth century America. In this period of social distress, many Americans came to doubt the underlying assumptions of national progress. If the United States were to remain true to its promise of earthly perfection, then the forces of social disharmony had to be overcome. Homosexuality, however, challenged the very notions of order and progress. This book investigates the responses of the emergent medical community to this problem, and concludes with a discussion of how the negative reception of the homosexual impacted the future social conception of gay men and women.

In *A History of Modern Criminal Justice*, authors Joseph Spillane and David Wolcott focus on the modern aspects of the subject, from 1900 to the present. A unique thematic rather than a chronological approach sets this book apart from the competition, with chapters organized around themes such as policing, courts, due process, and prison and punishment. Making connections between history and contemporary criminal justice systems, structures and processes, *A History of Modern Criminal Justice* offers students the latest in historical scholarship, made relevant to their needs as future practitioners in the field. This book is appropriate for any course on the history of criminal justice.

A History of Modern American Criminal Justice

**Named one of the most important nonfiction books of the 21st century** by *Entertainment Weekly*, *Slate*, *Chronicle of Higher Education*, *Literary Hub*, *Book Riot*, and *Zora* A tenth-anniversary edition of the iconic bestseller—“one of the most influential books of the past 20 years,” according to the *Chronicle of Higher Education*—with a new preface by the author “It is in no small part thanks to Alexander’s account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system.” —Adam Shatz, *London Review of Books* *Seldom does a book have the impact of Michelle Alexander’s The New Jim Crow. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander’s unforgettable argument that “we have not ended racial caste in America; we have merely redesigned it.” As the Birmingham News proclaimed, it is “undoubtedly the most important book published in this century about the U.S.” Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.*

*The United States was the first major colony to revolt successfully against colonial rule. In this sense, it was the first "new nation." To see how, in the course of American history, its values took shape in institutions may help us to understand some of the problems faced by the new nations emerging today on the world scene. In The First New Nation, two broad themes occupy Seymour Martin Lipset's attention: the social conditions that make a stable democracy possible, and the extent to which the American experience was representative or exceptional. The volume is divided into three parts, each of which deals with the role of values in a nation's evolution, but each approaches this role from a different perspective.*

*Part 1, "America as a New Nation," compares early America with today's emerging nations to discover problems common to them as new nations, and analyzes some of the consequences of a revolutionary birth for the creation of a national character and style. Part 2, "Stability in the Midst of Change," traces how values derived from America's revolutionary origins have continued to influence the form and substance of American institutions. Lipset concentrates on American history in later periods, selecting for discussion as critical cases religious institutions and trade unions. Part 3, "Democracy in Comparative Perspective," attempts to show by comparative analysis some ways through which a nation's values determine its political evolution. It compares political development in several modern industrialized democracies, including the United States, touching upon value patterns, value differences, party systems, and the bases of social cleavage.*

*This encyclopedia covers American right-wing extremist groups and extremism from the 1930s to the present day, including neo-Nazis, the Ku Klux Klan, and various anti-government organizations. • Chronological presentation of the specific groups and organizations provides historical insight into the development of right-wing extremism • Provides an up-to-date bibliography for further reading • Thorough cross-referencing of sources*
