There is growing concern about the possible use of toxic industrial chemicals or other hazardous chemicals by those seeking to perpetrate acts of terrorism. The U.S. Chemical Security Engagement Program (CSP), funded by the U.S. Department of State and run by Sandia National Laboratories, seeks to develop and facilitate cooperative international activities that promote best practices in chemical security and safe management of toxic chemicals, including: Partnering with host governments, chemical professionals, and industry to assess and fill gaps in chemical security abroad. Providing technical expertise and training to improve best practices in security and safety among chemical professionals and industry. Increasing transparency and accountability for dangerous chemical materials, expertise, and technologies. Providing opportunities for collaboration with the international professional chemical community. The Department of State called on the National Academies to assist in the CSP's efforts to promote chemical safety and security in developing countries.

At the age of just 19, JW Murphey didn't have access to large amounts of private security industry experience, a bunch of cash, an eBook or the Internet to help him start his security guard company.But, he didn't want to spend years as another cog inside of a large security corporation. Instead of staying employed with a big corporation, he struck out on his own and started his own security agency.Now, in its 4th edition, published by The Security Officer Network, the popular How to Start a Security Guard Company book includes Murphey's creative strategies for building a private security agency with a minimal up-front investment.This isn't another generic "how to form a business" book. You will easily find a plethora of free resources on the Internet where you can learn business startup basics. This book won't waste your time repeating this information; instead, readers receive immediately actionable advice that's specifically tailored to the private security industry. Written by an author who actually started his own agency, the book details his innovative approaches and strategies; imparts instruction on quantifying the cost of providing security services; gives tips for under bidding and competing against the big security companies; details tricks to minimize overhead and keep costs low and much, much more.Constantly updated and relevant, with the most recent update made in December of 2017, the book includes an array of helpful, must-have resources including a private security business plan and numerous free-to-use forms and templates.

The Security Officer's Handbook fulfills the distinct need for a single method of setting up the field operations needed to provide adequate protection to the client, firm or individual. The Standard Operating Procedure System asks all the questions required to survey any protection objective. In addition, the system provides all the basic information needed to answer those questions and leads to the implementation of the tactical or mission standard operating procedure. The Standard Operating Procedure System may be applied to any type of security or protection operation and may be modified, expanded or contracted, without needing to rewrite or redesign an existing security program. Details a system to survey, implement, and maintain at full operational effectiveness many types of assets protection programs. Provides the basis for the vital training required by every security or physical

Verbal Judo is the martial art of the mind and mouth that can show you how to be better prepared in every verbal encounter. Listen and speak more effectively, engage people through empathy (the most powerful word in the English language), avoid the most common conversational disasters, and use proven strategies that allow you to successfully communicate your point of view and take the upper hand in most disputes. Verbal Judo offers a creative look at conflict that will help you defuse confrontations and generate cooperation from your spouse, your boss, and even your teenager. As the author says, "when you react, the event controls you. When you respond, you're in control." This new edition features a fresh new cover and a foreword demonstrating the legacy of Verbal Judo founder and author George Thompson, as well as a never-before-published final chapter presenting Thompson's "Five Universal Truths" of human interaction.

Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' - discipline, self-reliance, ruthlessness - to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

The Physical Security Strategy and Process Playbook is a concise yet comprehensive treatment of physical security management in the business context. It can be used as an educational tool, help a security manager define security requirements, and serve as a reference for future planning. This book is organized into six component parts around the central theme that physical security is part of sound business management. These components include an introduction to and explanation of basic physical security concepts; a description of the probable security risks for more than 40 functional areas in business; security performance guidelines along with a variety of supporting mitigation strategies; performance specifications for each of the recommended mitigation strategies; guidance on selecting, implementing, and evaluating a security system; and lists of available physical security resources. The Physical Security Strategy and Process Playbook is an essential resource for anyone who makes security-related decisions within an organization, and can be used as an instructional guide for corporate training or in the classroom. All states have different regulations, laws, licensing and requirements for security guards. This is especially true regarding the use of deadly force, power of detain, arrest and many other legal aspects of being a security guard. It is the responsibility of the school, instructor, to know the laws relating to security guard activities for the State, County or City in which they train, and for which they train. These laws and regulations are easy to find and free to print because they are of the public domain. While all states may have different laws, almost all states includes in their armed security guard training and educational requirements firearm knowledge and technical skills so the armed security guard can effectively use a firearm in the defense of self and others. This Armed Security Guard Training Manual was developed to meet the most stringent standard. It represents 40 hours of study materials,. It also includes 10 hours legal section that discusses Weapons and Firearms and the use of deadly force. These 10 hours of the curriculum are modeled after Florida laws, which regulates heavily security guard activities. This section constitutes an excellent moral guideline to work from, BUT, it is your responsibility to research and teach the law of your state, county, city, as well as ensure that you take the steps you need to meet your state's licensing requirements, if there are any. Last but not least, this kit, as you see it, is what we use every day to train our pupils at Safe N Secure.

This test preparation guide is designed to assist security guards in preparing for theministry's mandatory test. The guide will outline key areas that security guards shouldbe familiar with to ensure they perform their duties in accordance with the PrivateSecurity and Investigative Services Act, 2005 (PSISA) and its regulations.The subjects covered align with the ministry's Training Syllabus for Security Guards.Although the guide is meant to assist candidates in preparing for and writing the test, itdoes not constitute a training manual, and is not a substitute for an in-person trainingcourse.At the end of each section of this test preparation guide, you will find links to externalresources that may be of further assistance to you. Many of these will bring you tovarious laws and regulations; it is recommended that you have an overall understandingof these and how they relate to key topics covered in the test.Other links will bring you to existing training materials available to the public. Whilethese materials may contain valuable information, please keep in mind that they werenot specifically designed for Ontario's security guard and private investigator trainingand testing program.About the TestThe ministry's tests were developed by subject matter experts (SMEs) in the privatesecurity and investigative services industry who worked with the ministry's testdevelopment consultant, CASTLE Worldwide Inc. The SMEs developed the testquestions using a protocol of writing and review that conforms to the best practices ofpsychological and test development standards. They comprehensively reviewed andvalidated each question for appropriateness of the answers and correct answer keys. Apanel of SMEs also reviewed and tested the questions and participated in setting thecut scores (pass marks) for the tests.The security guard test is in a written, 60 question, multiple choice format. Testappointments are 2 hours in duration, 75 minutes of which is the allotted test completiontime.
