

See What Im Saying The Extraordinary Powers Of Our Five Senses

A comic, a drummer, an actor and a singer, who are all well-known entertainers in the deaf community, are followed as they attempt to cross over to mainstream audiences. These uniquely talented entertainers overcome great challenges to celebrate success.

The author explores the astonishing abilities of humans' five senses, abilities that people rarely detect in day-to-day life, from a blind person that can "see" through bat-like echolocation to pheromones that can signal a lover's compatibility. Reprint.

Current and Former TANF Recipients Talk about Being on Welfare

The weekly source of African American political and entertainment news.

Human beings rarely say exactly what they mean. The English language has evolved to embrace a dizzying array of linguistic tools that invite playful minds to introduce ambiguity and innuendo—and hilarity—into common parlance. In See What I'm Saying? Jim Westergard does just that, illustrating idioms with a series of exquisitely detailed engravings. Through these images, Westergard will insist you 'keep an open mind' and admonish you not to 'turn a blind eye' to the origin and evolution of colloquialisms. His visual interpretations are truly as 'rare as hens' teeth', as he might suggest himself—or he'll be 'a monkey's uncle'.

What Children Tell Us Through Their Art

In Do You See What I'm Saying?, Dr. Claude asserts that we have the ability to ensure more successful journeys by following the "road map" laid out by the Holy Spirit. Given that God is in ultimate control of our lives, He has shown favor by giving us the ability to steer ourselves directly into the path of success. This book examines the "eight mental laws we must all understand," laws which all refer back to seeing (imagining), speaking (confessing), and believing (faith). And that can be summarized even more succinctly: "If you want something different, you must do something different." Practical and wildly encouraging, Dr. Claude points out the futility of passive, sideline faith and reinforces the message of faith in action, declaring the spiritual progression: "conceive, believe, confess, and receive." Without faith in what you cannot see, it will be impossible to walk in your calling or make the right moves. These chess-like maneuvers can be classified as "destiny decisions," which are best made when you lay aside your will and desires and concentrate on the will of God. Drawing from Scripture, the habits of highly effective people, scientific research, and notable "godly movers and shakers," Dr. Claude also asserts that despite our desire for a smooth life journey free of obstacles, overcoming challenges is essential for growth in Christ. His analyses of pertinent Scriptures are clear, insightful, and comprehensive. Do You See What I'm Saying? is filled with godly advice that can be applied right now. Japheth L. Claude, PhD. is a true and humble Servant of God who has served faithfully as a minister for more than fifteen years. Through skillful innovation and manipulations of both genre and media, Philostratus' Imagines explores the potential roles of art within elite society. Written in the early third century CE, the Imagines is a series of sixty-five ekphrastic descriptions of paintings on display in a suburban Naples villa. As the first text to elevate ekphrasis from a rhetorical adornment and establish it as its own genre, the Imagines remains an invaluable resource for exploring the intersections of ancient visual and literary cultures. Previous scholarship on the Imagines has focused mainly on two aspects: the rhetorical interplays between art and text and the role of the viewer reception of paintings via Philostratus' descriptions. In this dissertation, I argue that Philostratus' ekphrases present a complicated venue for discussions of elite acculturation or paideia and its cultural expression. The sophist's innovate use of models drawn from visual art and the materiality of the paintings works in tandem with his deep understanding of the Hellenistic literary tradition to demonstrate that paideia functioned as a multifaceted value system promulgated through a variety of media.

Furthermore, not only Philostratus' use of intertextual allusions but also his engagements with material culture show that the Imagines constructs a rich network of examples intended to reinforce the elite ideals and cultural memories at the heart of paideia.

Being an Exploit in the Career of Hamilton Cleek, Detective

All the writings of Plato generally considered to be authentic are here presented in the only complete one-volume Plato available in English. The editors set out to choose the contents of this collected edition from the work of the best British and American translators of the last 100 years, ranging from Jowett (1871) to scholars of the present day. The volume contains prefatory notes to each dialogue, by Edith Hamilton; an introductory essay on Plato's philosophy and writings, by Huntington Cairns; and a comprehensive index which seeks, by means of cross references, to assist the reader with the philosophical vocabulary of the different translators.

Includes an excerpt from Love on the brain.

Standing at that magical place where sand meets sea, you likely have imagined putting a message in a bottle, consigning it to the waves, hoping it might some day reach another shore, and then not only be read but, incredibly across space and time, make a difference in other lives now connected to your own. It has happened to me, and I must sing of it. In the autumn of 1966 I let the waves carry off a poem—passed around to students, family and friends, no need for even my name on it. Its message was simple: Keep heart, you are not alone; love, stronger than strong walls, will come, helping your heart in hiding grow wings, feeble perhaps at first, but wings! Word astoundingly began to come back in 1969, and has continued since, that “ Please Hear What I ’ m Not Saying ” was indeed reaching other shores, across space and time was indeed making a difference in other lives. What follows attests to the power of words from the heart to touch other hearts, sometimes even to change other lives. Read on. You, too, will sing of it.
