This report presents the results of RTI International Education’s study on teachers’ guides across 13 countries and 19 projects. Using quantitative and qualitative methods, we examine how teachers’ guides across the projects differ and find substantial variation in the design and structure of the documents. We develop a scripting index so that the scripting levels of the guides can be compared across projects. The impact results of the programs that use teachers’ guides show significant impacts on learning outcomes, associated with approximately an additional half year of learning, showing that structured teachers’ guides contribute to improved learning outcomes. During observations, we find that teachers make a variety of changes in their classroom instruction from how the guides are written, showing that the utilization of structured teachers’ guides do not create robotic teachers unable to use their own professional skills to teach children. Unfortunately, many changes that teachers make reduce the amount of group work and interactivity that was described in the guides, suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide. The report includes a set of research-based guidelines that material developers can use to develop teachers’ guides that will support effective instructional practices and help improve learning outcomes. The key takeaway from the report is that structured teachers’ guides improve learning outcomes, but that overly scripted teachers’ guides are somewhat less effective than simplified teachers’ guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide.

A trailblazing collection of writing from Binyavanga Wainaina's extraordinary life 'In your text, treat Africa as if it were one country. It is hot and dusty with rolling grasslands and huge herds of animals and tall, thin people who are starving. Or it is hot and steamy with very short people who eat primates. Don't get bogged down with precise descriptions.' Binyavanga Wainaina was a seminal author and activist, remembered as one of the greatest chroniclers of contemporary African life. After his death in 2019, this ground-breaking collection brings together his pioneering writing on the African continent for the first time. A rule-breaker full of wry satire and piercing wisdom, this collection includes many of Binyavanga's most critically acclaimed pieces, including the viral satirical sensation 'How to Write About Africa'. Writing fearlessly across a range of topics - from politics to international aid, cultural heritage and redefining sexuality, this is a remarkable illustration of a writer at the height of his power.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Meis that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective Peoplet to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Long Walk to Freedom

This book is full of wonderful WORDS and beautiful PICTURES! And it's EXCITING! And it's FUNNY! It might be the BEST BOOK EVER—if we could decide whose book it is. Redd and Bloo explore the way a book is made and accidentally build a friendship, too, in this tale told only in dialogue. Travis Foster and Ethan Long offer a hilarious story about the joy of reading, which brings people together in unexpected ways, proving that each book truly belongs to . . . the people who love it. Plus, this is the fixed format version, which looks almost identical to the print edition.

This book discusses "tourism and hospitality" from different perspectives and disciplines. In addition, this book, considering the tourism and hotel management terminology, is expected to be a source book for the theoretical and practical scientific studies in the fields which is in close relationship such as gastronomy, recreation and marketing.

An award-winning play about the relationship between brothers. Nothing but the Truth is the story of two brothers, of sibling rivalry, of exile, of memory and reconciliation, and the ambiguities of freedom. The play was John Kani's debut as sole playwright and was first performed in the Market Theatre in

Johannesburg. It won the 2003 Fleur du Cap Award for best actor and best new South African play. In the same year Kani was also awarded a special Obie award for his extraordinary contribution to theatre in the USA.

A one-way ticket to Australia...two months of travel...and a shoestring budget. In Red Earth Diaries we meet Jason and Ambika, a newlywed couple who migrated to Australia with the hope of a fresh start. However, unlike most migrants, they made a bold decision to postpone their settlement plans, throw caution to the wind and backpack in Australia on a shoestring budget. Their intention was to learn about the country and its people first-hand ? a land they would someday call home. Swimming with sharks, cuddling cute koalas, chartering private helicopters, venturing deep into ancient rainforests, and getting to know plenty of locals - the couple had incredible experiences in this stunning country. Their travel story is interwoven with snippets of history and provides the reader with a glimpse of Australia as viewed through the eyes of new migrants. Join Jason and Ambika on their spectacular journey of discovery. Red Earth Diaries is founded on four primary pillars: a migrant's journal, a travelogue, a delve into Australian history, and an inspirational tale. The central message of the book is for everyone to chase their dreams - however distant they may seem. The central message of the book is for everyone to chase their dreams - however distant and impossible they may seem. Moving to Australia has been one seemingly impossible goal the author had set decades ago, and he likewise urges the reader to shed all reservations and to dream the wildest dreams possible. The Preface of Red Earth Diaries is called Dreamtime, and in it, the author describes the evolution of his journey to this strange and peculiar wonderland. As a travelogue, the book harkens to all travellers as well as migrants who are already in Australia or who are thinking of making the move to this beautiful country. Some key historical events described: The Endeavour striking the reef, finding a passage through the Blue Mountains, the gold rush, the birth of Canberra, WWI and WWII, Early colonization, construction of Opera House.Visit www.evovingwordsmith.com for a promo video.

A prophet has is about to board a ship home after 12 years in exile, when he is stopped by a group of people. His teachings to them, discussing love, marriage, crime, freedom and law among many other aspects of everyday life, form the 26 poetic essays of Gibran's work. The work has been a bestseller since its first publication.

The World Atlas of Language Structures is a book and CD combination displaying the structural properties of the world’s languages. Its 142 world maps and numerous regional maps are all in full colour. Each world map shows an average of 400 languages and is accompanied by a fully referenced description. The CD provides an interactive version of the database which allows the user to customize the maps and find and test correlations. The Atlas is an indispensable source of information for linguists, anthropologists, and geographers. It will be especially valuable for typologists, grammatical theorists, historical linguists, and those interested in a particular region. It sets new standards in comparative linguistics. No institution involved in language research can afford to be without it.

With over 50,000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the Handbook of African Medicinal Plants provides a comprehensive review of more than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of the leaves, flowers, and fruits and monographs with botanical names, common names, synonyms, African names, habitat and distribution, ethnomedicinal uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.

Refiguring the Archive at once expresses cutting-edge debates on ‘the archive’ in South Africa and internationally, and pushes the boundaries of those debates. It brings together prominent thinkers from a range of disciplines, mainly South Africans but a number from other countries. Traditionally archives have been seen as preserving memory and as holding the past. The contributors to this book question this orthodoxy, unfolding the ways in which archives construct, sanctify, and bury pasts. In his contribution, Jacques Derrida (an instantly recognisable name in intellectual discourse worldwide) shows how remembering can never be separated from forgetting, and argues that the archive is about the future rather than the past. Collectively the contributors demonstrate the degree to which thinking about archives is embracing new realities and new possibilities. The book expresses a confidence in claiming for archival discourse previously unentered terrains. It serves as an early manual for a time that has already begun.

Though the revised edition of A Theory of Justice, published in 1999, is the definitive statement of Rawls's view, so much of the extensive literature on Rawls's theory refers to the first edition. This reissue makes the first edition once again available for scholars and serious students of Rawls's work.

The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his

triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

This title forms part of the Little Library programme, which consists of a Literacy Kit, Numeracy Kit and Life Skills Kit. These were developed to respond to a need for high-quality, indigenous books for the younger members of our communities. The kits have been revised to meet the changing needs of learners, schools and new education policies. Many of the well-loved stories, posters and activities have been kept and exciting new stories have been added. The posters, activities and the Teacher's Guide have all been revised to provide fresh, new ideas to try out in the classroom. Hic ... hic ...hiccups! is a title in the Little Library Literacy Kit. Summary: Baby has hiccups. The family members try various ways of getting rid of the hiccups. Main concepts: family members, action words (verbs). Problem solving is also covered.

The Autobiography of Nelson Mandela

Originally published in 1991. The transplantation of thousands of Indian workers to South Africa under indenture between 1860 and 1911 was a political act with far-reaching consequences for their linguistic traditions. In this book, the history of one of these Indic languages, Bhojpuri, and its adaptations to its new context are traced to the point where a distinct South African Bhojpuri koine (generally known as Hindi) came into being. The roots and subsequent evolution of this language variety, as well as the events contributing to its demise, form the basis of this study. Current patterns of usage by different generations are documented in the form of traditional folk tales, proverbs, riddles and songs, alongside personal interviews. This study offers a partial history of Bhojpuri speakers, who have been otherwise largely silent in the history of colonial Natal.

Refiguring the Archive

Dreams are the currency of Okri's writing, particularly in this first book of poems, An African Elegy, but also in his books of short stories and prize-winning novel The Famished Road. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, Times Literary Supplement
