THE Carmelite Order was originally devoted to a purely contemplative life. Its members lived as hermits on Mount Carmel, striving to imitate the holy prophets Elias and Eliseus. According to their Rule—which, given about A.D. 1210, records the customs observed by these hermits since they became a body corporate—they spent their time in or near their cells, meditating on the law of the Lord day and night, repairing only once a day to the oratory to hear mass. They said their office or their Paters privately, and took their more than frugal meals in solitude. James de Vitry thus speaks of these hermits: ‘ Others, following the example of Elias, that holy anchorite and great prophet, embraced the eremitical life on Mount Carmel, chiefly on the part overlooking the town of Porphyry, now called Caiffa, near the fountain of Elias, not far from the monastery of S. Margaret, Virgin. There living in small cells, like bee-hives, they made a sweet spiritual honey Aeterna Press

Joyful Transformation is a message of meditation based on the Bible and written by one of the most important Christian writers of all time. A devotional message of faith and hope for you. Charles Haddon (CH) Spurgeon,19 June 1834 - 31 January 1892) was a British Particular Baptist preacher. Spurgeon remains highly influential among Christians of various denominations, among whom he is known as the "Prince of Preachers". He was a strong figure in the Reformed Baptist , defending the Church in agreement with the 1689 London Baptist Confession of Faith understanding, and opposing the liberal and pragmatic theological tendencies in the Church of his day. It is estimated that in his lifetime, Spurgeon preached to around 10,000,000 people.Spurgeon was the pastor of the congregation of the New Park Street Chapel (later the Metropolitan Tabernacle) in London for 38 years. He was part of several controversies with the Baptist Union of Great Britain and later had to leave the denomination. In 1867, he started a charity organisation which is now called Spurgeon's and works globally. He also founded Spurgeon's College, which was named after him posthumously. Spurgeon was a prolific author of many types of works including sermons, an autobiography, commentaries, books on prayer, devotionals, magazines, poetry, hymns and more. Many sermons were transcribed as he spoke and were translated into many languages during his lifetime. Spurgeon produced powerful sermons of penetrating thought and precise exposition. His oratory skills held his listeners spellbound in the Metropolitan Tabernacle and many Christians have discovered Spurgeon's messages to be among the best in Christian literature.

This book is about the ancient Reptile/Serpent Brain in humans and its transformation. The Serpent Brain (R-complex) is the oldest part of our brain where all of our primal instincts, carnality and fears originate. We seek to show how mostly all that we perceive as evil or negative stems from ancient programming in the reptile brain based in fear. However, through deprogramming and reprogramming the Serpent Brain we can live in what we consider the supernatural or Spirit at all time. Now to explain this: Every part of our body is a replica or physical manifestation of something that exists in the celestial realm. The good news of the Creator's purpose and plan is recorded throughout the human anatomy and DNA. We are awesomely and wonderfully created in the image and likeness of the Creator; although we don't yet fully express that reality. Nevertheless, we do have a hope and promise that we will be completely restored to Edenic Consciousness to totally operate out of the Mind of Christ at all times. At which point even the members of our being that are considered most low and primal will express the full glory of our God. In this book we challenge you to look at issues, perceptions, lifestyles, behaviors, religious ideas, political propaganda and hidden fears. We will not only look at them but possibly change some and come to realize the power of love that dissolves all fears. Lastly, we will show you the hidden metaphors in Scripture that hinted at the transformation of the Serpent Brain/Carnal Mind, the Pineal & Pituitary Glands. We also set this forth in mystical poetry throughout the book. "Bless the LORD O' my soul and all that is within me bless His holy name." Psalms 103:1 KJV The physical and material world only reflects that of the invisible or spiritual realm. In the spirit realm the Seraph is the spiritual counterpart of our physical Serpent (reptile) Brain and brain stem. The metaphysical primal Serpent Brain will be transformed to be like unto the Seraph within mankind. The Seraphim are the mysterious highest celestial Angelic Order of Fiery Flying Serpentine creatures closest to the throne of God. According to Scripture, they cry; holy, holy, holy is the LORD of hosts; the whole earth is filled with His glory. Isaiah 6:1-3 All of creation earnestly waits and groans with expectation for humans to once again fully operate out of whole brain synchronicity as in Eden. At which point we will manifest as sons and daughters of Elohim and the whole earth of our being will express his glory. This book, and all that seek the Light are dedicated to the complete transformation of the human mind and choosing to live in Love.

The Articles of Configuration: What happened before Genesis began? The scriptures amazingly describe the material building blocks of the earth before our earthly sphere was formed. But, even more amazing, is that the invisible blueprints describing the formation of the universe and its lifeforms are hidden in plain sight in the scriptures-in the form of flashback descriptions of what happened before Genesis 1:1. The problem of mankind understanding these blueprints has been that advancements in science were necessary to understand what has been written from antiquity. Science and theology has been locked together in a mighty struggle of ideas. The process, at times, has been ugly as a caterpillar chomping on leaves, regurgitating and trying to build a cocoon of how the universe is really constituted. But this cocoon, like the human brain, has an inside tension between left brained logic and right brained dreaming. A mighty struggle ensues and at last a butterfly emerges from the cocoon and its glistening wings dry in the sun. As the butterfly discovers its destiny and ascends in flight into the brilliant blue sky filled with fluffy white clouds, a serene revelation of peace envelops the butterfly. It realizes that its one wing of science and its other wing of theology are working in harmony under a Master control. Thrilled and awed, the butterfly uses both wings to ascend far above worldly ideas into realms that it once only dreamed of.

The Godly Man's Picture, Drawn with a Scripture Pencil, or, Some Characteristic Marks of a Man who is Going to Heaven. The soul being so precious, and salvation so glorious—it is the highest point of prudence to make preparations for the eternal world. It is beyond all dispute, that there is an inheritance in light; and it is most strenuously asserted in Holy Scripture that there must be a fitness and suitability for it (Col. 1:12). If anyone asks, "Who shall ascend into the hill of the Lord?" the answer is, "He who has clean hands, and a pure heart" (Psalm 24:4). To describe such a person is the work of this ensuing treatise. Here you have the godly man's portrait, and see him portrayed in his full lineaments

*Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works “invade the reader’s mind, to persuade him or her to surrender to the charm of his writing and power of his idealism.” Mirrors, Galeano’s most ambitious project since Memory of Fire, is an unofficial history of the world seen through history’s unseen, unheard, and forgotten. As Galeano notes: “Official history has it that Vasco Núñez de Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind?” Recalling the lives of artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men’s fears, and told in hundreds of kaleidoscopic vignettes, Mirrors is a magic mosaic of our humanity.*

*“The Lord has shown me that Satan was once an honored angel in heaven, next to Jesus Christ. His countenance was mild, expressive of happiness like the other angels. His forehead was high and broad, and showed great intelligence. His form was perfect. He had noble, majestic bearing. And I saw that when God said to his Son, Let us make man in our image, Satan was jealous of Jesus. He wished to be consulted concerning the formation of man. He was filled with envy, jealousy and hatred. He wished to be the highest in heaven, next to God, and receive the highest honors. Until this time all heaven was in order, harmony and perfect subjection to the government of God.”-Ellen G White*

*The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung’s revolutionary ideas “What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society.”—The Guardian “Our psyche is part of nature, and its enigma is limitless.” Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life’s work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, Man and His Symbolsis a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, Man and His Symbols proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.*

*Winner of the International Lannan Literary Award for Nonfiction Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patters) that we have only lately come to think of as "inanimate." How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the breathing earth? In The Spell of the Sensuous David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which—even at its most abstract--echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.*

*The New You It's important to understand what happened when you received Jesus as your Savior. That knowledge and understanding will keep the Word that was sown in your heart from being stolen by Satan. There is more to salvation than you have ever imagined. The forgiveness of sin was not the only thing included in your salvation. From God's perspective, it is just the beginning, a means to an end. Fellowship is the real goal. Now, become a disciple (learner and follower) of Jesus. Learn what separates Christianity from every other religion; how God sees past, present, and future sins; and much more. The Holy Spirit Living the abundant life that Jesus provided is impossible without the Holy Spirit. Before Jesus disciples received Him, they were weak and fearful. After receiving, each one became a powerhouse of God's miraculous power, and that's available to you. If you believe the Bible is true, then you must also believe the baptism in the Holy Spirit is God's will for everyone. In this book, Andrew establishes the validity of speaking in tongues, talks about the many gifts that accompany it, shares other little-known benefits, and explains how to begin speaking in tongues.*

*There is an appetite for God. And it can be awakened. I invite you to turn from the dulling effects of food and the dangers of idolatry, and to say with some simple fast: "This much, O God, I want you." Our appetites dictate the direction of our lives - whether it be the cravings of our stomachs, the passionate desire for possessions or power, or the longings of our spirits for God. But for the Christian, the hunger for anything besides God can be an arch-enemy. While our hunger for God - and Him alone - is the only thing that will bring victory. Do you have that hunger for Him? As John Piper puts it: "If we don't feel strong desires for the manifestation of the glory of God, it is not because you have drunk deeply and are satisfied. It is because we have nibbled so long at the table of the world. Our soul is stuffed with small things, and there is no room for the great." If we are full of what the world offers, then perhaps a fast might express, or even increase, our soul's appetite for God. Between the dangers of self-denial and self-indulgence is this path of pleasant pain called fasting. It is the path John Piper invites you to travel in this book. For when God is the supreme hunger of your heart, He will be supreme in everything. And when you are most satisfied in Him, He will be most glorified in you.*

**This book is about Sovereignty. It's about the superior intelligence and self empowerment which comes from interacting with beings which inhabit a parallel universe to this one - another dimension - from whom man has traditionally gained his wisdom about his place and purpose on Earth and in the cosmos. In ancient times, the ability to tap into this superior wisdom was transmitted to kings and pharaohs by one who was in touch with these extra-dimensional beings or lifeforms, who are also known as the spirits. Sovereignty comes from the spirits of the land, otherwise known as the Fae, the Gentry, the Sidhe or the Faeries. These spirits are like Man, but are of an Elder and wiser race which inhabits a timeless zone within the parallel dimensions. These days, only children can see them, who haven't yet had that perceptivity educated and ridiculed out of them. Shamans and high priestesses in Neolithic times were in touch with these spirits of the land, and so were able to transmit their wisdom to the king or pharaoh in sacred sex rites during his coronation night. This became known as the Sovereignty because it fired up the king's higher brain centres, giving him a superior intelligence and thus the ability and the right to reign. Our ancestors have left us magical keys in their orally passed on myths which, like messages in a bottle, can help us find the way to spark up that wisdom again, in ourselves. As a shaman and mythologist, the author Ishtar Babilu Dingir is regularly in communion with the spirits of the land where she lives in Glastonbury, Somerset. In this book, she has laid out the way for the ordinary person to regain their Sovereignty, which is their birthright, through shamanic sexual practises and also by learning to visit these other dimensions on the inner planes. First, she lays the foundation stone for the teaching by showing the evidence - from ancient Greece, Egypt, Crete, India, Sumer and Babylon - that sacred sex was an integral part of the Kingship rites, and the literary evidence that the spirits were present in the lovemaking. She also explains about our earlier ancestors' understanding about the Faery Marriage, and what she believes is the original meaning of the Holy Grael, tracing it back to the Neanderthals about 45,000 years ago. The reader then learns how to perform shamanic sex themselves, to fire up their own superior intelligence. Finally, Ishtar reveals more about her own relationship with the local spirits of the land, so that others may become inspired to explore their own locality and thus begin their quest towards higher brain development and self-empowerment - to Sovereignty.**

My search for meaning uncovered a secret brain program in charge of moral development. A roadmap to enlightenment comes through the unique language of symbolism that has long been forsaken. This foreign tongue reveals the nature of divinity and truth of existence. It shows us who we really are, not who we think we are. A metaphoric component silently transforms a base consciousness to all-knowing awareness by converting power to love. Success in transforming an animal species to human status comes by attaching an integrated brain to a compassionate heart. Otherwise, life gets nasty as evidenced in bias, prejudice, bigotry, and profiling. Projections of how we feel about ourselves translate into how we treat others. Awakening to reality, after a long slumber in fantasy, is essential to raise our level of consciousness and our degree of self-awareness. A higher mental state is under construction. It needs our help to end the destruction and suffering our blindness causes. Blindness will be lifted by an involuntary change in vision.

Tim Jennings, one of America's top psychiatrists, here reveals how our brains and bodies thrive when we have a healthy understanding of who God is. Exposing how different God concepts affect the brain differently, Dr. Jennings forges surprising new connections between neuroscience, health and right belief.

God is great—for your mental, physical, and spiritual health. Based on new evidence culled from brain-scan studies, a wide-reaching survey of people's religious and spiritual experiences, and the authors' analyses of adult drawings of God, neuroscientist Andrew Newberg and therapist Mark Robert Waldman offer the following breakthrough discoveries: • Not only do prayer and spiritual practice reduce stress, but just twelve minutes of meditation per day may slow down the aging process. • Contemplating and loving God rather than a punitive God reduces anxiety and depression and increases feelings of security, compassion, and love. • Fundamentalism, in and of itself, can be personally beneficial, but the prejudice generated by extreme beliefs can permanently damage your brain. • Intense prayer and meditation permanently change numerous structures and functions in the brain, altering your values and the way you perceive reality. Both a revelatory work of modern science and a practical guide for readers to enhance their physical and emotional health, How God Changes Your Brain is a first-of-a-kind book about faith that is as credible as it is inspiring.
