

Shades Of Grey The Road To High Saffron 1 Jasper Fforde

Imagine a world where your position in society depended on what bit of the colour spectrum you could see. This is the world inhabited by Eddie Russet (red, middle-level) and Jane Grey (monochromatic, lowest in society). Eddie and Jane must negotiate the delicate Chromatic politics of society to find out what the ‘Something that Happened’ actually was, how society got to be this way, and crucially, is there Somewhere Else beyond their borders - and if there is, could there be Someone Else, too, someone whose unseen hand has been guiding the fortunes and misfortunes of the nation for the past 500 years? It's a tale of a young couple's thirst for justice and answers in an implacably rigid society, where the prisoners are also the gaolers, and cages of convention bind the citizens to only one way of thinking – or suffer the consequences. . . .

Friendships are like flowers. If you take care of them, they grow and bloom until you have a beautiful garden! The Little Book of Friendship shows young readers what they need to know to make a friend and to be one too.

"When a story captures the imagination of millions, that's magic. Can you qualify magic? Archer and Jockers just may have done so."—Sylvia Day, New York Times bestselling author Ask most people about massive success in the world of fiction, and you'll typically hear that it's a game of hazy crystal balls. The sales figures of E. L. James or Dan Brown seem to be freakish—random occurrences in an unknowable market. But what if there were an algorithm that could reveal a secret DNA of bestsellers, regardless of their genre? What if it knew, just from analyzing the words alone, not just why genre writers like John Grisham and Danielle Steel belong on the lists, but also that authors such as Junot Diaz, Jodi Picoult, and Donna Tartt had telltale signs of success all over their pages? Thanks to Jodie Archer and Matthew Jockers, the algorithm exists, the code has been cracked, and the results bring fresh new insights into how fiction works and why we read. The Bestseller Code offers a new theory for why Fifty Shades of Grey sold so well. It sheds light on the current craze for dark heroines. It reveals which themes tend to sell best. And all with fascinating supporting data taken from a five-year study of twenty thousand novels. Then there is the hunt for "the one"—the paradigmatic example of bestselling writing according to a computer's analysis of thousands of points of data. The result is surprising, a bit ironic, and delightfully unorthodox. This book explains groundbreaking text-mining research in accessible terms and offers a new perspective on the New York Times bestseller list. It's a big-idea book about the relationship between creativity and technology that will be provocative to anyone interested in how analytics have already transformed the worlds of finance, medicine, and sports. But at heart it is a celebration of books for readers and writers—a compelling investigation into how successful writing works, and a fresh take on our intellectual and emotional response to stories.

"A blockbuster of a novel. . . . Peachtree Road is the meaty and absorbing story of a city turned on to power and of the privileged inhabitants who led it to its current station as a mecca of business, culture, and progress. . . . To say this book is potent does not come close to doing it justice. More than merely powerful, it is mesmerizing, enthralling, and totally unforgettable." — Chattanooga Free Press A masterful tale of love, hate, and rebellion set in an elite world of class and wealth, New York Times bestselling author Anne Rivers Siddons's Peachtree Road is the unforgettable story of the turbulent growth of a great Southern city and of two people cursed by blood and birth. Headstrong, independent, and devastatingly beautiful Lucy Bondurant Chastain Venable will never become the demure Southern lady her family requires—while her older cousin, Sheppard Gibbs Bondurant III, is too shy and bookish, a far cry from the suave, gregarious Southern gentleman he's expected to be. In the Bondurants' sprawling home on Atlanta's Peachtree Road, these two will be united by a fierce tainted love—and torn apart by a smoldering rage fanned by the cruelty of years and the unbending demands of privilege.

Sixteen-year-old Jennifer Strange faces the impossible when the mighty Shandar emerges from his preserved state and presents her with a lucky that sends her and her companions on a journey from which they may never return.

The sixth installment of the New York Times bestselling Thursday Next series—from the author of The Constant Rabbit Jasper Fforde's exuberant return to the fantastical BookWorld opens during a time of great unrest. All-out Genre war is rumbling, and the BookWorld desperately needs a heroine like Thursday Next. But with the real Thursday apparently retired to the RealWorld, the Council of Genres turns to the written Thursday. The Council wants her to pretend to be the real Thursday and travel as a peacekeeping emissary to the warring factions. A trip up the mighty Metaphoric River beckons-a trip that will reveal a fiendish plot that threatens the very fabric of the BookWorld itself. Once again New York Times bestselling author Jasper Fforde has a field day gleefully blending satire, romance, and thriller with literary allusions galore in a fantastic adventure through the landscape of a frisky and fertile imagination. Fans will rejoice that their favorite character in the Fforde universe is back. Watch a Video

50 Shades of God is an attempt to show case the Love and wonders of God in the modern era. This book is not a critique of the book or the movie, 50 Shades of Grey. It is my effort to share with you some of the treasures I found in my search for God. I probably cannot make the subject of God more interesting than sex, but I can share with you some of the highlights of His nature. I have been looking for God since the age of 5. I have a very inquisitive nature and I was always questioning my parents and grandparents about God and about the "Why?"s of life. As I stumbled through my teenage years, God was not a priority. But, even through my wilder days, I would always think about Him. He was always at the back of my mind. When I hit my early twenties, life got more serious and I got more curious. I stumbled across a couple of books about God that changed my entire view of life. As I began to search for clues about God in those 2 books, my mind came alive. I could not believe some of the things that I was reading about God. In fact, I was kind of angry. "Why haven't I seen this before? Why hasn't someone told us these things?" The study of God became a passion. For me, it was right up there with hiking, fishing, and watching college and NFL football. In fact, I dedicated my life to God. But more than that, I was fascinated by the subject of God Himself. He was the most interesting subject I had ever run across. I wanted to learn "the deeper things of God". The first book that my wife and I ever read together was a book by J.I. Packer entitled, Knowing God. That book gave us a great foundation for the future, but it was just the tip of the iceberg.

It was just a start. God is so much greater than all of the sum of my greatest thoughts of Him. He is the lord of our souls. But, over the years, there have been great times, and tragic times. There have been miscarriages, suicides, and sudden death. The road has not always been easy, and my thoughts toward God have not always been rosy. In fact, I went through a 5 year period where I was mad at God. I was hurt. Something precious had been taken from us, and I didn't know how to handle it. I wasn't as much mad as I was sad. Sad not only about the pain in the lives of those I loved, but sad about the human condition.However, during those 5 years of distance from God, I never stopped talking to Him. I am no spiritual giant at all, but I still prayed even when it hurt. There is a sense in which I believe God carried me during those years. He knew I was hurting, and His pain over me was greater than my own. I emerged from those years of darkness with a greater faith than I have ever had. My wife and I are not thankful for the losses that caused the pain, but we are thankful for the lessons were learned through the pain and we are grateful that God is so much greater than the pain. This book is not about pain.

It is not a critique of 50 Shades of Grey. It is an attempt to show you a greater God, a God who loves us, a God who feels our pain, but also a God who does not share His deepest mysteries with His most distracted children. As Jesus put it so straightforwardly, "God does not cast His pearls before swine." Kind of rough language, I know. But, for those who look for Him with all of their heart, they will find Him. And He is spectacular and beautiful. He is awesome. I am in my mid-fifties now, and I have spent more than 50 years looking for the secrets of God. I have more than 700 notebooks of information on God, science, theology, business, psychology, and so on. I am very selective about the books I read. In this book, I begin to share with you some of the great things I have found. I am nobody special. I am just one beggar telling other beggars where he found some bread.Thank you for taking the time to read this summary of my book, 50 Shades of God. May God begin to give you the desires of your heart.

Until he is sent to the Outer Fringes where he meets Jane – a lowly Grey with an uncontrollable temper and a desire to see him killed. For Eddie, it's love at first sight. But his infatuation will lead him to discover that all is not as it seems in a world where everything that looks black and white is really shades of grey . . . It is a sweeping debut that illuminates the power that memories have not only on the heart, but on the world itself. One afternoon at an outdoor market in India, a man's shadow disappears--an occurrence science cannot explain. He is only the first. The phenomenon spreads like a plague, and while those afflicted gain a strange new power, it comes at a horrible price: the loss of all their memories. Ory and his wife Max have escaped the Forgetting so far by hiding in an abandoned hotel deep in the woods. Their new life feels almost normal, until one day Max's shadow disappears too. Knowing that the more she forgets, the more dangerous she will become to Ory, Max runs away. But Ory refuses to give up the time they have left together. Desperate to find Max before her memory disappears completely, he follows her trail across a perilous, unrecognized world, braving the threat of roaming bandits, the call to a new war being waged on the ruins of the capital, and the rise of a sinister cult that worships the shadowless. As they journey, each searches for answers: for Ory, about love, about survival, about hope; and for Max, about a new force growing in the south that may hold the cure. Like The Passage and Station Eleven, this haunting, thought-provoking, and beautiful novel explores fundamental questions of memory, connection, and what it means to be human in a world turned upside down.
