

Sharing Time Toddlers Tools Toddler Tools

If children were little scientists who learn best through firsthand observations and mini-experiments, how would a child discover that the earth is round—never mind conceive of heaven as a place someone might go after death? *Trusting What You're Told* begins by reminding us of a basic truth: Most of what we know we learned from others.

With nearly 2 million books in print, this Little Apple series is H-O-T, hot. The SECRET is out -- DROON is the series that kids, parents, and teachers are talking about! There's no place like home! Eric and his friends have finally restored the Rainbow Stairs, but that was the easy part. Now Gethwing is loose in the Upper World, and the Moon Dragon is causing big trouble. Eric, Julie, and Neal have to protect their town, but they're up against mysterious creatures, strangely-behaving parents, and powerful magic. Can the kids stop Gethwing before he destroys the Upper World -- for good?

A groundbreaking guide to raising responsible, capable, happy kids Based on the latest research on brain development and extensive clinical experience with parents, Dr. Laura Markham's approach is as simple as it is effective. Her message: Fostering emotional connection with your child creates real and lasting change. When you have that vital connection, you don't need to threaten, nag, plead, bribe—or even punish. This remarkable guide will help parents better understand their own emotions—and get them in check—so they can parent with healthy limits, empathy, and clear communication to raise a self-disciplined child. Step-by-step examples give solutions and kid-tested phrasing for parents of toddlers right through the elementary years. If you're tired of power struggles, tantrums, and searching for the right “consequence,” look no further. You're about to discover the practical tools you need to transform your parenting in a positive, proven way.

A manual for parents, teachers, and kids to restore their natural alignment • Explores the principles of natural alignment in accessible ways to share with children • Details simple and fun exercises--for kids and adults alike--that “remind” the body of its natural patterns and movements • Explains how innate movements and natural

alignment play an essential role in the development of a fully functioning body and nervous system. Babies and toddlers develop naturally healthy alignment by moving in instinctive ways. Their posture is easy and relaxed, founded on correct pelvic positioning and deep core muscles to hold their bodies upright. Yet, as evidenced by the slouching epidemic seen in school-age children, most kids lose this natural alignment early in life, often due to an overreliance on strollers, baby seats, and bucket-style carriers during infancy and the reluctance to put babies on their bellies because of widespread fear of SIDS. In this richly illustrated manual for parents, teachers, and kids themselves, movement educator and researcher Kathleen Porter explains how to relearn natural alignment with a simple movement routine that "reminds" the body of its natural patterns. Detailing the principles of natural alignment in accessible ways to share with children, she also explores research on the importance of "tummy time" and how the movement patterns present at birth act as an engine that activates neural pathways to key areas of the brain. In this way, movement plays an essential role in the development of a fully functioning nervous system, coordinated muscle tone, and a strong, internal core that stabilizes the spine and prepares the baby for the soon-to-be-acquired upright position. The author explains how many children who struggle with a growing number of neurodevelopmental challenges, including autism, learning disabilities, and ADHD, also exhibit poor muscle tone, lack of core development, and difficulties with balance and coordination. With a multitude of easy-to-follow principles and exercises--far more fun and effective than the futile mantra of "sit up straight"--Kathleen Porter provides a detailed road map for parents, teachers, and health professionals to learn how to guide children back to their natural posture by inhabiting their bodies mindfully for a lifetime of easy movement, strength, and energetic vitality--the hallmarks of enduring good health.

How to Parent Your Anxious Toddler

An Activity Book for Classroom Learning

An INTERACTIVE Book for PARENTS and CHILDREN! "Let's Play Pretend..." is a Mommy, Daddy and Me book that provides a modern twist to an ageless idea: that the most important times in your child's life--and yours as parents--are the times spent together sharing smiles, creating memories, and celebrating your love for each other! This book is designed for BOTH Mom and Dad to share with your children at the same time, and is designed to be FUN and INTERACTIVE for everyone! If you currently have an amazing family life--this book is for you. Think of it as another tool in your toolbelt in creating amazing memories with your children. If, like many modern families, you sometimes struggle to find consistent "quality time" together--this book is for you. Try carving out a little time as many days a week as you can to read this book together as a family, and witness the magic it will create! We are confident that pretty soon you'll call it **THE BEST 15 MINUTES OF YOUR DAY!** With memorable, catchy, and playful rhymes by Scott Field and whimsically delightful illustrations by Jensen Couch, "Let's Play Pretend..." showcases a diverse group of multiethnic and multicultural families pretending to be different animals at bedtime, with hilarious illustrated "transformations" of each family member. Interactive and addictively fun for both parents and kids, it lives up to the Mommy, Daddy and Me slogan: **STRONGER FAMILIES. HAPPIER KIDS.**

"A subtle, deceptively simple book about inclusion, hospitality, and welcoming the 'other.'" —Kirkus Reviews "A boundlessly inclusive spirit...This open-ended picture book creates a natural springboard for discussion." —Booklist "This sweet extended metaphor uses an umbrella to demonstrate how kindness and inclusion work...A lovely addition to any library collection, for classroom use or for sharing at home." —School Library Journal In the tradition of Alison McGhee's *Someday*, beloved illustrator Amy June Bates makes her authorial debut alongside her eleven-year-old daughter with this timely and timeless picture book about acceptance. By the door there is an umbrella. It is big. It is so big that when it starts to rain there is room for everyone underneath. It doesn't matter if you are tall. Or plaid. Or hairy. It doesn't matter how many legs you have. Don't worry that there won't be enough room under the umbrella. Because there will always be room. Lush illustrations and simple, lyrical text subtly address themes of inclusion and tolerance in this sweet story that accomplished illustrator Amy June Bates cowrote with her daughter, Juniper, while walking to school together in the rain.

Tools for the Toddler Years provides smart, compassionate and sensible parenting support in an easy, quick and illustrated format that busy parents can actually use. "Glance & Go Guides" focus on common toddler behaviors that most stress and perplex parents, including meltdowns, hitting, transitions, and more. Each guide shares tools and strategies that are easy-to-find, easy-to-remember, clear, succinct and demonstrated in-practice with illustrations and sample scripts. The "Your Toddler and You" chapters share the developmental picture of what is happening inside the brain, body and heart of a toddler and what it can look like, behaviorally, on the outside. Also focused on the experience of the toddler parent, these chapters share information on temperament and parenting style, as well as a discussion of the unique rewards, stresses, demands and discoveries of parenting. The "Easing the Everyday" chapters cover sleep, food, sharing, toilet training, routines, playdates, and new challenges around daily living, from chores to grocery

shopping to eating in a restaurant. Co-written by a parent educator and a parent of a young child, this book is grounded in an expert understanding of child development, a philosophy of parenting with respect, affection and support, and attention to parental stressors, needs, and overall family dynamics. Its purpose is to ready parents for the day-to-day challenges of the highly active toddler years, so that day-to-day parents can feel capable, loving and confident as they, in turn, nurture capable, loving and confident children.

Finally, a practical book for busy parents! Whether you find parenting intuitive or impossible, we could all use a hand here and there. And we could use it quick! In *8 Simple Tools*, child psychologist and father Todd Cartmell walks you through the nuts and bolts of healthy, effective parenting. Using examples from his home and 20 years of professional practice, Todd gives eight essential and practical tools to help you: Listen well and respond wisely Use affirmation to influence your child Develop a nurturing home culture Correct behavior in lasting ways Maintain a healthy relationship with your child Designed with busy parents in mind, *8 Simple Tools* breaks each tool into five short chapters, perfect for when you only have a second. Plus, each chapter ends with a practical “Tip” section that summarizes the main point and helps you apply it right away. Use even half of the tools in your parenting, and your family dynamics will thrive. Your relationship will be built on love and trust, providing you with fertile ground for planting God’s wisdom in your child's heart and, ultimately, seeing your child flourish.

No Bad Kids: Toddler Discipline Without Shame

Cute Animals Coloring Book for Toddlers & Kids Age 2-8

A succinct guide that shows busy parents, teachers, relatives, and caregivers how to revamp their communication with 1- to 6-year-olds. Sixty-six well worn expressions that are meaningless, ineffective, or even harmful are used as a springboard to talking in a clearer, more productive way, with examples of what to say instead. The book presents simple techniques for assessing and guiding children's behavior that helps adult think twice and change what they typically say. The payoff is more satisfactory interactions with young children—and better behaved, happier children. Included are recommended children's books in various areas of communication.

The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world ’ s largest democracies – Brazil, India, and the United States – now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-

right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time.

"Jane Nelsen, author of the successful Positive Discipline series, has now compiled a toolkit for parents to teach their children creative cooperation and self-discipline, with success stories from parents worldwide"--

Manners start with a smile—then you add the words. There are polite words to use when you greet someone, ask for something, or (oops!) make a mistake. There ' s even a nice way to say no. This book gives toddlers a head start on manners, setting the stage for social skills that will last a lifetime. Includes tips for parents and caregivers.

Sharing Time

Sometimes it's fun to share, and sometimes it's hard. This book offers toddlers simple choices (take turns, use the toy together, wait for another time) to make sharing easier, and shows them where to turn for help when sharing is difficult. Little ones learn that sharing can mean double the fun—and sharing a while can make someone smile! Includes tips for parents and caregivers.

Simple text and illustrations explain how to share.

BRUNO is a friendly & funny dog. He knows that some children are afraid of dogs... That's why he decided to teach you how to understand dog behavior. This book is dedicated to my 31?2-year-old daughter Nika, who courageously overcame her fear of dogs. From the very day she was born, Nika grew up with a family dog at home. So, you're probably wondering, how her fear of dogs developed? It all started when we were walking in our neighborhood with our dog: a big dog that wasn't on a leash attacked our dog. Nika witnessed this scene and from that day, she refused to go back outside. Her fear grew deeper and deeper. We decided to take her to a special therapist, someone who could teach her how to deal with her fear. After a few sessions, Nika's confidence started to come back, as she learnt about a variety of tools and techniques to help her deal with her fear. One of those tools was knowledge. It was that knowledge that inspired me to write this book. This book was created so that you too can teach the 'Dogs Behavior Knowledge Tool' to your children in a fun and enjoyable way. I hope you enjoy it. "Good book on teaching your children how not to fear dogs." (~Elizabeth) "Valuable Lessons About Dogs Behavior" (~M. McDonald) This Children's book is also great for early readers and is a great tool for how to overcome fear of dogs. Pick up your copy today!

A heartbreaking and hilarious memoir by iCarly and Sam & Cat star Jennette McCurdy about her struggles as a former child actor—including eating disorders, addiction, and a complicated relationship with her overbearing mother—and how she retook control of her life. Jennette McCurdy was six years old when she had her first acting audition. Her mother’s dream was for her only daughter to become a star, and Jennette would do anything to make her mother happy. So she went along with what Mom called “calorie restriction,” eating little and weighing herself five times a day. She endured extensive at-home makeovers while Mom chided, “Your eyelashes are invisible, okay? You think Dakota Fanning doesn’t tint hers?” She was even showered by Mom until age sixteen while sharing her diaries, email, and all her income. In *I’m Glad My Mom Died*, Jennette recounts all this in unflinching detail—just as she chronicles what happens when the dream finally comes true. Cast in a new Nickelodeon series called *iCarly*, she is thrust into fame. Though Mom is ecstatic, emailing fan club moderators and getting on a first-name basis with the paparazzi (“Hi Gale!”), Jennette is riddled with anxiety, shame, and self-loathing, which manifest into eating disorders, addiction, and a series of unhealthy relationships. These issues only get worse when, soon after taking the lead in the *iCarly* spinoff *Sam & Cat* alongside Ariana Grande, her mother dies of cancer. Finally, after discovering therapy and quitting acting, Jennette embarks on recovery and decides for the first time in her life what she really wants. Told with refreshing candor and dark humor, *I’m Glad My Mom Died* is an inspiring story of resilience, independence, and the joy of shampooing your own hair.

Do you want to know why all children should listen to the Greatest Bedtime Stories for Kids? In recent years for parents, putting a child to bed and getting used to it at the right pace has become one of the most stressful moments of the day. Our children would prefer to spend hours and hours in front of a TV or in front of an electronic game rather than accepting the fact that the time has come to end the day and go to bed. This happens because they have no good reason to associate the moment of sleep with a moment of fun. imagine what it would be like to get your child used to creating a sweet, fun and reassuring evening ritual that will accompany him to sleep. imagine what it would be like to give your child the right amount of attention, pampering and understanding while you are getting used to specific rules imagine what it would be like to see your child excited to go to bed because he knows he is going to share one of the best moments of the day with his parents. imagine what it would be like

not having to wait anxiously for the moment to communicate to your children that it is time to sleep. The bedtime stories also guarantee moments of intimacy and sharing in the family. Moments that will remain forever etched in the memories of each child. It is precisely in the evening, just before going to sleep, that the children process what happened during the day and often need to be reassured. Through these tales and tales, mom and dad can be comforting and give courage to their child without facing the topic that causes stress and at the same time providing the best tools to successfully overcome the small difficulties of everyday life. If you want your children to face the night with serenity and joy while developing fantasy and imagination, this book cannot be missing in your library. The 49 Most Effective Methods to Stop Power Struggles, Build Communication, and Raise Empowered, Capable Kids
Healthy Posture for Babies and Children
From IEPs to Assorted Therapies, an Empowering Guide to Taking Action, Every Day

A Tool Coloring Book
And Tango Makes Three
Meaningful Conversations with Our Kids

Not since Dr. Spock's *The Common Sense Book of Baby and Child Care* published in 1946 has there been such a comprehensive book on parenting. *Raising Cooperative Kids* focuses on children from toddlerhood to early teens, picking up where Spock's book leaves off. Patterson, who was one of the leaders of the behavioral movement in psychology, gets straight to the heart of the power struggle that begins when children learn to speak and interact with others. This fight for power is at the core of every tantrum and argument that will ever occur between parents and children. Together, Patterson and Forgatch give parents the formula to overcome this struggle and make children want to cooperate. Their parenting techniques tap deep-rooted human instincts, making them universal and easy to use no matter where you live or how your family is structured. Developed over 40 years of practice and tested in clinical studies, these techniques enable parents to teach their children new behaviors, change unwanted behaviors, and reduce family conflicts. Unlike most parenting books, the focus is first on changing the behaviors of parents and giving them proven tools to bring out the best in their children. Specific guidance is included for issues ranging from how to share the bathroom during the morning rush to what to do when a child misbehaves. The authors also remind us of the importance of play#8212enjoying each other and sharing time and activities together is the cornerstone of a happy family. *Raising Cooperative Kids* is the only parenting book you will ever need.

Parents feel that a fast-paced lifestyle requires constant hurry to complete the next task and causes them to lose control over how time is spent. This environment makes it more difficult to build relationships with their children and teach them to honor priorities, care about others, maintain health, manage conflicts, and achieve balance. Our cross-cultural studies of families have found that the most important gift parents can give their children is spending time together. Being together without multitasking or other interruptions increases sharing, in depth conversations, learning, and closeness. This book shows how to prepare children for school by providing the following experiences.

- Parents have a new obligation, introducing their children to the Internet. Parent and child Internet visits are presented for each chapter with guidelines for teaching online. Information about child development stages are provided for parents on additional Web sites. You can link to these Web sites at Information Age Publishing (<http://www.infoagepub.com/strom-young-children>)
- Parents and children spend more time watching television together than doing other things. Conversation questions are provided as a tool that parents can use to find out how children interpret events they see and detect learning needs.
- Children will more likely become creative adults if they receive support for imagination and curiosity. Examples illustrate the merits of playing alone, playing with friends, and pretending with parents.
- Boys and girls like bedtime stories and are motivated to read when they see parents read for pleasure. Children ' s books that are recommended for discussion

reinforce values parents hope to convey. • Parents are responsible for teaching foundation lessons about socialization. Methods are described to foster development of child self-control, getting along with others, managing fears, and setting goals. • Parents benefit from feedback on how well their goals and practices reflect principles of child development. A parent self-evaluation form includes questions and answers to identify personal strengths and learning needs. This book is for parents, grandparents, and other educators of young children ages 3 to 8.

Llama Llama doesn't want to share his toys with his new neighbors, but when fighting leads to broken toys and tears, Llama learns that it's far better to share.

More than six million students in the U.S. receive special education services and that number is on the rise. Frequent changes in educational philosophy and special-education law have made it increasingly difficult for parents to establish an appropriate education plan for their children. This book looks at the many ways that parents can advocate for their children. including how to: Communicate with teachers Get homework done Become involved at school Ensure their children are well rested Start a school day on the right foot Advocacy comes in all forms, and sometimes itÆs as simple as helping people get to know their child and family in a positive way. This useful book will serve as an invaluable tool for parents looking to establish the best educational plan for their children.

8 Simple Tools for Raising Great Kids

Janet Lansbury is unique among parenting experts. As a RIE teacher and student of pioneering child specialist Magda Gerber, her advice is not based solely on formal studies and the research of others, but also on her twenty years of hands-on experience guiding hundreds of parents and their toddlers. "No Bad Kids" is a collection of Janet's most popular and widely read articles pertaining to common toddler behaviors and how respectful parenting practices can be applied to benefit both parents and children. It covers such common topics as punishment, cooperation, boundaries, testing, tantrums, hitting, and more. "No Bad Kids" provides a practical, indispensable tool for parents who are anticipating or experiencing those critical years when toddlers are developmentally obliged to test the limits of our patience and love. Armed with knowledge and a clearer sense of the world through our children's eyes, this period of uncertainty can afford a myriad of opportunities to forge unbreakable bonds of trust and respect.

This practical book provides an accessible framework for observing and assessing children's learning through play. It will help early years practitioners to deepen their understanding of the links between intellectual development, the growth of language and the emotional well-being of young children. Drawing on many years of research and working with teachers, Pat Broadhead has developed the Social Play Continuum, a unique observation tool and a means of monitoring and developing a child's social progress through skills such as problem-solving, investigation and imagination discourse. This tool forms an integral part of this innovative text, offering practitioners in a wide range of early years settings a means of focusing their observations of play. In addition, the book: supports the development of 'areas of provision' illustrates progression from 'association' to 'cooperative' play considers links with the Foundation Stage Curriculum, Profiling and the National Curriculum acknowledges the many constraints that have operated on early years practitioners in the past decade. Blending theory and practice this book is aimed at all early years' practitioners concerned with quality provision for their pupils. It is also the ideal text to support student teachers, classroom assistants and undergraduates on early childhood studies degrees.

When male penguins Silo and Roy attempt to hatch an egg-shaped rock and find no success in their efforts, the zookeepers decide to place a fertilized penguin egg in their cage and end up with little baby Tango, in an amusing tale based on a true story from the Central Park Zoo.

How to Stop Yelling and Start Connecting

The Far Right Today

Peaceful Parent, Happy Siblings

Popular parenting expert Dr. Laura Markham, author of PEACEFUL PARENTS, HAPPY SIBLINGS, has garnered a large and loyal readership around the world, thanks to her simple, insightful approach that values the emotional bond between parent and child. As any parent of more than one child knows, though, it's challenging for even the most engaged parent to maintain harmony and a strong connection when competition, tempers, and irritation run high. In this highly anticipated guide, Dr. Markham presents simple yet powerful ways to cut through the squabbling and foster a loving, supportive bond between siblings, while giving each child the connection that he or she needs. PEACEFUL PARENT, HAPPY SIBLINGS includes hands-on, research-based advice on: • Creating deep connections with each one of your children, so that each truly believes that you couldn't possibly love anyone else more. • Fostering a loving family culture that encourages laughter and minimizes fighting • Teaching your children healthy

emotional self-management and conflict resolution skills—so that they can work things out with each other, get their own needs met and respect the needs of others • Helping your kids form a close lifelong sibling bond—as well as the relationship skills they will need for a life of healthy friendships, work relationships, and eventually their own family bonds.

*COLORS-one of the first principles, to teach a child to recognize colors, can he show similar colors on other objects and repeat colors. This is the first step to develop an interest in drawing and coloring. * SHAPES-Help your child recognize simple shapes of shapes that will help him further develop spatial thinking, as well as bright and beautiful colors for additional development and better memorization. * HUMAN BODY-When your child begins to utter the first words or tries to repeat them, he develops tactile sensations and perceptions through touch. At this moment your child gets the very first impressions of the manifestation of your love, studies and remembers the dearest and close to him - this is mom and dad. Then he begins to study his own body and this section will help him learn what the body consists of and help to memorize the words by ear. In the future, it will help the child to inform parents about the places on the body that may cause concern since children are always the first steps and falls. * THE FIVE SENSES-Teach your child the basic feelings of touch and how to recognize exceptions. * FAMILY-is the most important thing for every person; family and friends will be very happy when your child recognizes them. * WEATHER-the basic concepts of weather, introduce the child to the phenomenon of nature. * FRUITS-useful and tasty fruits will help children identify differences and memorize what they like and what they have stayed. * VEGETABLES-are an important ration baby food and will also help distinguish your favourite vegetables. * TOYS-is a favourite section for children in which they can show and compare with their toys or show their parents what toy they want. * TRANSPORT-main means of moving through the air, on land and by water. * FARM ANIMALS-favourite animals that can be found on the farm. * WILD ANIMALS-wild animals that live in the forest or in the mountain expanses. * EXOTIC ANIMALS-introduce your child to African animals. * MARINE ANIMALS-residents of aquatic fauna, will delight children. * TOOLS-children love learning new things and this section will introduce you to father's tools. * FURNITURE-this section will teach your child furniture that is at home. * HOME APPLIANCES-children to get acquainted in this section with household appliances and what they serve. * OPPOSITES-is an important topic for children and their parents so that the child learns to compare and identify opposites. * ALPHABET-first letters in funny animals of the alphabet. * NUMBERS-numbers and funny animals that teach you how to count your child. * DAYS OF THE WEEK-your child learns to determine the days of the week and when the holidays will finally be for sharing time. * MONTHS OF THE YEAR-in this section, the child will learn how to identify months and will know when his birthday, Christmas or New Year comes. * SEASONS-this section will help the child to understand which months belong to which season and when to wait for a beautiful blossoming spring, summertime or Christmastime. * TIME-teach your child when it's time to wake up, at what time breakfast and walk time. A child learns to determine the time. * SOLAR SYSTEM-mysterious and attracting, this section will take the first step of the child's interest in the starry sky. * THE EARTH-what our planet consists of, how it changes day to night, when the seasons occur and how many days in a year are made in one revolution around the sun. * ZODIAC SIGNS-an additional section to interest the child to the starry sky, the months of the year and the seasons.

Why does your toddler get upset when his or her routine is disrupted? Why do they follow you from room to room and refuse to play on their own? Why are daily routines such as mealtime, bath time, and bed time such a struggle? This accessible guide demystifies the difficult behavior of anxious toddlers, offering tried-and-tested practical solutions to common parenting dilemmas. Each chapter begins with a real life example, clearly illustrating the behavior from the parent's and the toddler's perspective. Once the toddler's anxious behavior has been demystified and explained, new and effective parenting approaches are introduced to help parents tackle ever-

difficulties and build up their child's resilience, independence, and coping mechanisms. Common difficulties with bath time, toileting, sleep, eating, transitions, social anxiety, separation anxiety and sensory issues are solved, along with specific fears and phobias, and more extreme behaviors such as skin picking and hair pulling. A must-read for all parents of anxious toddlers, as well as for the professionals involved in supporting them.

Emergent readers explore various scientific tools such as a microscope, magnifying glass, and ruler.

Developing Social Skills and Cooperation

Parents want to share life with their kids, but it is not easy with hectic schedules and life's demands. "A Life Shared" offers vision and insight on how to have meaningful conversations through the busyness of life, questions for transformation, suggestions for action, and grace for every parent. Listen to what others are saying about "A Life Shared." "A MUST READ!" —Kathy Milans, Licensed Pastoral Counselor and Registered Play Therapist "Ellen Martin invites us to discover and develop the art of conversation with our children. I believe reading this book will change you and your family." —Stephen A. Seamands, PhD, Professor of Christian Doctrine "This is one of the most interesting, well-written books I have read in a long time." —Katie Moore, Children's Pastor "A Life Shared by Ellen Martin is a gift. I highly recommend this book." —Jeff Greenway, Lead Pastor "I believe Ellen Martin has written a tremendously helpful tool for parents and those positioned to help them. When I need parenting advice, I call Ellen! I genuinely believe others can benefit from her wisdom and experience too!" — Sharon Bryant, Licensed Marriage Family Therapist and Registered Play Therapist "... excellent resource for parents, families, parishes, small groups, and all faith communities." — Mike Allen, M. Div., D. Min., Director of Family Life and Evangelization "I read it three times in one week!" —Martin Gornik, Anglican Pastor

Coloring is a widely recommended activity for young children because of the many benefits that it brings. It is a method for effective self-expression because not all kids have mastered the power of words just yet. So pay close attention to how your child colors. Look at the hues he/she selects and the intensity of each stroke. What is your child trying to tell you?

Discipline that you and your child will feel good about! Spanking and time-outs do NOT work. At last, a positive discipline book that is full of practical tips, strategies, skills, and ideas for parents of babies through teenagers, and tells you EXACTLY what to do "in the moment" for every type of behaviour, from whining to web surfing. Includes 50 pages of handy charts of the most common behaviour problems and the tools to handle them respectfully! Parents and children today face very different challenges from the previous generation. Today's children play not only in the sandbox down the street, but also in the world wide web, which is too big and complex for parents to control and supervise. As young as aged four, your child can contact the world and the world can contact

them. A strong bond between you and your child is critical in order for your child to regard you as their trusted advisor. Traditional discipline methods no longer work with today's children and they destroy your ability to influence your increasingly vulnerable children who need you as their lifeline! You need new discipline tools!

Warning: Doing this may cause your family to have fun and actually look forward to spending time together... Is your family in need of game night, or just some sort of quality-time activity everyone will get a kick out of? Do you dislike the fact that technology is taking over entertainment, especially for the younger generations, causing children and young adults to be glued to their iPhones or laptops? Do you feel like you need a challenge, something brain-stimulating that will test your limits and allow you to become a better problem-solver and a creative thinker? Look no further - riddles and question and answer books are making a comeback! Llama Llama Time to Share

Mealtime—"Yummy-in-the-tummy time"—is an opportunity to teach young children two major life skills: nutrition and table manners. Simple but important mealtime routines come to life as the toddlers in this book remember to wash their hands, use a napkin and fork or spoon, stay at the table, and eat healthy foods. Toddlers also learn the one big rule for mealtime: Always try one bite ("You just might like it!"). Parents and caregivers want toddlers to develop healthy eating habits and positive mealtime routines. This book helps them do so with Verdick's keen ability to speak directly to little ones and Heinlen's delightful, appealing illustrations. Includes tips for parents and caregivers. Part of the award-winning Toddler Tools series.

Sometimes it's fun to share, and sometimes it's hard. In both English and Spanish, this book offers toddlers simple choices (take turns, use it together, wait for another time) to make sharing easier, and shows them where to turn for help when sharing is difficult. Little ones learn that sharing can mean double the fun--and sharing a while can make someone smile!

What is your color of happiness? What is your color of Calm? Welcome to a Magical Journey of Discovery! During this voyage we learn of a powerful and helpful tool lying within each and every one of us. With Eden and Ethan's help, you will be able to unlock your very own super power and teach your children how this special ability can help them become empowered and independent. This super power has the potential to help our children make wiser choices and encourage them to think for themselves when those they rely on to help are not by their sides. Eden and Ethan are twins and best friends. They share almost everything, and are sure that this will always be so. One day, when the twins are five years old, they become aware that they are separate individuals with their own set of emotions and feelings, unique to themselves. For the first time ever, the twins set off on a wondrous journey of realization, with the understanding that they do not always see the world in quite the same way, and certainly not at the same time. Eden and Ethan discover that each emotion is represented by a different color for everyone. They found that by closing their eyes and coloring over negative feelings with a color that for them represents a positive emotion, they could actually make better decisions in their lives, and help their friends and family too. Now the twins need their parents help, and together, they all built a 'Wheel of Color' - full of names of different emotions inside the colors. For every person each feeling can be represented by a different color. The entire family decided that this new super power which they named 'rainbow power'. This most helpful, empowering tool is not only free, but it is always available in our minds at all times, just waiting to be unlocked. It can be called upon whenever needed and help almost everybody manage their emotions on their own. Visit the author's website debigueron.com and sign up for her newsletter. You will receive a free 32-page activity book that can be downloaded within seconds. Your children will be kept busy for hours and will learn the colors of their own emotions whilst having fun.
