The Way of the Living Sword is the final installment in D.E. Tarver's popular Warrior Series. It stands beside The Book of Five Rings by Miyamoto Musashi as one of the greatest writings of the warrior mind. In The Way of the Living Sword, Munenori gives an in-depth explanation of the connection between physical martial arts and the mental process of Zen. While Munenori and Musashi were both avid students of Zen, Munenori was more fascinated by the academic aspects of the

philosophy. Munenori stretches the consciousness of even the most enlightened martial artist. Martial arts devotees will experience many flashes of revelation as Tarver explores the various aspects of Munenori's approach. Read and grow! This excellent staff training book contains over 250 detailed jojutsu illustrations with introduction, biography, notes and insights. Legend has it that the Shinto Muso Ryu style of Jojutsu was founded after Muso Gonnosuke Katsuyoshi (17th century samurai) lost a duel. Katsuyoshi traveled on his masha shugyo to test what he had mastered in Tenshin Shoden Katori Shinto Ryu. He was unprepared for his loss to Miyamoto Musashi (1584-1645) who was an expert swordsman and ronin, credited with winning over 60 duels. After his loss, Katsuyoshi withdrew into seclusion, practicing swordsmanship and

performing purification rituals in an effort to perfect his technique. Fujita Seiko (1898-1966) was a Japanese martial artist and military instructor who many consider to be the last Koga Ninjutsu master. During the World War 2 he taught special training in the Army Academy of Nakano.

Matsumoto Yoshino written in 1892. This book looks specifically at Jujutsu based resuscitation methods that were used to treat injuries during training. The author seeks to expand their use to everyday accidents including drowning and hanging. Jujutsu Striking and Resuscitation Points Volume 1 by Fujimura Kinjiro written in 1895. In this interesting book Fujimura shows both the offensive and the restorative powers in Jujutsu. The Sakkatsu duality of taking life or giving it. How to Take Down People Armed With Knives and Walking Sticks With Jujutsu by Kimura Sentaro written in 1907. A book introducing a style of Jujutsu and walking stick fighting with brief abrupt instructions and amusing combat illustrations. The book may in fact be a parody of martial arts manuals that flourished around this time. Jujutsu Technique List of the

Shibukawa School.1793. This is a translation of a Mokuroku, or a list of techniques. The techniques are not described in their entirety, rather one clear drawing highlights an important aspect. These Mokuroku documents served both as a memory aid for those who have been training this school and also proof of qualification. The document gives a rare glimpse into Edo Era jujutsu training. This school was practiced by Sakamoto Ryoma.

Having been taught for almost 600 years, Tenshin Shoden Katori Shinto Ryu is one of the oldest Japanese martial arts. This is the first English translation of the book, which was originally published in Japan in 1941. With its many pictures and texts it presents the Tenshin Shoden Katori Shinto Ryu's basic techniques and kata with the sword (iai-jutsu, ken-jutsu),

This book also describes the relevance and the aim of budo and budo training methods to the reader, as well as the essential basics of budo (kamae, ma-ai, metsuke, zanshin, munen-muso, etc.). Additionally, it provides information on the origin and history of the Katori Shinto Ryu style, which was founded by Iizasa Choisai Ienao sensei (1387 - 1488). This book is complemented by historical and biographical texts written by Yoshio Sugino. Both the 20th Soke of the Katori Shinto Ryu Yasusada Iizasa sensei and Yukihiro Sugino sensei have also kindly provided a preface.

Miyamoto Musashi, who lived in Japan in the fifteenth century, was a renowned samurai warrior. He has become a martial arts icon, known not just as an undefeated dueler, but also as a master of battlefield strategy. Kenji Tokitsu turns a critical eye on Musashi's life and writings, separating fact from fiction, and giving a clear picture of the

man behind the myth. Musashi's best-known work, *The Book of Five Rings*, provides timeless insight into the nature of conflict. Tokitsu translates and provides extensive commentary on that popular work, as well as three other short texts on strategy that were written before it, and a longer, later work entitled "The Way to Be Followed Alone." Tokitsu is a thoughtful and informed guide, putting the historical and philosophical aspects of the text into context, and illuminating the etymological nuances of particular Japanese words and phrases. As a modern martial artist and a scholar, Tokitsu provides a view of Musashi's life and ideas that is accessible and relevant to today's readers and martial arts students.

WARRIOR ORIGINS is an account of the history and legends of the world's prominent martial arts and how they share a common heritage. It chronicles the origins of the Shaolin warrior monks, Shaolin Kung-Fu and their celebrated founder, Bodhidharma, who is also considered the first patriarch of Zen (Chan)

Buddhism. The book considers Bodhidharma's origins in the context of ancient Persia and its royal houses and continues with the rise of Karate from ancient Okinawan roots to Japan and then into a global sport. It connects the record of Ninja and Ninjutsu and the influence of some of its latter luminaries, including Seiko Fujita, whilst also revealing new evidence on renowned martial artists such as Bruce Lee. This work takes a dramatically original approach to the heart of the martial arts and their founders. Author Dr Hutan Ashrafian, who holds black belt grades in several martial art styles, including a 5th Dan in Okinawan Goju-Ryu Karate

and championship medals in Karate and Judo at World and European Masters level, delineates the inheritance of these arts using innovative evolutionary approaches to find previously unidentified links between them. Warrior Origins traces the pattern from Bodhidharma to the remarkable diversity of modern martial arts. The fierceness of the Japanese warrior and his fighting arts has fascinated Westerners since Europeans first came into contact with Japan more than 450 years ago. Jujutsu. Author Serge Mol-working almost exclusively from original Japanese source materials- vividly outlines the history of the close-quarter fighting methods that warriors developed not only to prove themselves on the battlefield and in daily life, but also to be constantly ready to defend their feudal lords. A great number of jujutsu styles and techniques-armed and unarmed-have existed over the centuries, and many of the classical weapon schools also instructed in the use of jujutsu. The Classical Fighting Arts of Japan expertly guides readers through the rise and development of many of the major schools. The classical martial arts as

For this reason, this definitive guide to koryu jujutsu will not only be invaluable to practitioners of traditional and modern jujutsu, but will be of great interest to enthusiasts of modern budo such as judo, aikido, kendo, and iaido. Mol explores the historical and cultural factors that helped shape jujutsu and the martial arts in general. He offers a detailed look at individual jujutsu ryuha, giving details on the school's history (where possible including illustrations of their founders and photos of ancient manuscripts). This book is richly illustrated with numerous photographs of rare

In April 1927 the master Jigoro Kano created an institute within the Kodokan to preserve the traditional martial arts of Japan. He set up a room for the study and research of Koryu Bujutsu and invited different masters of these ancient arts to put them at the service of Judo. Jigoro Kano fought tirelessly for Naginata, Bo, Yari, Katana and Aikijujutsu to be integrated into the usual practice of Judo Kodokan. representatives of Katori Shinyo Ryu, Daito ryu Aikijujutsu, Shinto Muso ryu, etc. Several times a month they met with Kano to show him their progress. After the Meiji restoration, Japanese society largely rejected traditional military arts, this situation worsened in the Taisho period with the increase in trade with the West and the assimilation of its customs. Given the rapid expansion of Judo as heir to Jujutsu, Kano realized the need to maintain and preserve other koryu as well. In this work we carry out the study of the creation of the Kobudo Kenkyukai and the most relevant members who

"Jodo Notebook" is a fully illustrated manual of the Basic techniques (Kihon) of Shindo Muso Ryu (SMR) and the Zen Nippon Kendo Renmei (ZNKR), and the 12 Kata of Seitei Jodo. It is an invaluable supplement to Jodo training to make learning easier and faster as well. Jodo (Japanese stick fighting) is taught either in Shindo Muso Ryu, or in the Zen Nippon Kendo Renmei under the name Seitei Jodo. Both systems share the same Basics (12 Kihon). The differences are in the Kata (12 in Seitei Jodo, and 64 in SMR), and the training with other weapons arts besides the Jo and the

Sword (Tachi) in Shindo Muso Ryu (in the 64 SMR Kata). The ZNKR Jodo organization is by far the largest international Jodo organization. Very few books are available on Jodo. Jodo is taught worldwide, but newer literature in English is hard to get. Most of the literature is in Japanese. The Notebook is made to fill this gap in literature. The author is co-writer with George W. Alexander of The Dictionary of Japanese Martial Arts, and illustrator of The Way of White Crane Karate, both from Yamazato Productions. Linking the time when karate was a strictly Okinawan art of self-defense shrouded in the deepest secrecy and the present day, when it has become a martial art practiced throughout the world, is Gichin Funakoshi, the "Father of Karate-do." Out of modesty, he was reluctant to write this

autobiography and did not do so until he was nearly ninety years of age. Trained in the Confucian classics, he was a schoolteacher early in life, but after decades of study under the foremost masters, he gave up his livelihood to devote the rest of his life to the propagation of the Way of Karate. Under his guidance, techniques and nomenclature were refined and modernized, the spiritual essence was brought to the fore, and karate evolved into a true martial art. Various forms of empty-hand techniques have been practiced in Okinawa for centuries, but due to the lack of historical records, fancy often masquerades as fact. In telling of his own famous teachers--and not only of their mastery of technique but of the way they acted in critical situations--the author reveals what true karate is. The stories he tells about himself are no less

fascinating period in feudal Japan and a portrait of the courageous, iconoclastic samurai who wrestled with philosophical and spiritual ideas that are as relevant today as they were in his time. For Musashi, the way of the martial arts was about mastery of the mind rather than simply technical prowess—and it is this path to mastery that is the core teaching in his Book of Five Rings. This volume includes supplemental material on Musashi's legacy as a martial arts icon, his impact on literature and film, and the influence of his Book of Five Rings.

Aiming to develop Bujutsu (martial arts) and Heiho (strategy) to the highest possible degree, the samurai devised a code consisting of over eighteen arts. A samurai should have impeccable manners and be an expert in martial arts, but he should never be a killer. His swords contained his soul, which he cultivated by learning poetry and art, and by practicing Zen meditation. The author is the world-famous Kobudo grandmaster. He knows all the Kobudo styles, and his teaching of arts such as Iaijutsu and Jujitsu fascinates many students around the world. In The Book of Five Rings, Musashi recorded his secrets to success which are applicable to martial arts and any modern situation involving confrontation. Until The Book of Five Rings, the many translations of his original work are written from an academic standpoint because the authors have little with the sword or martial arts. D.E. Tarver brings a lifetime of experience in sword training, martial arts and business to this version, and the result is a highly motivating and easy to understand book. Keiko Shokon is the third volume in a series that aims to demystify the rare and often misunderstood fighting arts of the Japanese warrior. Do these arts still have relevance in a modern technological world? How are they being preserved? What pitfalls face practitioners struggling to maintain these arts in a culture so foreign to that of their origins? These questions are discussed by a unique group of practitioner/writers in eight provocative essays certain to challenge many

cherished and widely held preconceptions. In Mikkyo—Japanese esoteric Buddhism—the dragon Kurikara symbolizes the internal energy developed through sword practice. Kurikara is a manifestation of the fierce bodhisattva Fudo Myo O, the patron of ascetics and warriors in Japan, who uses his sword to destroy delusions and sever attachments. Fudo's sword represents the gaining of discriminative power and decisiveness—the ability to cut through illusion and attachment. This leads to the development of an inner energy that allows one to “burn up” all obstacles to spiritual

freedom. Kurikara: The Sword and the Serpent sets out the eight basic principles of swordsmanship common to all Japanese sword schools, emphasizing the cultivation of power and mental focus. Accomplished martial artist John Evans provides practical examples from his experience with the sword arts as well as Mikkyo and shugendo (mountain asceticism). The first foreign student to train with Nakamura Taisaburo sensei—widely acknowledged as the master of the sword art battodo—Evans clearly explains how skill such as Nakamurua sensei's can be systematically developed through tanren, exercises that meld "inner"

and “outer” power. Filled with fascinating anecdotes from Evans’s training in Japan, Kurikara is a useful, inspiring guide to Japanese sword practice and its spiritual underpinnings.
