The Second Edition of Skills-Based Health Education provides pre-service and practicing teachers with the pedagogical foundation and tools to develop a comprehensive PreK-12 health education program using the National Health Education Standards. It takes each standard by grade span, provides scenarios based on research to explain the skill, and then provides a step-by-step approach to planning assessment and instruction. Early chapters connect skills-based health education to coordinated school health and the national initiatives of the Centers for Disease Control and Prevention, Healthy People 2020, The Whole Child, and 21st Century Skills. The remaining chapters provide guidance to plan implement, and assess performance tasks. Readers are shown how to establish student needs, select content and skill performance indicators to meet those needs, and plan and implement assessment and instructions.
