In Tear Drops through Heaven's Veil, author John L. Peoples combines a poignant narrative with powerful song selections to create a unique reading experience. While reading his new romantic and spiritual epic, listen to the playlist he provides, and let both the music and the words wash over you. Up in heaven, an angel weeps. Her name is Timberly, and she was once a mortal woman. In her previous life on earth, she fell deeply in love with the poet Bentley Maxwell. Now, separated from her lover, Timberly can't help but lament her loss. Her heavenly sisters try to console her, but her tears will not abate. On earth, Bentley remembers beautiful nights eating s'mores on the sand dunes with Timberly. Each of these recollections cuts him to the core. When he lost her, Bentley withdrew from his friends and society at large. Every new chance at a relationship felt like he was hurting Timberly. Bentley chases after new loves, but a shocking event will force him to reflect on his past and the love he shared with Timberly. In doing so, the poet discovers the inspiration needed to continue his life and honor Timberly's memory.

*NOIR is a two-part White Paper, written by Daniel L. Charney, M.D., a psychiatrist who had the unique experience of interviewing former FBI counterintelligence officer Robert Hanssen in jail, weekly, for approximately two hours per visit, for a year. Dr. Charney did the same with two other incarcerated insider spies: Earl Pitts (former FBI Special Agent revealed as a KGB spy), and Brian Regan (former Air Force/NRO). Dr. Charney's interest was to better understand the minds of spies for the sake of strengthening our national security. Over the eighteen years of his work with these cases, Dr. Charney developed a greater understanding of insider spy psychology and formulated new approaches and fresh proposals for better managing the problem of insider spies. Dr. Charney's first paper, "True Psychology of the Insider Spy," Part One of his two-part White Paper on insider spies, was published in late 2010 in the AFIO-Intelligence. This paper can be viewed on the NCIX (National Counterintelligence Executive) website. Most Insider Threat management initiatives have been technology driven. While clever and useful up to a point, they are subject to the Law of Diminishing Returns and can backfire by creating a negative, distrustful workplace atmosphere. A well-motivated insider can defeat nearly any technology-based system. They will always find a way. By contrast, Dr. Charney's NOIR proposals center on the minds of potential or current insider threats: their psychologies and their inner worlds. The battle must be won there. NOIR focuses on "classic" state-sponsored espionage. However, many of its points are applicable for dealing with Snowden-type threats. NOIR for USA is a 501(c)3 entity to educate the US Intelligence Community, other government components, including the Congress, the courts, responsible journalists, and the general public, about the NOIR concepts and proposals. Dr. Charney and his colleagues at NOIR for USA would appreciate any comments, criticisms, or additional thoughts you may have about NOIR concepts and proposals: Contact@NOIR4USA.org*

*"Do you realize that in the year that we've known each other, we've never argued?" It was that initial insight that led Phil and Maude to explore their relationship and write this book. Written in a combination of their individual voices and a blended voice, this concentrated and powerful little work captures the essence of how they are together, going right to the heart of what makes a successful relationship. Their clear, crystalline writing and stark honesty will challenge you to examine your own life and how you relate to others. The approach is radically different from the usual relationship book. Phil and Maude offer no ruses and no exercises. Rather, through their sincere examination of what makes their relationship so different, you will find yourself gaining insight into your own behavior and at the same time glimpse other possibilities. For anyone in a relationship, or seeking to be in one, this special gem is a must read.*

A complete documentary archive of Abraham Lincoln's writings, from historic speeches to personal letters and telegrams. From the man who led the nation through the Civil War and its Reconstruction, Lincoln's written statements—including the Emancipation Proclamation and the Gettysburg Address—are some of the most significant documents in American history. Included with these works are telegrams to politicians and wartime generalis as well as personal letters discussing a range of topics, from youth and marriage to depression. This extensive collection is not only an excellent documentary history of America's greatest trial as a nation, but also an opportunity to enjoy the intellect and wit of one of America's greatest orators. "He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and risk his life to prevent the destruction of mankind. Born into the naive innocence of ancient man, Draig is a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees." And when time comes, will Draig be willing to lay down his life for the sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.

Alphabet Tracing, Letters A-Z, provides extensive focus on alphabet tracing and printed letter formation for the preschool and kindergarten beginning writer. The full-page format focuses on one alphabet at a time, which allows additional alphabet tracing practice for the beginning writer. This children's handwriting workbook has a minimum of 30 opportunities to trace each alphabet before free-writing practice pages are presented. Once a student has adequately mastered tracing each alphabet they may then move on to the next section or skip around to other alphabets as comfortable. Daily penmanship practice will help increase your student's ability to: -Print uppercase and lowercase letters of the alphabet and recognize the difference between the two. -Write from left to right and top to bottom of page. -Recognize spacing between printed alphabet letters and eventually words. -Understand the concept of writing letters. -Write words and brief sentences that are legible. -Write his/her own first and last name and other important words. Some neurologists advocate writing to learn. One states, "The practice of writing can enhance the brain's intake, processing, retaining, and retrieving of information. Through writing, students can increase their comfort with and success in understanding complex material, unfamiliar concepts, and subject-specific vocabulary." Preschool and kindergarten is the perfect time to prepare for alphabet tracing and handwriting practice since preschool, kindergarten and 1st grade students do not have to prepare for assessments. Focus can instead be placed on their literacy development. Reading to children and talking to them directly can be huge. Parents can start conversations-helping to build verbal vocabulary, write a grocery list together-helping to practice handwriting skills, and select books together at the library-allowing students to enjoy the usefulness of the printed word. Another way to raise their awareness of language in their environment is to point to street signs, billboards, traffic signs, and menus in restaurants-saying the whole word and/or pointing to each individual alphabet while saying calling out each letter. This alphabet tracing workbook for preschool, kindergarten, and 1st grade is a perfect companion to online and computerized alphabet software to teach kids alphabet recognition. It can be used on short and long car rides. Getting students used to using paper workbooks will give them a distinct advantage over students who have only used wipe clean alphabet books and computerized alphabet software-this alphabet tracing book is similar to the writing, social studies, and language arts workbooks students will use in their classrooms.
