TERRAINS OF CONSCIOUSNESS emerges from an Indian-German-Swiss research collaboration. The book makes a case for a phenomenology of globalization that pays attention to locally situated socioeconomic terrains, everyday practices, and cultures of knowledge. This is exemplified in relation to three topics: - the tension between 'terrain' and 'territory' in Defoe's 'Robinson Crusoe' as a pioneering work of the globalist mentality (chapter 1) - the relationship between established

She's perplexed by the invitation, but intrigued. The dinner takes place at Burns House itself, a tiny cottage not far from the Cracked Spine bookshop but well hidden. There, it becomes clear that Delaney and Hamlet were summoned in an attempt to make amends between Edwin, Delaney's boss, and one of the other invitees, who suspected Edwin for burning down his own bookshop twenty years ago after a professional disagreement. But after the dinner, there's another fire. The Burns House itself is burned to the ground, and this time there's a body among the ruins. When Hamlet is accused of the crime, Delaney rushes to prove his innocence, only to discover that he might actually have a

Near to one billion people call slums their home, making it a reasonable claim to describe our world as a 'planet of slums.' But how has this hard and unyielding way of life been depicted on screen? How have filmmakers engaged historically and across the globe with the social conditions of what is often perceived as the world's most miserable habitats? Combining approaches from cultural, globalisation and film studies, Igor Krstic outlines a

transnational history of films that either document or fictionalise the favelas, shantytowns, barrios poulares or chawls of our 'planet of slums', exploring the way accelerated urbanisation has intersected with an increasingly interconnected global film culture. From Jacob Riis' *How The Other Half Lives* (1890) to Danny Boyle's *Slumdog Millionaire* (2008), the volume provides a number of close readings of films from different historical periods and regions to outline how contemporary film and media practices relate to their past predecessors, demonstrating the way various filmmakers, both north and south of the

'Slumdog Millionaire' is the story of a young boy from the streets of Mumbai who wins the popular quiz show 'Who Wants to be a Millionaire'. The Return of Sherlock Holmes

This book is about the contemporary picaresque novel. Despite its popularity, the picaresque, unlike the bildungsroman, is still an undertheorized genre, especially for the context of postcolonial literatures. This study considers the picaresque novel's traditional focus on poverty and deprivation, and argues that its postcolonial versions urge us to conceive of as a more wide-ranging sense of precarity and precariousness. Non-linear

Download File PDF Slumdog Millionaire Vikas Swarup Macmillan

biography, episodic style, protean identities, unreliable narratives, and abject landscapes are the social and formal aspects through which this precarity is thematized and performed. A concise analysis of these concepts and phenomena in the picaresque provides the structure for this book. What is especially significant in comparison to other forms of postcolonial (post)modernism is that the picaresque does not offer a general critique of a project of modernity, but through its persistent precarity points to the paradoxical logics of capitalism, which are especially nuanced under the conditions of neo-imperialism and neoliberalism. The book features texts by established

postcolonial authors such as Salman Rushdie and V.S. Naipaul, but especially focuses on the more recent proliferation of the genre in works by Aravind Adiga, Mohsin Hamid and Indra Sinha.

The new edition of this established core textbook continues to give an insightful, authoritative and accessible overview of competing theoretical positions on the sociological study of childhood. The book explores the ways these theories inform key themes, including education, work, identity and agency. The study of childhood has taken on an increasingly global focus in recent years, honing in on how issues of rights, protection and development shape the lives of children and those around them at political, social and institutional levels across the world. As a result, this book guides students through the theories and research on childhood in both

local and global contexts. Author Michael Wyness clearly illustrates how a study of childhood can inform sociological thinking on social crises, changes and problems such as globalisation, criminality and disruption of the social order. Written for students exploring childhood from a sociological perspective, this is the essential introduction to the topic. New to this Edition: - A broadened global focus throughout every chapter, including more on the developing world. - A revised chapter on researching children and childhood. - An updated critical appraisal of children's rights, as well as new data on child protection and schooling. - The

The book contains a selection of papers focusing on the idea of crossing boundaries in literary and cultural texts composed in English. The authors come from different methodological schools and analyse texts coming from different periods and cultures, trying to find common ground (the theme of the volume) between the apparently generically and temporarily varied works and phenomena. In this way, a plethora of perspectives is offered,

perspectives which represent a high standard both in terms of theoretical reflection and in-depth analysis of selected texts. Consequently, the volume is addressed to a wide scope of both scholars and students working in the field of English and American literary and cultural studies; furthermore, it will be of interest also to students interested in theoretical issues linked with investigations into literature and culture. Set in a world that reflects post-Vedic India, Vikraal takes up where Jaal, the first book of the Kaal Trilogy, ends.
