*Why does my child seem to worry so much? Being the parent of a smart child is great—until your son or daughter starts asking whether global warming is real, if you are going to die, and what will happen if they don't get into college. Kids who are advanced intellectually often let their imaginations run wild and experience fears beyond their years. So what can you do to help? In Why Smart Kids Worry, Allison Edwards guides you through the mental and emotional process of where your child's fears come from and why they are so hard to move past. Edwards focuses on how to parent a child who is both smart and anxious and brings her years of experience as a therapist to give you the answers to questions such as: •How do smart kids think differently? •Should I let my child watch the nightly news on TV? •How do I answer questions about terrorists, hurricanes, and other scary subjects? Edwards's fifteen specially designed tools for helping smart kids manage their fears will help you and your child work together to help him or her to become more relaxed and worry-free.*

*Discover the mysteries of science with Future Geniuses! Join Valentina, the little scientist, and her cat, Plank, as they learn why Plank can never seem to catch the laser he loves to play with. To do this, they must shrink down to the smallest size imaginable. Once they're tiny, they can better learn about quantum physics, discovering secrets that are invisible to those of us who are full sized! Valentina teaches Plank all about molecules, atoms, particles, photons, and matter... as well as solids, liquids, and gasses—and fusion and fission! Future Geniuses is a collection that will help families spend time reading and learning together. Through simple text and fun illustrations, author and scientist Carlos Pazos makes the subjects of quantum physics approachable and easy to understand for even the smallest scientists.*

**WINNER! Mom's Choice Gold Award for parenting books - Mom's Choice Awards: The best in family-friendly media "My kid is smart, but..." It takes more than school smarts to create a fulfilling life. In fact, many bright children face special challenges: Some are driven by perfectionism; Some are afraid of effort, because they're used to instant success; Some routinely butt heads with authority figures; Some struggle to get along with their peers; Some are outwardly successful but just don't feel good about themselves. This practical and compassionate book explains the reasons behind these struggles and offers parents do-able strategies to help children cope with feelings, embrace learning, and build satisfying relationships. Drawing from research as well as the authors' clinical experience, it focuses on the essential skills children need to make the most of their abilities and become capable, confident, and caring people.**

**Lupe Lupala, El Chavo Flapjack, and Elirio Malaria love working with cars. You name it, they can fix it. But the team's favorite cars of all are lowriders—cars that hip and hop, dip and drop, go low and slow, bajito y suaveito. The stars align when a contest for the best car around offers a prize of a trunkful of cash—just what the team needs to open their own shop! ¡Ay chihuahua! What will it take to transform a junker into the best car in the universe? Striking, unparalleled art from debut illustrator Raul the Third recalls ballpoint-pen-and-Sharpie desk-drawn doodles, while the story is sketched with Spanish, inked with science facts, and colored with true friendship. With a glossary at the back to provide definitions for Spanish and science terms, this delightful book will educate and entertain in equal measure.**
