Nicomachean Ethics Aristotle - The Nicomachean Ethics is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called “the Philosopher.” Drawing on their intimate knowledge of Aristotle’s thought, Robert C. Bartlett and Susan D. Collins have produced here an English-language translation of the Ethics that is as remarkably faithful to the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle’s Ethics in his political philosophy as a whole. The Nicomachean Ethics has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval, and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation.

He even manages to kill his first customer and remain free to tell the tale! In Praise of Truly Blogged! "You are truly a talented writer. It was as though I was observing from above." JB "Truly Blogged is a riot. Don't get tired of me saying this, but I love the way you write such interesting and very funny stories." DR "The web site is amazing! "If you believe that the broad aim of clinical instruction is about teaching medical procedures, you're wrong. Whether an attending, a faculty member, or a another type of clinical instructor, believing this can hinder the learning process." Even though UMI published the first edition nearly two decades ago, Gary DePaul's research findings and implications are even more relevant today. From interviews with family-practice specialists from the Carle Clinic Association, Dr. DePaul discovered certain training techniques to be more effective at building specialty-interest area expertise while responsibly protecting patient safety and care. In addition, he discovered how a three-way, interlocking dilemma influences how specialists develop their specialty-interest area. New in the second edition: - Preface and Introduction to the second edition - New chapter structure - Content improvements to readability and corrections - Glossary of terms

The manual provides a rationale for chaplaincy by using Winnifred Sullivan's three categories of religious secularism, irreligious secularism, and areligious secularism to outline the essential and transforming value of spiritual care services (preface, introduction). The manual provides a history of justice initiatives and chaplaincy services in a Canadian context (chapters one and two). The manual provides a rationale for spiritual care-giver training by showing how chaplaincy courses at a university level can build on the competencies of leadership and core knowledge that many ministers, rabbis, imams, priests, nuns, and other faith group representatives have. Emotional intelligence, professional practice skills, and diversity are additional competencies needed for spiritual care-givers to become effective prison chaplains (chapters three to six). Six principles shape the content of this book: (1) integration of chaplaincy into corrections (chapters three to six) (2) understanding of chaplaincy dynamics (chapters seven to ten), (3) complementary use of sociology and psychology (chapters eleven to fourteen), (4) provision of faith formation, rites and rituals, programs, pastoral care, and a ministry of presence (chapters fifteen to eighteen), (5) ecumenical and multi-faith religious accommodation (chapters nineteen to twenty-one) and (6) professional development (chapters twenty-four and twenty-five). The manual concludes with a statement of best practices by Dr. Thomas Beckner, long-time chaplaincy educator (Correctional Chaplains: Keepers of the Cloak, p. 24). "Chaplains are to have highly polished counselling skills, strong management and facilitation abilities, a working knowledge of various faith group requirements . . . and a strong commitment to serve all residents of the institution regardless of their faith identity or lack thereof."

The Taking Action Guide to Building Coherence in Schools, Districts, and Systems

Alcohol, Other Drugs, and Addictions

When Rebecca Weller ' s pounding, dehydrated head woke her at 3am, yet again, she stared at the ceiling, wondering why the hell she kept doing this to herself. At 39 years of age -- and a Health Coach, no less -- she knew better than to down several bottles of wine per week. Her increasingly dysfunctional relationship with alcohol had to stop, but after decades of social drinking, she was terrified of what that might mean. How could she live a joyful existence, without alcohol? How would she relax, socialise, or celebrate -- without wine? In sheer frustration, on a morning filled with regret and tears, she embarks on a 3-month sobriety experiment that becomes a quest for self-discovery, and ultimately, transforms her entire world. A Happier Hour is a heartfelt, moving, and inspiring story for anyone who has ever had to give up something they loved in order to get what they truly wanted.
