In this, the first of six novellas, we join typical jock Teddy, dumb blonde Jenny, tough as nails Laurie, angry at life George, your usual cliches, as they take a road trip to, "The Edge". A massive fictional woodland much like "The Pennsylvania Wilds". What will cause these twenty-somethings to meet the murderous Moseley family of deviants and bloody-thirsty psychos? Who will survive the massacre that will surely ensue? Read at your own risk and find out the answers to these questions with this novella from Rotting Horse Publishing.

"In this absolutely unprecedented and beautifully produced coffee-table volume, best-selling music writer Paul Grushkin draws on top museum collections and private archives, renowned photographers,

lauded poster artists, and record labels to illustrate the remarkable 70-year synergy between music and motoring. The narrative comprises scores of first-person interviews with prominent figures and explores common themes that have been addressed in vehicle-related songs - as symbols of freedom, vehicles as status symbols, as courting tools, as utilitarian work conveyances, as metaphors (when Reverend Horton Heat sings about his "Big Red Rocket of Love," he's not just talking about his shoebox Ford), and vehicles simply as vehicles. Illustrated with images of musicians, bands, vehicles, album and poster art, and collectibles, the book draws direct lineages juxtaposing artists that may have previously seemed disparate. Also included are music's car-related lore and tragedies, like Gene Vincent's motorcycle accident that spurred his spiral into alcoholism; Hank Williams' death in the backseat of his Cadillac; the death of So-

This classic text by Geneva Smitherman, pioneering scholar of Black Talk, is a definitive statement on African American Language (AAL). Enriched by her inimitable writing style, the book outlines past debates on the speech of African Americans and provides a vision for the future. As global manifestations of AAL increase, she argues that we must

broaden our conception of the language and its speakers, and further examine the implications of gender, age and class on AAL. Perhaps most of all we must appreciate the "artistic and linguistic genius" of AAL, from Hip Hop lyrics to the rhyme and rhetoric of the broader Black speech community. Smitherman explores AAL's contribution to American English, includes a summary of expressions as a suggested linguistic core of AAL, and features cartoons that educate readers on the broader relationship between language, race, and racism. This classic edition features a new foreword by H. Samy Alim, celebrating Smitherman's continuing impact on Black Language scholarship and her influence on the future of the field. "Raw, authoritative, and unflinching ... An elaborately detailed, darkly surprising, definitive history of the LA gangsta rap era." -- Kirkus, starred review A monumental, revealing narrative history about the legendary group of artists at the forefront of West Coast hip-hop: Eazy-E, Dr. Dre, Ice Cube, Snoop Dogg, and Tupac Shakur. Amid rising gang violence, the crack epidemic, and police brutality, a group of unlikely voices cut through the chaos of late 1980s Los Angeles: N.W.A. Led by a drug dealer, a glammed-up

producer, and a high school kid, N.W.A gave voice to disenfranchised African Americans across the country. And they quickly redefined pop culture across the world. Their names remain as popular as ever -- Eazy-E, Dr. Dre, and Ice Cube. Dre soon joined forces with Suge Knight to create the combustible Death Row Records, which in turn transformed Snoop Dogg and Tupac Shakur into superstars. Ben Westhoff explores how this group of artists shifted the balance of hip-hop from New York to Los Angeles. He shows how N.W.A.'s shocking success lead to rivalries between members, record labels, and eventually a war between East Coast and West Coast factions. In the process, hip-hop burst into mainstream America at a time of immense social change, and became the

most dominant musical movement of the last thirty years. At gangsta rap's peak, two of its biggest names -- Tupac and Biggie Smalls -- were murdered, leaving the surviving artists to forge peace before the genre annihilated itself. Part murder mystery and all jet-black satire, and based on a real life scandal, this edgy novella tells the story of Leopold Sfax, world-renowned as the creator of "The Theory" a bizarre literary theory that grew from an intellectual folly to a dominant school of criticism that enslaved college campuses across the country.

However, The Theory, which holds that the text of any piece of writing tells us all that we need to know about its author (as if the author himself is "dead") takes on extra perversity when the revered or is it feared? Sfax is found to have once written something that seems...well, murderously revealing. In the hands of Gilbert Adair, it's a dexterously wrought and hysterically
