*For puzzlers who just can't get enough, here's a collection to last from January to December in a compact trade paperback format.*

*Are you interested in learning more about soap making? Are you interested in making your own soap or starting your own soap making business, this A-Z guide will show you what you need to do, the resources you will need, and how to be successful in soap making*

*Do you know what is the advantage of natural handmade soaps and why more and more people create organic handmade soap at home with their own hands? First of all, it is a creative product, with a piece of your heart and soul. Soap crafting is an occupation for your soul and it brings joy and pleasure for those people who are engaged in this process. Soap produced in large volumes, in chemical industries, cleans so well, that it washes, along with dust and dirt, all the protective oils from our skin. And we end up with dry, prematurely aging skin. Our book with handmade soap recipes will teach you how to create the best handmade soap - a soap that contains natural oils and organic additives - honey, oats, calendula flowers, chocolate and more. Homemade soap is enriched with oils such as olive, sea buckthorn, peach, wheat germ oil and many more oils that have a moisturizing, rejuvenating and anti-*

*cellulite effect. Easy natural homemade soap is a great and original gift, which hardly anyone could remain indifferent about. Natural ingredients, the basis of which skin handmade soap is created, have a beneficial effect on the skin. Natural handmade soap is devoid of drawbacks. Cleansing the skin with organic soap, you can get rid of peeling and dryness. By experimenting with different oils, you can create a soap that is suitable for your skin. Scrub effect, moisturizing effect, vitaminizing effect, anti-cellulite effect-all this is achieved by simply adding an ingredient. The aesthetic side is also important. With our recipes for homemade soap, you will find out how to create any shape: heart, flower, oval, car and so on. In addition, mixing colored masses, adding dry flower petals, using other methods of decoration, you can create a truly unique soap that will delight others and will be a real decoration of your bathroom. Homemade soap can be a powerful means of aromatherapy, because it often includes natural essential oils. Now it will not be difficult to create a soap with your favorite smell. Vanilla and lavender, Lily of the valley and lilac - the smell of soap made with your own hands, will be totally unlike the "chemical" smells of soap made industrially. So once again the advantages of natural handmade soap include: 1. Clear skin; 2. Hydration and nutrition, thanks to natural oils; 3. Aromatherapy while using soap; 4. Aesthetic pleasure; 5. Making your own choices in creating handmade soap, you are able to choose an eco-friendly product. *Did you know that most commercially produced face and body soaps contain ingredients that are known to be toxic to humans? Some of these cause irritation and superficial damage to sensitive skin. Others cause permanent and lasting repercussions, like: \* Dioxane - synthetically derived from coconuts which has been linked to the increase of carcinogens or cancer-producing cells\* Formaldehyde - a preservative that compromises the immune system, and is linked with chronic fatigue, headaches/migraines, and respiratory ailments\* NDEA or Nitrosodiethanolamine - is a potent carcinogenic, which*

*afflicts kidneys and livers\* Parabens - are also preservatives, and have been linked to the increase of breast cancer in women and ED or erectile dysfunction in men\* PEG-6 - has been linked with breast and ovarian cancer\* SLS or sodium laurel sulfate - used as a lathering agent commonly found in shower gels and liquid soaps, also triggers the growth of carcinogens\* Triclosan - is often used as an antibacterial agent, but this is a potent pesticide* Fortunately, making your own bath soaps at home can be as easy as: buying a few ingredients, pouring measured portions out into a bottle, and mixing these for 30 seconds. Homemade soaps are budget-friendly especially if you make large batches. Many oil-based ones can be stored for up to 12 months, making these ideal gifts to family and friends, or as a small-scale business venture. Best of all, you have full control over the ingredients. You can mix in scent and moisturizers you like, and forego harmful substances normally found in commercial products. This book contains information on how you can make body or facial washes in the comfort of your own home. With 365 easy-to-follow soap-making recipes, you can make your own skin cleansers that are organic, milder on your skin, and environmentally-safe. This story takes place in Vietnam, in 1971, as American warplanes were still raining bombs down on the NVA military sanctuaries inside Cambodia. The war was in full swing and America was giving helicopter assistance in support of South Vietnamese operations near Snoul Cambodia. The military operations, launched to cut off enemy infiltrations and supply lines on the Long Mountain Trail, sixty miles west of Saigon was tragic as it turned to disaster. This is the chain of events leading up to that disaster on Vietnam's Western Military Border. Written and recounted by Dan Sutherland.

Or maybe you're already doing it, but outmoded ideas and methods are complicating the process and slowing you down. No matter which of these fits you, you'll find "Smart Soapmaking" practical, helpful, and refreshing. Written by a former professional soapmaker, this book explodes the myths about soapmaking and shows you how to make luxurious soap from scratch with the least fuss and bother. With both customary and metric measurements, plus a list of suppliers in five countries, "Smart Soapmaking" is the first truly international book on the craft!

//////////////////////////////////// Anne L. Watson is the first author to have introduced modern techniques of home soapmaking and lotionmaking to book readers. She has made soap under the company

name Soap Tree, and before her retirement from professional life, she was a historic preservation architecture consultant. Anne and her husband, Aaron Shepard, live in Friday Harbor, Washington.

////////////////////////////////////// \*\*\*\*\*RECOMMENDED BY THE HANDCRAFTED SOAP & COSMETIC GUILD\*\*\*\*\* "Should become THE book for soapmaking. . . . It's about time someone wrote a book like this. Most are idealistic and inaccurate. This book has a wonderful common sense approach that is SO long overdue. . . . I can recommend it with 100% confidence." -- Susan Kennedy, Oregon Trail Soaps, Rogue River, Oregon "Smart it is . . . . A simple, no-nonsense book that cuts through the curmudgery of stifling soap bibles like no other." -- Shellie Humphries, Harstine Island, Washington "Way overdue. . . . A gift of common sense caution, proven methods, tried-and-true shortcuts, and some excellent recipes as well, for both the professional/experienced soapmaker and the eager beginner." -- Deb Petersen, Shepherd's Soap Co., Shelton, Washington "A great book for beginners, with clear and easy instructions." -- Anne-Marie Faiola, Bramble Berry Inc., Bellingham, Washington "I learned more from Smart Soapmaking than from any other soaping book, and I have read

quite a few. . . . It's written with the average person in mind, not a chemistry major. Directions are very simple and easy to understand. It really takes the mystery out of making soap." -- Jackie Pack, Stuart, Virginia "Groundbreaking . . . . Anne L. Watson [is the] universally respected and loved author/crafter/curator of this lost art for thousands of aspiring soapers . . . . Unquestionably the best book with which to begin. To be precise, it's probably the most accessible, most reader-friendly, and most immediately useful container of information a first-time soapmaker could hope to find." -- Wishing Willow (blog)

With commentary by the noted food historian Joan Reardon, and covering topics as diverse as the lack of good wine in the United States, McCarthyism, and sexual mores, these astonishing letters show America on the verge of political, social, and gastronomic transformation.*

*Craft of Handmade Soap* was written and produced out of love for making homemade soaps. It traces back the history of soap, from the legend of soap in Mount Sapo to the rise of today's commercially-made soap. However, the book's contents are devoted towards educating a new soap-maker and filling information for the seasoned one. *The Art and Craft of Handmade soap* details the use of different soap making processes - pour-and-melt, hot processes and cold processes, along with each process' strength and weaknesses.

*This is the first book published with recipes, methodology and tips on how to make Melt and Pour Soap from Scratch. It is written from the perspective of a Cosmetic Formulator on the production of the popular cosmetic base known as, Melt and Pour Soap. Whether you are a crafter, hobbyist or business owner this book has everything that you need. This book give you guidance on how, as a small home based*

*business, you can follow the regulations, labeling laws and industry standards for selling soap and cosmetics. My entire journey into the cosmetic industry started with Melt and Pour Soap shortly after I discovered aromatherapy. The roots of our business, Essential Wholesale, all started in December of 1998. Over the years we moved from our home kitchenette to a 600 square foot space, to a 2500 square foot building, to a 10,000 square foot space in a bigger building, and from there we have expanded into 30,000 square feet of that same building. In 2011 our business will be moving to an even larger 58,000 square foot building. As our business expanded we began to focus on natural cosmetics and personal care products. However, I never lost my curiosity and fascination with Melt and Pour Soap. Our relationship with Melt and Pour Soap changed over the years. At first we sold retail customized Melt and Pour Soaps. We then bought and sold the company Critter Soaps. Later we sold thousands of pounds worth of wholesale Melt and Pour Soap base and eventually discontinued selling Melt and Pour Soap because*

*the price kept rising. At the time Melt and Pour Soap was the only cosmetic base we sold that we didn't manufacture ourselves. It simply didn't make sense to wholesale someone else's base when our business model had changed to selling only the bases we manufactured ourselves. It was at this point in our business that I decided it was time to formulate our own Melt and Pour Soap ourselves. It didn't take long to have working formulas, but at that moment we were using up every inch of space in our 30,000 square foot building. We were bursting at the seams and couldn't accommodate the manufacturing and cooling of the Melt and Pour Soap Base in bulk. Our space was so tight we couldn't possibly cool an 8,000 lb batch of Melt and Pour Soap base into multiple 1 lb, 20 lb and 40 lb blocks to sell in bulk. But we got continued requests to manufacture and sell Melt and Pour Soap base. My solution is this book. I decided to share these basic recipes with you to give you the freedom to make your own Melt and Pour base in the quantities that work best for your business. These recipes will teach you*

*the foundational information that you need and give you tips on how to customize your base.*
