Social Work Macro Practice focuses on work with organizations and communities, including planned change approaches and implementation. This new edition of Social Work Macro Practice has been updated and revised to make it an even stronger and more user-friendly text. The authors have designed the book to mesh well with a variety of contemporary policy texts.

Religion, Welfare, and Social Service Provision: Common Ground delves deeply into the partnerships forged between religious communities, government agencies and nonprofits to deliver social services to the needy. These pages offer a considered examination of how local faith entities have served those in their midst, and how the provision of those services has been impacted by evolving social policies. This foundational volume brings together the work of more than two dozen leading researchers, each providing long overdue scholarly inquiry into religiously affiliated helping and the many possibilities that it holds for effective cooperation. Originally published in 1980, this seminal work was the first to introduce an ecological perspective into social work practice. Since then, both the National Association of Social Workers and the Council of Social Work Education have adopted similar positions: the social work profession is distinct from

Read Online Social Work Macro Practice Netting 5th Edition

other service professions because it is situated within a people/environment interface that changes and shapes the character of each. New to this edition is an examination of major changes in our socioeconomic and political landscape, including the threat of terrorism, international trade agreements, and the conservative revolution; a discussion of new developments in ethics and standards of practice; additional information on community structures and legislative processes; and a restored chapter on the history of social work practice, covering such trends as managed care, empirically and evidence-based practice, resilience, empowerment, strength-based and feminist practice, and a push.

Management and leadership are increasingly important within the organisation and delivery of social care services and now form part of the post qualification framework for social workers. Yet, whilst there is a relatively broad understanding of management concepts and their application in social care, their foundations often go unchallenged both by students and managers. Furthermore, leadership is open to a wide range of interpretations and is often ill-defined with the expectation that we share a common understanding of the term. This text promotes an appreciation of the development of management and leadership thinking and the different themes which inform current ideas. It considers these topics from a range of theoretical standpoints in order to stimulate readers to consider their own experience and expectations of

Read Online Social Work Macro Practice Netting 5th Edition

management and leadership. It then demonstrates how these standpoints might promote innovative approaches to management and leadership within social care organisations and ways in which such organisations might then develop. The aim of this challenging text is to encourage critical and informed reflection on current practice. Social Work Management and Leadership is essential reading for students of management and leadership in social care as well as being an invaluable resource for managers who simply wish to consider new approaches to their practice.

Part of the Brooks/Cole Empowerment Series, this ninth edition integrates the core competencies and practice behaviors outlined in the 2008 Educational Policy and Accreditation Standards (EPAS) set by the Council on Social Work Education (CSWE). This classic text helps students recognize ethical issues and dilemmas, reason carefully about ethical issues, clarify their ethical aspirations at the level demanded by the profession, and achieve a more ethical stance in their practice. It places ethical decision making within the context of professional ethics and provides useful guidelines, including two ethical screens to help social work practitioners identify priorities among competing ethical obligations. Developed specifically for social workers, it features numerous case-like exemplars based on real-world practice, drawn from a variety of social work settings. This comprehensive and uniquely focused text is equally effective as a core resource for social work ethics courses, or as a valuable supplement within introductory, practice, or practicum courses. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Dorothy N. Gamble and Marie Weil differentiate among a range of intervention methods to provide a comprehensive and effective guide to working with communities. Presenting

Read Online Social Work Macro Practice Netting 5th Edition

eight distinct models grounded in current practice and targeted toward specific goals, Gamble and Weil take an unusually inclusive step, combining their own extensive experience with numerous case and practice examples from talented practitioners in international and domestic settings. The authors open with a discussion of the theories for community work and the values of social justice and human rights, concerns that have guided the work of activists from Jane Addams and Martin Luther King Jr. to Cesar Chavez, Wangari Maathai, and Vandana Shiva. They survey the concepts, knowledge, and perspectives influencing community practice and evaluation strategies. Descriptions of eight practice models follow, incorporating real-life case examples from many parts of the world and demonstrating multiple applications for each model as well as the primary roles, competencies, and skills used by the practitioner. Complexities and variations encourage readers to determine, through comparative analysis, which model at which time best fits the goals of a community group or organization, given the context, culture, social, economic, and environmental issues and opportunities for change. An accompanying workbook stressing empowerment strategies and skills development is also available from Columbia University Press.

A solid, theory-to-practice guide to contemporary mezzo and macro social work. Written by a renowned team of scholars, *Social Work Practice with Groups, Communities, and Organizations* focuses on the contemporary theory and practice of social work. Each chapter delves deeply into the key theoretical considerations surrounding a particular practice area, exploring the clinical implications of each. Spanning the full range of both mezzo and macro practice areas, the authors thoroughly look at the assessment of and interventions with group, community, organizational, and

Read Online Social Work Macro Practice Netting 5th Edition

institutional settings. The most authoritative book in this field, *Social Work Practice with Groups, Communities, and Organizations* features: A focus on evidence-based approaches to assessment and intervention for each practice area discussed Comprehensive coverage of the most important new and emerging practice technologies in mezzo and macro social work Current and emerging demographic, social, political, and economic trends affecting mezzo and macro practice An array of pedagogical aids, including Key Terms, Review Questions for Critical Thinking, and Online Resources Content closely aligned with social work accreditation standards (EPAS) Providing a solid review of the entire scope of contemporary mezzo and macro social work practice, *Social Work Practice with Groups, Communities, and Organizations* is both an indispensable educational text for students and a valuable working resource for practitioners who work with groups, communities, and organizations of all sizes.

This book describes an advanced generalist approach to direct social work practice with individuals, couples, families, and groups. Intervention paradigms that include psychodynamic, cognitive/behavioral/communications, experiential/humanistic, existential and transpersonal are presented as the four sources of social work. The Third Edition of Cases in Macro Social Work Practice provides relevant, contemporary, macro practice case scenarios that reflect practice dilemmas and challenges typically experienced by social workers in organizational, community, and policy practice areas. It emphasizes the change process in both domestic and international settings by using a theoretical and practice perspective, and follows the outline of the Fourth Edition of Social Work Macro Practice--written by F. Ellen Netting, Peter Kettner, and Steven McMurtry. Please Note: Cases in Macro Social

Grounded Theory (GT) is one of the oldest and most often used forms of qualitative research. Unlike other methods, *GT* is used to develop theory. *Grounded Theory* has great potential for social work because in order to conduct theory-based practice, social workers need middle-range theories that are neither highly abstract nor difficult to apply in real life. *Social work and Grounded Theory* focus on the interaction of individual and society. *GT* studies can provide theories about how individuals navigate their surroundings that can be tested in social work practice and, ultimately, be used to guide social work practitioners. In this volume, readers will find discussions of the common roots of social work and *Grounded Theory*, the basic characteristics of grounded theory research, and issues of quality in grounded theory research. In addition, practical guidelines and suggestions are provided for conducting grounded theory research, from writing the proposal to advanced data analysis. Exemplars from social work literature are used to illustrate grounded theory research in different social work fields. With practice exercises, guidelines for formulating problems and gathering and analyzing data, tips for working with software, consideration of ethical and Institutional Review Board issues, and discussion of new developments such as mixed-method and synthesis, this pocket guide offers social work researchers a

strong, practical introduction to GT research.

by F Ellen Netting, Isbn*

Community economic development (CED) is an increasingly essential factor in the revitalization of low- to moderate-income communities. This cutting-edge text explores the intersection of CED and social work practice, which both focus on the well-being of indigent communities and the empowerment of individuals and the communities in which they live. This unique textbook emphasizes a holistic approach to community building that combines business and real-estate development with a focus on stimulating family self-reliance and community empowerment. The result is an innovative approach to rehabilitating communities in decline while preserving resident demographics. The authors delve deep into the social, political, human, and financial capital involved in effecting change and how race and regional issues can complicate approaches and outcomes.

Throughout, they integrate case examples to illustrate their strategies and conclude with a consideration of the critical role social workers can play in developing CED's next phase.

Encompassing community development, organizing, planning, & social change, as well as globalisation, this book is grounded in participatory & empowerment practice. The 36 chapters assess practice, theory & research methods.

readers achieve the 2015 EPAS core competencies essential for social work practice.. See the text's CSWE Competency Matrix, linking chapter content to the 2015 Educational Policy and Accreditation Standards (EPAS).

Praise for HANDBOOK of HEALTH SOCIAL WORK SECOND EDITION "Handbook of Health Social Work, Second Edition is a crucial addition for seasoned practitioners' libraries, as well as an essential foundation for fledgling social workers ready to enter health as a practice and research area." –From the Foreword by Suzanne Heurtin-Roberts, U.S. Department of Health and Human Services "The book's strengths include the high quality of writing and the expertise of its contributors. It covers the field of health social work in significant depth and is sure to leave readers well informed." –Mary Sormanti, PhD, MSW, Associate Professor of Professional Practice, Columbia University School of Social Work "Quite simply, this is the definitive volume for health and social work. In this second edition, Gehlert and Browne and their expert contributors have confidently managed to keep pace with current theory and empirical research across a wide range of subject matter that will be of interest to practitioners, educators, and researchers."

–Michael Vaughn, PhD, Assistant Professor, School of Social Work, School of Public Health, and Department of Public Policy Studies, Saint Louis University Thoroughly revised and updated, the only comprehensive handbook of its kind covering the diverse field of health social work Now in its Second Edition, Handbook of Health Social Work provides a comprehensive and evidence-based overview of contemporary social work practice in health care. Written from a wellness perspective, the chapters cover practice and research areas ranging from chronic disorders to infectious disease, from physical to mental disorders, and all

Read Online Social Work Macro Practice Netting 5th Edition

areas in between. An excellent resource preparing social workers for the present and future challenges of practice in the field of health care, the Handbook of Health Social Work, Second Edition features discussion on: New trends in social work and health care, including genetics, transdisciplinary care, as well as national and state changes in policy Health social work and children The wide array of roles performed by social workers in health-care settings Ethical issues and decision making in a variety of arenas Understanding of community factors in health social work Edited by two respected leaders in the field of health social work, this second edition includes contributions from a diverse team of notable experts, researchers, and scholars addressing multiple theoretical foundations, models, issues, and dilemmas for the social worker in health care. The resulting resource offers both a foundation for social work practice in health care and a guide for strategy, policy, and program development in proactive and actionable terms.

HUMAN BEHAVIOR IN THE MACRO SOCIAL

ENVIRONMENT takes students to the heart of what social work is all about--helping them promote positive change by building upon the strengths of macro systems. Authors Karen Kirst-Ashman and Grafton Hull provide a comprehensive overview of human behavior in a macro setting, while citing real-world practice and case studies to support theories and their application. They focus on empowerment--encouraging communities, organizations and groups to promote change from the inside out. They also prompt students to think critically about how macro systems affect human behavior and shape social work practice. Aligned with current EPAS standards, the fifth edition offers up-to-date coverage of issues on environmental justice, cognitive restructuring, effective teams, organizational

The Life Model of Social Work Practice

Macro Social Work Practice

"As a practitioner in the field for over thirty years, I have been exposed to endless 'planning' sessions that are prescriptive to the point of being oppressive. This text 'gives permission' to the practitioner to allow for emergence, uncertainty, and ambiguity in the planning process. Comparative Approaches to Program Planning provides a guide for the manager, administrator, executive director, strategic planner, and CEO to embrace multiple planning strategies and the understanding of each. This is extremely worthwhile in a dynamic environment and an ever-changing landscape and worldview."

—Paul D. McWhinney, ACSW, Director of Social Services City of Richmond,

Read Online Social Work Macro Practice Netting 5th Edition

Richmond, Virginia "This is the book I've been waiting for. It provides not only a linear approach to program design, but gives language to the tacit knowledge many planners have of the circular nature of their work. Both linear and circular thinking are important to planning processes and now we have a resource for teaching." –Jon E. Singletary, PhD, MSW, MDiv, Baylor University, School of Social Work

The first text on program planning to guide readers in selecting program planning approaches appropriate to setting, culture, and context Valuable for students and practitioners in the social work, public administration, nonprofit management, and community psychology fields, *Comparative Approaches to Program Planning* provides practical and creative ways to effectively conduct program planning within human service organizations. Written by leaders in the social work education community, this innovative book explores program planning as a multi-layered and complex process. It examines both a traditional linear problem-solving model as well as an

Read Online Social Work Macro Practice Netting 5th Edition

alternative emergent approach to program planning, helping professionals to successfully develop and enact effective and culturally competent planning in organizations and communities.

Considered the profession's ideal learning resource--based on the authors' extensive experience in the field and the text's balanced focus on theory and application--DIRECT SOCIAL WORK PRACTICE: THEORY AND SKILLS, Eleventh Edition, prepares social work students for effective ethical and anti-oppressive practice. Authoritative, well-organized and written with an appropriate level of rigor, this thorough introduction to practice grounds students in theory while connecting them to real-world applications with clients through vivid examples and vignettes. Many case examples are drawn from active social work practitioners, as well as the authors' own practice situations. As part of the Brooks/Cole Empowerment Series, the Eleventh Edition is completely up to date, discussing topics such as COVID-19, tele-social

Read Online Social Work Macro Practice Netting 5th Edition

work, Black Lives Matter and other issues related to racial inequity. In addition, the authors have carefully revised the text to incorporate gender-neutral language and explore key structural implications affecting clients and practice. The text thoroughly integrates the core competencies and recommended practice behaviors outlined in the 2015 Educational Policy and Accreditation Standards (EPAS) set by the Council on Social Work Education (CSWE). Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This fully revised classic text provides a comprehensive and integrated overview of the community theory and skills fundamental to all areas of social work practice.

For use as a text in foundations generalist social policy courses, either at the baccalaureate or master's level, this book examines the process of defining need, analyzing social policy, and developing new policy. A clear philosophical base and a common

Read Online Social Work Macro Practice Netting 5th Edition

theoretical framework underlie the discussion of each component of the policy process. Four themes are interwoven throughout the book: the importance of thinking critically about social policy, the benefits of using the strengths perspective in policy analysis and development, the critical role social policy plays in all areas of practice, and the absolute responsibility of every social worker to engage in policy practice.

Routledge.com now contains 6 cases; the Sanchez Case has been revised to include much more policy content.

Instructor materials include extra readings, PowerPoints, test questions, annotated links, syllabi, and EPAS guidelines. The book is also customizable on Routledge Custom Gateway.

Inspires students by tracing the careers of macro practitioners from grass roots organizers to agency executives "A truly amazing book. It manages, as few have before, to cross over as both a textbook and a brilliant contribution to contemporary social work practice. As a textbook it's perfect for macro methods and community organizing courses. It's packed filled with wisdom, insight, and experience, all delivered with grace, clarity, and commitment. -Robert Fisher, University of Connecticut "Steve Burghardt makes macro practice and community organizing come alive. Instead of turning this important part of social work into a dry series of academic abstractions he shows the reader the wonderful and exciting opportunities that exist. He has inspired us to get out there and make change and help build our skills to effectively do so." -Mike Eichler, San Diego State University "This book provides a holistic vision for macro practice in the early 21st century. It argues very convincingly that effective macro practice requires a strategic vision, grounded in values, that integrates personal and community transformation. Burghardt provides a compass, as well as other tools, that macro practitioners can use to make significant social change. It promises to be a very useful resource for community and

Read Online Social Work Macro Practice Netting 5th Edition

organizational practice in a number of fields.” –Lorraine Gutierrez, University of Michigan “Building upon his influential work on the professional and personal dimensions of organizing in *The Other Side of Organizing*, Burghardt articulates an innovative framework for macro practice that is mindful of current and future local, national and global economic, social and political trends. With an emphasis on capacity building from the bottom up, this book offers a challenging, yet practical, approach to justice-centered practice.”

–Cheryl Hyde, Temple University This book develops a new paradigm suited to the quickly shifting dynamics of a globalized society, both more reliant on social networking, and yet seeking common connection and community. By focusing on how practitioners can make meaningful, strategic choices regardless of their formal roles and responsibilities, the author breathes new life into key issues ranging from how to respond to both diversity and oppression, the vital use of the internet for organizing and the limits to “virtual trust,” and co-leadership development. This text is appropriate for upper-level undergraduate and graduate-level students enrolled in courses such as Macro Practice, Community Organizing, Leadership, and Management/Administration in social work and allied departments.

Explores working with organizations and communities with a unique macro practice

Christianity and Social Work is written for social workers whose motivations to enter the profession are informed by their Christian faith, and who desire to develop faithfully Christian approaches to helping.

Macro Social Work Practice: Working for Change in a Multicultural Society explores the dynamics and practice implications of increasingly diverse communities, organizations, and social service networks and helps students develop the skills to work successfully in these contexts. The book gives students the foundational skills and knowledge required for effective practice in social service and human organizations, healthcare settings, communities, social networks, and social movements. It emphasizes the relationship between structural and institutional inequalities and the experiences of individuals, families, communities, and organizations. Through case examples the book illustrates how principles of social justice, empowerment, and cultural awareness can be applied in different cultural contexts. Through various exercises, students will apply critical thinking to resolve practical and ethical dilemmas and make the type of difficult decisions that practitioners confront every day. The book also addresses how recent

political events, cultural developments, and social changes have altered both the context and the content of macro social work practice in the United States. Macro Social Work Practice is appropriate for undergraduate and graduate courses in social work, family and community development, public health, nursing, and human services. Michael Reisch is the Daniel Thursz Distinguished Professor of Social Justice at the University of Maryland, Baltimore. He earned his master's degree in social work at Hunter College, and his Ph.D. in modern European history and the history of ideas at the State University of New York, Binghamton. He has held leadership positions in multicultural national, state, and local advocacy, professional, political, and social change organizations His publications have appeared in journals such as Social Work, Social Service Review, the British Journal of Social Work, and the Journal of Social Work Education. His most recent books are Social Policy and Social Justice: Meeting the Challenge of a Diverse Society and Social Work and Social Justice: Concepts, Challenges, and Strategies (co-authored with Charles Garvin). In 2014, he received the Significant Lifetime Achievement Award from the Council on Social Work Education and, in 2016, he was elected a Fellow of the American Academy of Social Work and Social Welfare.
