Rather than condemning the planning and development of the Interstate Highway System, J. Gerlach's Simple History series continues to objectively look at the historical events, military concerns, and governmental priorities that led to its development. Gerlach investigates the opportunity costs and the citizen groups who fought construction and changes to their neighborhoods throughout the last one hundred years. Given the interstates' ability to divide neighborhoods, make poor citizens poorer, and induce demand -- the more highways you build, the more people use them, and the slower everyone moves -- Gerlach also embraces the American romanticism with driving on the interstates and how it relates to his own history.

**Pigs is a hybrid novel, consisting of historical chapters and short stories. The first several chapters tell the story of a fictitious German family of tenuous nobility who escape from East Germany during the Soviet occupation, dodging Stasi agents and border guards, and eventually settle in Hood River, OR, where they build a Bed and Breakfast modeled after King Ludwig's Schloss Linderhof castle. The succeeding chapters are short stories about the lives of lodgers who stay at the Neue Schloss Linderhof. In many respects the compendium mirrors the tradition of "Winesburg, Ohio" by Sherwood Anderson or "Spoon River Anthology" by Edgar Lee Masters. The eponymous "Pigs" are metaphorical constructs in the guise of mature, thoroughly insensitive, atavistic, uber-powerful, all-growed-up men. In other words, men.
