The current volume contains a selection from papers presented at the 45th meeting of the Linguistic Symposium on Romance Languages (LSRL 45), which took place from May 6 to 9, 2015 at the University of Campinas, Brazil. A volume of selected papers, such as this one, will ultimately be successful contingent upon the success of the event itself, which proved a strong commitment to theoretical and empirical rigor to the studies in Romance linguistics. All the chapters in this volume are high-quality papers on the state-of-the-art in linguistic research into Romance languages. The studies offer a variety of topics on the syntax, phonology, semantics-pragmatics, L2 acquisition and contact situations of Romance languages (Peninsular and American Spanish; European, Brazilian and African Portuguese; French; Italian), Romance dialects (Borgomanerese) and Romance-based creoles (Palenquero).

This volume represents the wide range of interests that comprise applied linguistics today. Contains new approaches to such current topics as discourse analysis, code-switching, second-language acquisition, and functional/notational syllabi for language teaching.

Aims at making available research in progress carried out by linguists either working on generative grammar in the Catalan speaking area or linked to a Catalan research centre in one way or another.

In 1565 the Spanish perfected, after 40 years of failure, a circular course between Acapulco Mexico and Manila, in the Philippines. Their ships, laden with silver ingots, were sent from Acapulco every year until the early 1800's. Stories exist that the Hawaiian Islands were known to the Spanish before their 'discovery'. Beyond this, Hawaiian stories accurately tell of people washing ashore their land. This is the fictional story about the connection between ancient Hawaii and the Manila Galleons, told through the eyes of a Spanish soldier.

Developed with the IB, this course book accurately matches the 2011 syllabus for SL and HL, and is packed with support straight from the IB to ensure exceptional achievement. It covers all the core and optional topics, and includes a unit on literature to stretch learners beyond functional language-learning.

Spanish Heritage Learners' Emerging Literacy: Empirical Research and Classroom Practice introduces a comprehensive, multi-level empirical study on the writing abilities of Spanish Heritage Learners at the beginner level; the findings guide a broad selection of instructional activities and pedagogical resources to support writing development in the heritage language classroom. This is the first book dealing exclusively with writing competence among Spanish Heritage Language Learners through the integration of empirical evidence and instructional perspectives to address core questions on heritage language literacy. In addition to the in-depth analysis of Spanish production—spelling, verb usage, grammatical features, vocabulary, and discourse organization—the volume revises the latest perspectives within the Heritage Language Education field, and provides effective teaching approaches, innovative classroom implementations, and up-to-date resources. This versatile volume, designed for researchers and practitioners in the fields of Bilingual Education, Language Teaching Methods, and Heritage Language Pedagogy, integrates empirical evidence, global perspectives on heritage language teaching, and suggestions for further research.

The Valley of the Giants is set on the edge of Humboldt Bay in the fictional town of Sequoia, California. Starting in 1850s, with John Cardigan founding the logging company to build a life for him and his son Bryce, the novel follows the ups and downs of the Cardigan family and the on-going rivalry with Colonel Pennington over logging rights and other business matters. When Bryce Cardigan returns home from the college he finds out that his father's company is in trouble and that Pennington is pushing them out of business. He must try to save the company and screw Colonel Pennington, while juggling a secret relationship with Shirley, Pennington's niece.

"Difficulties are not an option in my life." I begin this introduction with a statement that should be a daily declaration in everyone's life. For as long as we live, difficult times will always show up but making them a "normal" standard in my day to day life to deceive us and make us doubt God's promises is not an option for a child of God. There is a saying "Life is not about waiting for the storm to pass, it's about dancing in the rain." While you dance in the midst of the storm, God will see your heart conform to His. We can't let life dictate our pace and blessings, we have to do something about it. Sitting at the side of the road and waiting for someone to give us what we need is not an option. When you have a clear identity of who you are in Christ, God will reveal to you that everything you need is already inside of you. All you will ever need in this life comes from God. The same God who lives and dwells in you. When all hell breaks loose, God releases His power in you to prevail in all of your doings. But, it will take someone who is committed to insisting and resisting at all cost during times of discouragements. You have all that is needed for you to persist and to manifest the movement of God in your favor. It's customary to invoke God who seems to be outside of our realm, every time we need Him. We appeal to God to come to us even though He is already in us. "Do you not know that you are a temple of God and that the Spirit of God dwells in you?" (1 Corinthians 3:16). You want His divine power to come to you when all you have to do is release His power that is already inside of you. Remember that in all of our doings, "God's purpose demands resistance." In other words, you have to fight against opposition for that purpose to be fulfilled. It is the only way that you'll see the promises become a reality. Understanding what your purpose is and what it represents in your life will help you unleash God's power. It is critical to know how to position yourself, regardless of the situation you are encountering and to push forward until something happens. Push forward at all times and pray until God's heavens are opened in your favor. Until the much-needed response becomes a reality in the natural realm. Let's not worry about our circumstances, but rather, persist in pushing forward while God orchestrates the outcome of our victory. Victory is something that comes disguised as a full game of discouragements and weaknesses that will try to keep you out of focus. But knowing how to unwrap what seems to be packages full of discouragements will take a persistent person to reveal God's favor in you. While the opposition increases, your strength will be growing and pushing forward until God's favor is released with His anointing to obtain the victory that has been always in you. Why? Because victory is a place that dwells in you. Jesus obtained it on the cross, and Jesus the Victor lives in you.

*Investigations of the Syntax-Semantics-Pragmatics Interface presents on-going research in Role and Reference Grammar in a number of critical areas of linguistic theory: verb semantics and argument structure, the nature of syntactic categories and syntactic representation, prosody and syntax, information structure and syntax, and the syntax and semantics of complex sentences. In each of these areas there are important results which not only advance the development of the theory, but also contribute to the broader theoretical discussion. In particular, there are analyses of grammatical phenomena such as transitivity in Kabardian, the verb-less numeral quantifier construction in Japanese, and an unusual kind of complex sentence in Wari' (Chapakuran, Brazil) which not only illustrate the descriptive and explanatory power of the theory, but also present interesting challenges to other approaches. In addition, there are papers looking at the implications and applications of Role and Reference Grammar for neurolinguistic research, parsing and automated text analysis.*
