Ella Deloria (1889?1971), one of the first Native students of linguistics and ethnography in the United States, grew up on the Standing Rock Reservation on the northern Great Plains and was trained by Franz Boas at Columbia University. *Dakota Texts* presents a rich array of Sioux mythology and folklore in its original language and in translation. Originally published in 1932 by the American Ethnological Society, this work is a landmark contribution to the study of the Sioux tribes.

Created by the California Research Bureau at the request of Senator John L. Burton, this Web-site is a PDF document on early California laws and policies related to the Indians of the state and focuses on the years 1850-1861. Visitors are invited to explore such topics as loss of lands and cultures, the governors and the militia, reports on the Mendocino War, absence of legal rights, and vagrancy and punishment.

The "fascinating" #1 New York Times bestseller that awakened the world to the destruction of American Indians in the nineteenth-century West (*The Wall Street Journal*). First published in 1970, *Bury My Heart at Wounded Knee* generated shockwaves with its frank and heartbreaking depiction of the systematic annihilation of American Indian tribes across the western frontier. In

this nonfiction account, Dee Brown focuses on the betrayals, battles, and massacres suffered by American Indians between 1860 and 1890. He tells of the many tribes and their renowned chiefs—from Geronimo to Red Cloud, Sitting Bull to Crazy Horse—who struggled to combat the destruction of their people and culture. Forcefully written and meticulously researched, *Bury My Heart at Wounded Knee* inspired a generation to take a second look at how the West was won. This ebook features an illustrated biography of Dee Brown including rare photos from the author's personal collection.

Westerners and Indians are working more closely together and in greater numbers than ever before. The opportunities are vast, but so is the cultural divide. Misunderstandings and frustration due to cultural differences wreak havoc on success. In this revised edition of *Speaking of India*, author and intercultural communications expert Craig Storti attempts to ease the frustration, and bring cultural understanding in business and life. With a new foreword by Ranjini Manian, author of *Doing Business in India for Dummies*, the book also features new content on managing remotely, and the results of a five-year cultural survey. With more than a dozen years of experience working between the two cultures, Storti has identified key cultural flashpoints and the result is a powerful series of Best Practices, which is the basis of *Speaking of India*.

Untangling the logical, lexical, and semantic patterns of the multiple official speeches of Indian prime ministers, *Speaking the Nation* gauges how the Indian state has been projected by different governments in different times, in the face of challenges from internal and external actors that put pressure on its leaders to safeguard their status as legitimate elites in power. It analyses how Indian nationhood is consistently reshaped and reaffirmed by invoking its secular ethos and practice, as well as the experience of market liberalization. The book calls for serious engagement with political oratory in India. A close reading of speeches since 1991—from Narasimha Rao to Narendra Modi—it captures how, through these crosscutting topics, the prominent ‘ authors of the nation ’ and the ‘ vanguards of the state ’ , speak India into being.

Ramachandra Guha ’ s *India after Gandhi* is a magisterial account of the pains, struggles, humiliations and glories of the world ’ s largest and least likely democracy. A riveting chronicle of the often brutal conflicts that have rocked a giant nation, and of the extraordinary individuals and institutions who held it together, it established itself as a classic when it was first published in 2007. In the last decade, India has witnessed, among other things, two general elections; the fall of the Congress and the rise of Narendra Modi; a major anti-corruption movement; more violence against women, Dalits, and religious minorities; a wave

of prosperity for some but the persistence of poverty for others; comparative peace in Nagaland but greater discontent in Kashmir than ever before. This tenth anniversary edition, updated and expanded, brings the narrative up to the present. Published to coincide with seventy years of the country ' s independence, this definitive history of modern India is the work of one of the world ' s finest scholars at the height of his powers.

Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history. Bestselling author Sherman Alexie tells the story of Junior, a budding cartoonist growing up on the Spokane Indian

Reservation. Determined to take his future into his own hands, Junior leaves his troubled school on the rez to attend an all-white farm town high school where the only other Indian is the school mascot. Heartbreaking, funny, and beautifully written, *The Absolutely True Diary of a Part-Time Indian*, which is based on the author's own experiences, coupled with poignant drawings by Ellen Forney that reflect the character's art, chronicles the contemporary adolescence of one Native American boy as he attempts to break away from the life he was destined to live. With a forward by Markus Zusak, interviews with Sherman Alexie and Ellen Forney, and four-color interior art throughout, this edition is perfect for fans and collectors alike.

After the Spanish victories over the Inca claimed Tawantinsuyu for Charles V in the 1530s, native Andeans undertook a series of perilous trips from Peru to the royal court in Spain. Ranging from an indigenous commoner entrusted with delivering birds of prey for courtly entertainment to an Inca prince who spent his days amid titles, pensions, and other royal favors, these sojourners were both exceptional and paradigmatic. Together, they shared a conviction that the sovereign's absolute authority would guarantee that justice would be done and service would receive its due reward. As they negotiated their claims with imperial officials, Amerindian peoples helped forge the connections that sustained the expanding Habsburg realm's imaginary and gave the modern global age its defining character. *Andean Cosmopolitans* recovers these travelers' dramatic experiences, while simultaneously highlighting their profound influences on the making and remaking of the colonial world. While Spain's American possessions became Spanish in many ways, the Andean travelers (in their cosmopolitan lives and journeys) also helped to shape Spain in the image and likeness of Peru. De la Puente brings remarkable insights to a narrative showing how previously unknown peoples and ideas created new power structures and institutions, as well as novel ways of being urban, Indian, elite, and subject. As indigenous people articulated and defended their own views regarding the legal and political character of the "Republic of the Indians," they became state-builders of a special kind, cocreating the

colonial order.

sweeping history—and counter-narrative—of Native

American life from the Wounded Knee massacre to the

present. The received idea of Native American history—as

promulgated by books like Dee Brown's mega-bestselling

1970 *Bury My Heart at Wounded Knee*—has been that

American Indian history essentially ended with the 1890

massacre at Wounded Knee. Not only did one hundred fifty

Sioux die at the hands of the U. S. Cavalry, the sense was,

but Native civilization did as well. Growing up Ojibwe on a

reservation in Minnesota, training as an anthropologist, and

researching Native life past and present for his nonfiction

and novels, David Treuer has uncovered a different

narrative. Because they did not disappear—and not despite

but rather because of their intense struggles to preserve

their language, their traditions, their families, and their very

existence—the story of American Indians since the end of

the nineteenth century to the present is one of

unprecedented resourcefulness and reinvention. In *The*

Heartbeat of Wounded Knee, Treuer melds history with

reportage and memoir. Tracing the tribes' distinctive

cultures from first contact, he explores how the

depredations of each era spawned new modes of survival. The devastating seizures of land gave rise to increasingly sophisticated legal and political maneuvering that put the lie to the myth that Indians don't know or care about property. The forced assimilation of their children at government-run boarding schools incubated a unifying Native identity. Conscription in the US military and the pull of urban life brought Indians into the mainstream and modern times, even as it steered the emerging shape of self-rule and spawned a new generation of resistance. The Heartbeat of Wounded Knee is the essential, intimate story of a resilient people in a transformative era.

Beginning with Ravi Shankar and Ali Akbar Khan, Indian art music is renowned internationally for its improvised raga performance. This ancient tradition has for centuries been transmitted orally within the seclusion of hereditary families. Few such families remain today, and not enough is known about their central contribution to the life of Indian music. Master Musicians of India reveals this rich world through profiles and interviews of key musicians from this tradition.

Beginning with a general discussion of American Indian origins, language families, and culture areas, Deloria then focuses on her own people, the Dakotas, and the intricate kinship system that

governed all aspects of their life. She writes, “Exacting and unrelenting obedience to kinship demands made the Dakotas a most kind, unselfish people, always acutely aware of those about them and innately courteous.” Deloria goes on to show the painful transition to reservations and how the holdover of the kinship system worked against Indians trying to follow white notions of progress and success. Her ideas about what both races must do to participate fully in American life are as cogent now as when they were first written. Originally published in 1944, “Speaking of Indians” is an important source of information about Dakota culture and a classic in its elegant clarity of insight. An extraordinary history of resistance and the fight for Indian independence—the little-known story of seven foreigners to India who joined the movement fighting for freedom from British colonial rule. Rebels Against the Raj tells the story of seven people who chose to struggle for a country other than their own: foreigners to India who across the late 19th to late 20th century arrived to join the freedom movement fighting for independence from British colonial rule. Of the seven, four were British, two American, and one Irish. Four men, three women. Before and after being jailed or deported they did remarkable and pioneering work in a variety of fields: journalism, social reform, education, the emancipation of women, environmentalism. This book tells their stories, each renegade motivated by idealism and genuine sacrifice; each connected to

Gandhi, though some as acolytes where others found endless infuriation in his views; each understanding they would likely face prison sentences for their resistance, and likely live and die in India; each one leaving a profound impact on the region in which they worked, their legacies continuing through the institutions they founded and the generations and individuals they inspired. Through these entwined lives, wonderfully told by one of the world's finest historians, we reach deep insights into relations between India and the West, and India's story as a country searching for its identity and liberty beyond British colonial rule. Treuer, an Ojibwe scholar and cultural preservationist, answers the most commonly asked questions about American Indians, both historical and modern. He gives a frank, funny, and personal tour of what's up with Indians, anyway. Speaking with Pictures offers a path-breaking exploration of visual narratives in folk art. It foregrounds folk art's engagement with modernity by re-looking at its figurative modes and the ways in which they are embedded in mythic thought. The book discusses folk art as a contemporary phenomenon which is a part of a complex visual culture where the 'essence' of tradition is best captured in a 'new' form or medium. Each chapter picks up a theme that moves between the local and the global, thereby attempting to problematise the stereotypical view of folk artists as carriers of 'timeless tradition'. The volume provides an

ethnographic account of innovations through a detailed analysis of the scroll painting tradition of the patuas of West Bengal and the Pardhan-Gond style of Madhya Pradesh, highlighting some recent attempts at inter-medium exchange in storytelling. The book will interest those in visual and popular culture in anthropology, sociology, literary criticism and folklore. It will also be of immense value to art historians, museologists, curators and NGOs working in media and communication, apart from those with a general interest in folk art.

When Blue Bird and her grandmother leave their family's camp to gather beans for the long, threatening winter, they inadvertently avoid the horrible fate that befalls the rest of the family. Luckily, the two women are adopted by a nearby Dakota community and are eventually integrated into their kinship circles. Ella Cara Deloria's tale follows Blue Bird and her daughter, Waterlily, through the intricate kinship practices that created unity among her people. Waterlily, published after Deloria's death and generally viewed as the masterpiece of her career, offers a captivating glimpse into the daily life of the

nineteenth-century Sioux. This new Bison Books edition features an introduction by Susan Gardner and an index.

Based on the extraordinary life of National Book Award-winning author Louise Erdrich's grandfather who worked as a night watchman and carried the fight against Native dispossession from rural North Dakota all the way to Washington, D.C., this powerful novel explores themes of love and death with lightness and gravity and unfolds with the elegant prose, sly humor, and depth of feeling of a master craftsman. Thomas Wazhashk is the night watchman at the jewel bearing plant, the first factory located near the Turtle Mountain Reservation in rural North Dakota. He is also a Chippewa Council member who is trying to understand the consequences of a new "emancipation"

bill on its way to the floor of the United States Congress. It is 1953 and he and the other council members know the bill isn't about freedom; Congress is fed up with Indians. The bill is a "termination" that threatens the rights of Native Americans to their land and their very identity. How can the government abandon treaties made in good faith with Native Americans "for as long as the grasses shall grow, and the rivers run"? Since graduating high school, Pixie Paranteau has insisted that everyone call her Patrice. Unlike most of the girls on the reservation, Patrice, the class valedictorian, has no desire to wear herself down with a husband and kids. She makes jewel bearings at the plant, a job that barely pays her enough to support her mother and brother. Patrice's shameful alcoholic father returns home sporadically to terrorize his wife and children and bully her for money. But Patrice needs every penny to follow her beloved older sister, Vera, who moved to the big city of Minneapolis. Vera may have disappeared; she hasn't been in touch in months, and is rumored to have had a baby. Determined to find Vera and her child, Patrice makes a fateful trip to Minnesota that introduces her to unexpected forms of exploitation and violence, and endangers her life. Thomas and Patrice live in this impoverished reservation community along with young Chippewa boxer Wood Mountain and his mother Juggie Blue, her niece and Patrice's best friend Valentine, and Stack Barnes, the white high school math teacher and boxing coach who is hopelessly in love with Patrice. In the Night Watchman, Louise

Erdrich creates a fictional world populated with memorable characters who are forced to grapple with the worst and best impulses of human nature.

Illuminating the loves and lives, the desires and ambitions of these characters with compassion, wit, and intelligence, *The Night Watchman* is a majestic work of fiction from this revered cultural treasure.

'Elegant, lucid and funny, this book will appeal to as many readers as there are desires.'--Shohini Ghosh 'The history of desire in India, ' writes Madhavi Menon in this splendid book, 'reveals not purity but impurity as a way of life. Not one answer, but many. Not a single history, but multiple tales cutting across laws and boundaries.' In Bhakti poetry, Radha and Krishna disregard marital fidelity, age, time and gender for erotic love. In Sufi dargahs, pirs (spiritual guides) who were married to women are buried alongside their male disciples, as lovers are. Vatsyayana, author of the world's most famous manual of sex, insists that he did not compose it 'for the sake of passion', and remained celibate through the writing of it. Long hair is widely seen as a symbol of sexuality; and yet, shaved off in a temple, it is a sacred offering. Even as the country has a draconian law to punish homosexuality, heterosexual men share the same bed without comment. Hijras are increasingly marginalized; yet gender has

historically been understood as fluid rather than fixed. Menon navigates centuries, geographies, personal and public histories, schools of philosophy, literary and cinematic works, as she examines the many--and often surprising--faces of desire in the Indian subcontinent. Her study ranges from the erotic sculptures of Khajuraho to the shrine of the celibate god Ayyappan; from army barracks to public parks; from Empress Nur Jahan's paan to home-made kohl; from cross-dressing mystics to androgynous gods. It shows us the connections between grammar and sex, between hair and war, between abstinence and pleasure, between love and death. Gloriously subversive, full of extraordinary analyses and insights, this is a book you will read to be enlightened and entertained for years.

“A lesson in how to practice recognizing the fundamental truth that every inch of the Americas is Indigenous territory”

—Robert Warrior, from the Foreword Many people learn about Indigenous politics only through the most controversial and confrontational news: the Standing Rock Sioux Tribe’s efforts to block the Dakota Access Pipeline, for instance, or the battle to protect Bears Ears National Monument in Utah, a site sacred to Native peoples. But most Indigenous activism remains unseen in the mainstream—and so, of course, does its significance. J. Kaulani Kauanui set out to change that with her radio program Indigenous Politics. Issue by issue, she interviewed people who talked candidly and in an engaging way about how settler colonialism depends on erasing Native peoples and about how Native peoples can and do resist. Collected here, these conversations speak with clear and compelling voices about a range of Indigenous politics that shape everyday life. Land desecration, treaty rights, political status, cultural revitalization: these are among the themes taken up by a broad cross-section of interviewees from across the United States and from Canada, Mexico,

Chile, Bolivia, Peru, Australia, and New Zealand. Some speak from the thick of political action, some from a historical perspective, others from the reaches of Indigenous culture near and far. Writers, like Comanche Paul Chaat Smith, author of *Everything You Know about Indians Is Wrong*, expand on their work—about gaming and sovereignty, for example, or protecting Native graves, the reclamation of land, or the erasure of Indian identity. These conversations both inform and engage at a moment when their messages could not be more urgent. We Talk, You Listen is strong, boldly unconventional medicine from Vine Deloria Jr. (1933-2005), one of the most important voices of twentieth-century Native American affairs. Here the witty and insightful Indian spokesman turns his penetrating vision toward the disintegrating core of American society. Written at a time when the traditions of the formerly omnipotent Anglo-Saxon male were crumbling

under the pressures of a changing world, Deloria's book interprets racial conflict, inflation, the ecological crisis, and power groups as symptoms rather than causes of the American malaise: "The glittering generalities and mythologies of American society no longer satisfy the need and desire to belong," a theory as applicable today as it was in 1970. American Indian tribalism, according to Deloria, was positioned to act as America's salvation. Deloria proposes a uniquely Indian solution to the legacy of genocide, imperialism, capitalism, feudalism, and self-defeating liberalism: group identity and real community development, a kind of neo-tribalism. He also offers a fascinating cultural critique of the nascent "tribes" of the 1970s, indicting Chicanos, blacks, hippies, feminists, and others as misguided because they lacked comprehensive strategies and were led by stereotypes rather than an understanding of their uniqueness. Vine Deloria Jr. (Standing Rock Sioux, 1933-2005) was the author of more than twenty books, including Custer Died for Your Sins, Behind the Trail of Broken Treaties, and God Is Red. Suzan Shown Harjo (Cheyenne & Muscogee) is a poet, lecturer, curator, columnist for Indian Country Today, policy advocate, and president of the Morning Star Institute, a national Indian rights organization. Enraged polemic though this book may be, it is also constructive, collected and funny. Where it is angry, it is righteous anger because the evils it condemns if left unchecked are likely to kill

This book may be the last hope for reform. Looks at the ways Native Americans and their culture have become essential to the identity of the United States.

In the late 1800s India seemed to be left behind by the Industrial Revolution. Today there are many technological Indians around the world but relatively few focus on India's problems. Ross Bassett—drawing on a database of every Indian to graduate from the Massachusetts Institute of Technology through 2000—explains the role of MIT in this outcome.

Recounts the author's experiences with the reclusive Tarahumara Indians, whose techniques allow them to run long distances with ease, and describes his training for a fifty-mile race with the tribe and a number of ultramarathoners. Studies the controversy over the use of Native American mascots by professional sports, colleges, and high schools, describing the origins and messages conveyed by such mascots as the Atlanta Braves and Florida State Seminoles.

India, That Is Bharat, the first book of a comprehensive trilogy, explores the influence of European 'colonial consciousness' (or 'coloniality'), in particular its religious and racial roots, on Bharat as the successor state to the Indic civilisation and the origins of the Indian Constitution. It lays the foundation for its sequels by covering the period between the Age of Discovery, marked by Christopher Columbus' expedition in 1492, and the reshaping of Bharat through a British-made constitution-the Government of India Act of 1919. This includes international developments leading to the founding of the League of Nations by Western powers that tangibly impacted this journey. Further, this work also traces the origins of seemingly universal constructs such as 'toleration', 'secularism' and 'humanism' to Christian political theology. Their subsequent role in subverting the indigenous Indic consciousness through a secularised and universalised Reformation, that is, constitutionalism, is examined. It also puts forth the concept of Middle Eastern coloniality, which preceded its European variant and allies with it in the context of Bharat to advance their shared antipathy towards the Indic worldview. In order to liberate Bharat's distinctive indigeneity, 'decoloniality' is presented as a civilisational imperative in the spheres of nature, religion, culture, history, education, language and, crucially, in the realm of constitutionalism.

"Women always face violence from men. Equality is only preached, but not put into practice. Dalit women face more violence every day, and they will continue to do so until society changes and accepts them as equals." — Bharati from Andhra Pradesh The right to equality regardless of gender and caste is a fundamental right in India. However, the Indian government has acknowledged that institutional forces arraigned against this right are powerful and shape people's

mindsets to accept pervasive gender and caste inequality. This is no more apparent than when one visits Dalit women living in their caste-segregated localities. Vulnerably positioned at the bottom of India's gender, caste and class hierarchies, Dalit women experience the outcome of severely imbalanced social, economic and political power equations in terms of endemic caste-class-gender discrimination and violence. This study presents an analytical overview of the complexities of systemic violence that Dalit women face through an analysis of 500 Dalit women's narratives across four states. Excerpts of these narratives are utilised to illustrate the wider trends and patterns of different manifestations of violence against Dalit women. Published by Zubaan.

In this award-winning novel, Tharoor has masterfully recast the two-thousand-year-old epic, The Mahabharata, with fictional but highly recognizable events and characters from twentieth-century Indian politics. Nothing is sacred in this deliciously irreverent, witty, and deeply intelligent retelling of modern Indian history and the ancient Indian epic The Mahabharata. Alternately outrageous and instructive, hilarious and moving, it is a dazzling tapestry of prose and verse that satirically, but also poignantly, chronicles the struggle for Indian freedom and independence.
