Translate technical expertise into an effective career in computer user support with the help of Knapp's A GUIDE TO SERVICE DESK CONCEPTS, 4E. This trusted, contemporary guide introduces the latest developments, research, resources and trends as they happen in computer user support. Readers explore the various types of service desk support required. This edition also reviews the processes and technologies that ensure the service desk is operating efficiently and examines how today's leading organizations measure service desk success. The author references the very latest ITIL 2011 best practices, leading quality and IT service management frameworks and standards to ensure role of outsourcing and certification in the service desk. New case studies and case projects provide on-the-job practice, while updated chapters highlight the evolving role of the service desk to relationship managers and how technology trends, such as cloud computing, virtualization, mobile technology and consumerization, are impacting on self-help and the effects of self-healing capabilities within newer generation technologies. A GUIDE TO SERVICE DESK CONCEPTS, 4E provides the overview needed for success in computer user support today. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. The book covers basic concepts such as random experiments, probability axioms, conditional probability, and counting methods, single and multiple random variables (discrete, continuous, and mixed), as well as moment-generating functions, characteristic functions, random vectors, and inequalities: limit theorems and convergence. Introduction to Probability and Statistics, 4E includes the following topics: random variables, random processes, discrete-time and continuous-time Markov chains, and Brownian motion: simulation using MATLAB and R.

**Multiple sclerosis is a neurological disease in which the insulating covers of nerve cells of the brain and spinal cord are damaged. This obstructs the ability of the parts of the nervous system to communicate. It causes certain physical, mental as well as psychiatric problems such as double vision, blindness in one eye, muscle weakness, and trouble with sensation and coordination. The causes of multiple sclerosis include destruction by the immune system or failing of the myelin-producing cells. It can also occur due to genetic and environmental factors such as viral infection. It is diagnosed on the basis of signs and symptoms along with medical tests. The most commonly used method of diagnosis is McDonald criteria, which focuses on clinical, radiologic and laboratory evidence of lesions in different areas and times. This book presents researches and studies performed by experts across the globe. Some of the diverse topics covered herein address the varied diagnostic techniques and treatment strategies of this disease. It is appropriate for students seeking detailed information in this area as well as for experts.**

In interviews in cities and towns across the United States, from New York to Los Angeles, and from Madison to Dallas, members of 40 black and white pairs of friends reflect on how they became friends, how racial issues are addressed, and how their friendships have influenced their views and, in some cases, their actions. Utilizing a sociological framework to examine the friendships, Korgen offers readers a rare glimpse into an even rarer phenomenon and sheds light on important aspects of race relations in America. How do close friendships between blacks and whites develop? Why are cross-racial friendships so rare? How do these friendships navigate the issue of race? Crossing the Racial Divide answers these questions through a lively discussion of the problems and issues and through the voices of members of cross-racial friendships. In interviews in cities and towns across the United States, from New York to Los Angeles, and from Madison to Dallas, members of 40 black and white pairs of friends reflect on how they became friends, how racial issues are addressed, and how their friendships have influenced their views and, in some cases, their actions. Utilizing a sociological framework to examine the friendships, Korgen offers readers a rare glimpse into an even rarer phenomenon and sheds light on important aspects of race relations in America. Challenging both the traditional notion that blacks and whites are opposites and the increasingly popular notion of colorblindness, the author reveals that, while close black/white friendships follow the concept of homophily, we cannot just wish away the tensions and disparities that exist between most white and black Americans. Cross-racial friendships provide a unique perspective that makes racism and racial separation both more visible and more vulnerable. Put into sociological context, the stories revealed in this book

make evident the institutional barriers existing between most black and white Americans and offer insight into the means to dismantle them. (Big Tone Vocal Selections). Young people need to feel empowered in their schools and communities-it's not enough to ask them to stay away from drugs and alcohol, we need to show them positive things they can do instead, both for themselves and others! A BETTER HIGH is a powerful tool for everyone, especially students, teachers and parents. Chapters include: 1. How to Get High Naturally; 2. Laughing, Smiling and Other Highs Better Than Cocaine; 3. Running, Surfing and Other Highs Better Than Weed; 4. Eating, Cooking and Other Highs Better Than Alcohol; 5. Helping, Listening and Other Highs Better Than Being Selfish; 6. Loving, Caring and Other Highs Better Than Hurting Yourself; 7. Unhealthy Natural Highs; 8. Creating Your Own Natural High. Author Matt Bellace holds a Ph.D. in clinical psychology, has been performing stand-up comedy since 1995, and has been involved in youth drug and alcohol prevention efforts since high school. Most importantly, Matt is a passionate and effective speaker who presents his message with humor and lots of audience interaction.

Indulgent and sensual, outrageous and taboo, but always highly erotic, this new collection of Black Lace stories takes the illicit and daring rendezvous with a lover (or lovers) as its theme. Popular Black Lace authors like Portia Da Costa and Janine Ashbless contribute saucy tales, as do a number of brand new passionate and edgy voices from the US. Packed with a broad and thrilling range of women's sexual fantasies.

How artificial intelligence and robotics are transforming the future of love and desire: a philosophical thriller and essays. A chance encounter between two women and a road trip into the future: It's Christmas Eve, and Scarlett, banker-turned-technologist, is leaving a secret underground lab to catch the last flight that will get her home in time to open presents with her three-year-old son. She offers a lift to a young woman in distress, who shares her intimate life story as they drive to the airport. These revelations will have devastating consequences for both of them. The Love Makers is a philosophical thriller about female friendship, class, motherhood, women, and work—and how artificial intelligence and robotics are transforming the future of love and desire. Ailric Campbell combines her novel with essays from leading scientists and commentators who examine what's at stake in our human-machine relationships. What is our future as friends, parents, lovers? Will advances in intelligent machines reverse decades of progress for women? From robot nannies to generative art and our ancient dreams of intelligent machines, The Love Makers blends storytelling with science communication to investigate the challenges and opportunities of emergent technologies and how we want to live. Contributors Ronny Bogani, Joanna J. Bryson, Julie Carpenter, Stephen Cave, Anita Chandran, Peter R. N. Childs, Kate Devlin, Kanta Dihal, Mary Flanagan, Margaret Rhee, Amanda Sharkey, Roberto Trotta, E. R. Truitt, and Richard Watson

Peter and Prudence are surprised by the entrance of a tramp who reveals himself as a wandering Judas. Peter has had entrusted to him thirty one hundred dollars which he is tempted to keep. But the sound of thirty pieces of money tinkling in Judas' pocket convinces him of his wrong. On the dawn of Christmas day, Peter and Prudence rejoice in a new happiness that comes of honesty -- S.
