This new kind of dictionary reflects the use of “rhythm rhymes” by rappers, poets, and songwriters of today. Users can look up words to find collections of words that have the same rhythm as the original and are useable in ways that are familiar to us in everything from vers libre poetry to the lyrics and music of Bob Dylan and hip hop groups.

Cowboy Small takes good care of his horse, rides the range, helps in the roundup, and rides a

bucking bronco, in a board-book adaptation of a long-time children's favorite.

Whether they're threading a barrel or shredding a swell, these amazing women are making enormous waves in the world of surfing. If you thought surfing was a male-dominated sport, think again. The thirty women surfers profiled in this thrilling collection can rip a wave with the best of them. Hailing from all over the world, each surfer is featured in spectacular photography and with their own inspirational words. There's American professional surfer

Lindsay Steinriede on how her father's death has inspired her career; French board shaper Valerie Duprat on how she got her start "sculpting foam"; Conchita Rossler, founder of Mooana Retreat in Portugal, on connecting mind, body, and spirit; and Australian photographer Cait Miers on empowering women. You'll also meet surfers who are over sixty, who surf while pregnant, who captain boats, teach yoga, and make movies. Breathtaking photography captures these women from every angle, on and off the waves, in some of the world's most

visually stunning locations. The perfect gift for surfing enthusiasts, this unique compilation of stunning pictures and hard-won wisdom proves that the thrill of catching a wave, riding it, and kicking out belongs to everyone.

Japan's greatest seer, the blind prophet Hinoto, has foretold the end of the world. At the center of her prophecy is a young man named Kamui Shiro, who possesses startling psychic powers. Although Kamui's future seems to have been predetermined from his birth, he has a choice--save the earth, or destroy it.

Presents a selection of the author's poems from throughout his life, from playful early poems to themes of mourning and loss.

Essentials of Statistics raises the bar with every edition by incorporating an unprecedented amount of real and interesting data that will help instructors connect with students today, and help them connect statistics to their daily lives. The 5th Edition contains more than 1,585 exercises, 89% of which use real data and 86% of which are new. Hundreds of examples are included, 92% of which use real data and 85% of which are new.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been

suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

OGT Exit Level Reading Workbook prepares students for the reading portion of the Ohio Graduation Test. Samples from similar tests provide plenty of practice and students learn to take multiple choice tests on their comprehension of what they read. Students learn to evaluate their own short answers to targeted questions, and learn from other students' responses to similar questions. This book is suitable for students in all states who need to take a reading exam for graduation or course completion.

From New York Times Bestseller Mimi Jean Pamfiloff comes SMART TASS, a new Romantic Comedy. He's the hot college quarterback all the girls want. She's the smart girl he loves to pick on. And now that they're all grown up, things are about to get geekin' ugly... My name is Tass. I'm smart, I'm driven, and I am determined not to let prankster Hunter Johnson continue raining on my parade. When we were little, he'd pull my hair and call me names. When we were teenagers, he'd throw food and tease me for being a

flat-chested virgin. But now that we've ended up at the same college, he's out of his hot head if he thinks he can keep messing with my life. It's like he's fixated on me or something. Well, guess what, Mr. Amazefootball? I'm not that geeky little girl anymore and you do not screw with a smart woman. So what's my plan? It's definitely wild, and he's about to find out...

*This must-read for lovers of Stephen King's *The Shining* will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and*

it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread. They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general

Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of

law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to *Althusser and Law* argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Graffiti writing was born in the streets of Philadelphia in the late 1960s. But it was in New York in the early 1970s that it became a full-fledged urban art, gradually taking over the landscape of the city, from its walls to its subway cars. This is a writing manual, a detailed examination of how graffiti writers have developed the twenty-six letters of the alphabet. It includes the contribution of ten of the international scene's most talented creators answer Woshe's questions about matters that include their practice, their relationship with letters and their backgrounds. It includes a map of New York with the sites where the most important graffiti are located.

A thorough guide to Linux TCP/IP network administration examines the major flavors of Linux; covers routing, file management, directory services, e-mail, security, and internetworking with Samba; and provides implementation examples, troubleshooting tips, and much more. Original. (Advanced).

The third and final installment in the Kingdoms of Oz

series. The gloves are off. The board is set. The Witches of Oz are prepared to fight. It's a race to the city as Ellana, Fallon, and Nox work to keep their enemy from taking over. Has she done enough to prove her good intentions, or will the people of Oz rally to help her defeat the witch that has caused years of misery? Lions, archers, and magical powers will combine. but to what end?

Charles Bernstein has described conceptual "poetry pregnant with thought." Against Expression, the premier anthology of conceptual writing, presents work that is by turns thoughtful, funny, provocative,

and disturbing. Editors Craig Dworkin and Kenneth Goldsmith chart the trajectory of the conceptual aesthetic from early precursors such as Samuel Beckett and Marcel Duchamp through major avant-garde groups of the past century, including Dada, Oulipo, Fluxus, and language poetry, to name just a few. The works of more than a hundred writers from Aasprong to Zykov demonstrate a remarkable variety of new ways of thinking about the nature of texts, information, and art, using found, appropriated, and randomly generated texts to explore the possibilities of non-expressive language.

Smart Tass

With U.S. intelligence agencies wracked by internal power struggles and paralyzed by bureaucracy, the president has been forced to establish his own clandestine group--Covert-One. It's activated only as a last resort, when the threat is on a global scale and time is running out. The Utopia Experiment When Dresner Industries unveils the Merge, a device that is destined to revolutionize the world and make the

personal computer and smartphone obsolete, Covert-One operative Colonel Jon Smith is assigned to assess its military potential. He discovers that enhanced vision, real-time battlefield displays, unbreakable security, and near-perfect marksmanship are only the beginning of a technology that will change the face of warfare forever--and one that must be kept out of the hands of America's enemies at all costs. Meanwhile, in the mountains of Afghanistan, CIA operative Randi Russell encounters an entire village of murdered Afghans--all equipped with enhanced Merge

technology that even the Agency didn't know existed. As Smith and Russell delve into the circumstances surrounding the Afghans' deaths, they're quickly blocked by someone who seems to have access to the highest levels of the military--a person that even the president knows nothing about. Is the Merge really as secure as its creator claims? And what secrets about its development is the Pentagon so desperate to hide? Smith and Russell are determined to learn the truth. But they may pay for it with their lives . . .
