"A horror landmark and a work of gory genius."—Joe Hill, New York Times bestselling author
Of The Fireman New York Times bestselling author Daniel Kraus completes George A. Romero's brand-new masterpiece of zombie horror, the massive novel left unfinished at Romero's death! George A. Romero invented the modern zombie with Night of the Living Dead, creating a monster that has become hemmed in by the constraints of film-making. To tell the story of the rise of the zombies and the fall of humanity the way it should be told, Romero turned to fiction. Unfortunately, when he died, the story was incomplete. Enter Daniel Kraus, co-author, with Guillermo del Toro, of the New York Times bestseller The Shape of Water (based on the Academy Award-winning movie) and Trollhunters (with Guillermo del Toro), and author of The Death and Life of Zebulon Finch (an Entertainment Weekly Top 10 Book of the Year). A lifelong Romero fan, Kraus was honored to be asked, by Romero's widow, to complete The Living Dead. Set in the present day, The Living Dead is an entirely new tale, the story of the zombie plague as George A. Romero wanted to tell it. It begins with one body. A pair of medical examiners find a body. They stay dead. It spreads quickly. In a Midwestern trailer park, a Black teenage girl and a Muslim migrant battle newly-risen friends and family. On a US aircraft carrier, living sailors hide from dead ones while a fanatic makes a new religion out of death. At a cable news station, a surviving anchor keeps broadcasting while his undead colleagues try to devour him. In DC, an autistic federal employee envisions a future that may never come. Everywhere, people are targeted by both the living and the dead. We think we know how this story ends. We. Are. Wrong. The definitive guide to The Stand miniseries, featuring the new Coda from Stephen King himself. In an apocalyptic vision of a world decimated by plague and embroiled in an elemental struggle between good and evil, the fate of mankind rests on the frail shoulders of the 108-year-old Mother Abagail and a handful of survivors. Their worst nightmares are embodied in a man with a lethal smile and a sinister voice. In 1979 Stephen King published The Stand, a massive apocalyptic tale that set the standard for all those stories that followed. The book was another King bestseller, leading to the release of The Complete and Uncut version in 1990, a 1994 ABC four-part mini-series and a 31-Issue Marvel Comics adaptation in 2009. The new 9-episode series for CBS All Access, which premiered at the end of the 21st Century. This new version will feature a brand-new coda written specifically for the new series by Stephen King himself.

**A witty, psychedelic, and telling novel of the 1960s Richard Fariña evokes the Sixties as precisely, wittily, and poignantly as F. Scott Fitzgerald captured the Jazz Age. The hero, Gnossus Pappadopoulos, weaves his way through the psychedelic landscape, encountering-among other things-mescaline, women, art, gluttony, falsehood, science, prayer, and, occasionally, truth. **SUPERANNO Stephen King first wrote about the Dark Man in college after he envisioned a faceless man in cowboy boots and jeans and a denim jacket forever walking the roads. Later this dark man would come to be known around the world as one of King's greatest villains, Randall Flagg, but at the time King only had simple questions on his mind: Where was this man going? What had he seen and done? What terrible things?**

**Many academics dismiss Stephen King as a mere genre writer, an over-glorified bestseller who appeals to the masses, but lacks literary merit. This critical analysis of King's epic novel The Stand makes a case for the horror master as a literary writer. A careful consideration of The Stand's abstract themes, characters, setting, and text reveals how King's work brims with the literary techniques that critics expect of a serious writer and the haunting questions that mark enduring literature. A thoughtful deliberation on so-called "escapist" fiction in the world of literature as well as an informed examination of one of King's most famous books, this work paves the way for future studies of other King novels.**

The Night Has Come

The Stand (Movie Tie-In Edition)

In a nightmarish, post-holocaust world, an ancient evil roams a devastated America, gathering the forces of human greed and madness, searching for a child named Swan who possesses the gift of life.

A definitive overview of film adaptations of the works of horror master Stephen King analyzes the thematic, narrative, and character links that are revealed among his films, exploring such popular films as Stand By Me, Misery, The Shining, The Green Mile, and The Shawshank Redemption, among others. Original. 15,000 first printing.

Set in the fictional town of Castle Rock, Maine #1 New York Times bestselling author Stephen King's timeless novella "The Body"—originally published in his 1982 short story collection Different Seasons, and adapted into the 1986 film classic Stand by Me—is now available as a stand-alone publication. It's 1960 in the fictional town of Castle Rock, Maine. Ray Brower, a boy from a nearby town, has disappeared, and twelve-year-old Gordie Lachance and his three friends set out on a quest to find his body along the railroad tracks. During the course of their journey, Gordie, Chris Chambers, Teddy Duchamp, and Vern Tessio come to terms with death and the harsh truths of growing up in a small factory town that doesn't offer much in the way of a future. A timeless exploration of the loneliness and isolation of young adulthood, Stephen King's The Body is an iconic, unforgettable, coming-of-age story.

One of the very first books to take Stephen King seriously, Landscape of Fear (originally published in 1988) reveals the source of King's horror in the sociopolitical anxieties of the post-Vietnam, post-Watergate era. In this groundbreaking study, Tony Magistrale shows how King's fiction transcends the escapism typical of its genre to tap into our deepest cultural fears: "that the government we have installed through the democratic process is not only corrupt but actively pursuing our destruction, that our technologies have progressed to the point at which the individual has now become expendable, and that our fundamental social institutions—school, marriage, workplace, and the church—have, beneath their veneers of respectability, evolved into perverse manifestations of narcissism, greed, and violence."

Tracing King's moralist vision to the likes of Twain, Hawthorne, and Melville, Landscape of Fear establishes the place of this popular writer within the grand tradition of American literature. Like his literary forbears, King gives us characters that have the capacity to make ethical choices in an imperfect, often evil world. Yet he inscribes that conflict within unmistakably modern settings. From the industrial nightmare of "Graveyard Shift" to the breakdown of the domestic sphere in The Shining, from the techno-horrors of The Stand to the religious fanaticism and adolescent cruelty depicted in Carrie, Magistrale charts the contours of King's fictional landscape in its first decade.

Next is "Ap Pupil," the inspiration for the film of the same name about top high school student Todd Bowden and his obsession with the dark and deadly post of an older man in town. In "The Body," four rambunctious young boys plunge through the facade of a small town and come face-to-face with life, death, and intimations of their own mortality. This novella became the movie Stand By Me. Finally, a disgraced woman is determined to triumph over death in "The Breathing Method."
