One of the greatest challenges for English language arts teachers today is the call to engage students in more complex texts. Tim Gillespie, who has taught in public schools for almost four decades, has found the lenses of literary criticism a powerful tool for helping students tackle challenging literary texts. Tim breaks down the dense language of critical theory into clear, lively, and thorough explanations of many schools of critical thought--reader response, biographical, historical, psychological, archetypal, genre based, moral, philosophical, feminist, political, formalist, and postmodern. "Doing Literary Criticism" gives each theory its own chapter with a brief, teacher-friendly overview and a history of the approach, along with an in-depth discussion of its benefits and limitations. Each chapter also includes ideas for classroom practices and activities. Using stories from his own English classes--from alternative programs to advanced placement and everything in between--Tim provides a wealth of specific classroom-tested suggestions for discussion, essay and research paper topics, recommended texts, exam questions, and more. The accompanying

cd offers abbreviated overviews of each theory (designed to be used as classroom handouts), examples of student work, collections of quotes to stimulate discussion and writing, an extended history of women writers, and much more. Ultimately, "Doing Literary Criticism" offers teachers a rich set of materials and tools to help their students become more confident and able readers, writers, and critical thinkers. Chapters of this book include: (1) Getting Started; (2) Reader Response Criticism; (3) Biographical Criticism; (4) Historical Criticism; (5) Psychological Criticism; (6) Archetypal Criticism; (7) Genre Criticism; (8) Moral Criticism; (9) Philosophical Criticism; (10) Feminist Criticism; (11) Political or Advocacy Criticism; (12) Formalist Criticism; and (13) Putting It All Together. References and an index are also included. [Foreword by Leila Christenbury.]

The first and most terrifying monster in English literature, from the

great early epic Beowulf, tells his own side of the story in this frequently banned book. This classic and much lauded retelling of Beowulf follows the monster Grendel as he learns about humans and fights the war at the center of the Anglo Saxon classic epic. This is the book William Gass called "one of the finest of our contemporary fictions."

Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In Haunting Experiences, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief

in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.

At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of

?? The Most Dangerous Game by Richard Connell ?? The Most Dangerous Game, also published as *The Hounds of Zaroff*, is a short story by Richard Connell first published in *Collier's* magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. ?? The Most Dangerous Game by Richard Connell ?? Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. ?? The Most Dangerous Game by Richard Connell ?? Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian

Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. ?? The Most Dangerous Game by Richard Connell ?? After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive.

An instant success in its own time, Daniel Defoe's The Adventures of Robinson Crusoe has for three centuries drawn readers to its archetypal hero, the man surviving alone on an island. This Companion begins by studying the eighteenth-century literary, historical and cultural contexts of Defoe's novel, exploring the reasons for its immense popularity in Britain and in its colonies in America and in the wider European world. Chapters from leading scholars discuss the social, economic and political dimensions of Crusoe's island story before examining the 'after life' of Robinson Crusoe, from the book's multitudinous translations to its cultural migrations and transformations into other media such as film and television. By considering Defoe's seminal work from a variety of critical perspectives, this book provides a full understanding of the perennial fascination with, and the enduring legacy of, both the book and its iconic hero.

""The Yellow Wallpaper"" is a short story by American writer Charlotte

Perkins Gilman, first published in January 1892 in The New England Magazine.[1] It is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can recuperate from what he calls a "temporary nervous depression - a slight hysterical tendency", a diagnosis common to women during that period" Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobbles together a body he's determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's Frankenstein, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in

British literature. It is as relevant today as it is haunting.

After the trouble starts and the soldiers arrive on Matilda's island, only one white person stays behind. Mr. Watts, whom the kids call Pop Eye, wears a red nose and pulls his wife around on a trolley, and he steps in to teach the children when there is no one else. His only lessons consist of reading from his battered copy of Great Expectations, a book by his friend Mr. Dickens. For Matilda, Dickens's hero Pip becomes as real to her as her own mother, and the greatest friendship of her life has begun. Soon Mr. Watts's book begins to inflame the children's imaginations with dreams about Dickens's London and the larger world. But how will they answer when the soldiers demand to know: where is this man named Pip? Set against the stunning beauty of Bougainville in the South Pacific during the civil war in the early 1990s, Lloyd Jones's breathtaking novel shows what magic a child's imagination makes possible even in the face of terrible violence and what power stories have to fuel the imagination.

Seminar paper from the year 2005 in the subject English Language and Literature Studies - Literature, grade: 1.0, University of Cologne (Englisches Seminar), course: Cinematic (Re-) Creation, 26 entries in the bibliography, language: English, comment: This paper investigates some of the key aspects of "Lord of the Flies," such as characterisation, narration, and symbolism. It discusses some of the philosophical theories which the novel is based on (i.e. Hobbes, Rousseau).

Furthermore the book's role as an anti-robinsonade will be taken into account. The second part of the paper will contrast the novel against the filmic adaptation by Harry Hook and point out some parallels and differences between the two pieces of work., abstract: Lord of the Flies was first published in 1954 and from then on has been read by millions of pupils, students and adults. Today the book is still popular as it deals with a subject that is timeless and fundamental: the human struggle between civilisation and the savage instinct. The book is a fable showing how the inherent evil in man's nature threatens order in a society. Golding uses an allegorical story to illustrate this threat to civilisation. Because of it's timeless topic and because it is an ideal showcase for allegorical structure and literary analysis the novel has been dealt with in numerous school lessons and university courses. This paper gives an overview of some aspects of Lord of the Flies which are important for understanding the text and interpreting the film. I will first investigate how the characters are presented in the book and comment on some narrative aspects. I will then go on to discuss the role of the book as an anti-robinsonade in the historical context of the English novel. I will also point out some philosophical aspects of Lord of the Flies. I am going to focus on aspects of the view of human nature as argued by Thomas Hobbes in his book The Leviathan and contrast it against the philosophy of Jean Jacq

A seemingly simple tale of schoolboys marooned on an island, Lord of the Flies has proven to be one of the most enigmatic and provocative pieces of literature ever published. This casebook probes the many layers of meaning in the novel, examining its literary, philosophical, historical, scientific, and religious significance. Beginning with a literary analysis that explores the universality of the novel's characters, the story is considered as subversion of the adventure tale, comparing it to such classics as Treasure Island and Robinson Crusoe. From these literary depictions of savagery, this study delves deeper, confronting the long-running philosophical and biological debates about human nature that have absorbed such influential thinkers as Rousseau and Darwin. The full meaning of Lord of the Flies is further contextualized by tracing historical views on civilization, from the Victorian perspective, to the very real horrors of World War II. This casebook integrates analysis and primary documents, with excerpts from materials as diverse as the Bible, the writings of Darwin, and war crimes interviews, to explore the very nature of human aggression and evil. This book will spark students to consider intriguing

connections between Golding's masterpiece and broader concepts of civilization, altruism, political leadership responsibilities, and the history of western imperialism. The interdisciplinary approach of this casebook helps students situate the lessons of Lord of the Flies in the context of Education, War and Postwar, the Adventure Story, Religion, and Biology and Evolution. The six topic sections integrate original illustrations and photos, literary excerpts, and primary documents and historic writings that help contextualize the work. Thought-provoking ideas for class discussions and research topics, with carefully chosen further reading suggestions enhance this volume as a teaching tool.

Deception—the lies we tell ourselves and the lies we tell others—is the subject of this, Tove Jansson's most unnerving and unpredictable novel. Anna lives in a large empty house, venturing out in the spring to paint exquisitely detailed forest scenes. By the time spring arrives, the two women are caught in a conflict of ideals that threatens to strip them of their most cherished illusions.

In 1953, William Golding was a provincial schoolteacher writing books on his breaks, lunch hours and holidays. His work had been rejected by every major publisher—until an editor at Faber and Faber pulled his manuscript off the rejection pile. This was to become *Lord of the Flies*, a book that would sell in the millions and bring Golding worldwide recognition. Golding went on to become one of the most popular and influential British authors to have emerged since World War II. He received the Booker Prize for the novel *Rites of Passage* in 1980, and the Nobel Prize for Literature in 1983. Stephen King has stated that the Castle Rock in *Lord of the Flies* continues to inspire him, so much so that he named his entertainment company after it and has placed the Golding novel prominently in his novels *Hearts in Atlantis* and *Cujo*. Golding has been called a British *Vonnegut*—disheveled and darkly humorous, perverse when it would have been easier to be bitter, bitter when it would have been easier to be lazy, sometimes more disturbing than he is palatable and above all fascinating beyond measure. Yet despite the fame and acclaim, the renowned author saw himself as a monster—a reclusive depressive ruled by his fears and a man who battled alcoholism throughout his life. In addition to being a schoolteacher, Golding was a scientist, a sailor and a poet before becoming a bestselling author, and his embitterment and alienation, his family, the women in his past, along with his experiences in the war, inform his work. This is the

first book to unpack the life and character of a man whose entire oeuvre dealt with the conflict between light and dark in the human soul, tracing the defects of society back to the defects of human nature itself. Drawing almost entirely on materials that have never before been made public, John Carey sheds new light on Golding. Through his exclusive access to Golding ' s family, Carey uses hundreds of letters, unpublished works and Golding ' s intimate journals to draw a revelatory and definitive portrait. An acclaimed critic, Carey enriches crucially our appreciation of the literary work of Golding, bringing us, as the best literary biographies do, back to the books. And with equal parts lyricism and driving emotion, Carey brings to light a life that is extraordinary to the point of transcendent and a writer who trusted the imagination above all things. A young royal from the far north, is sent south for a political marriage in an empire reminiscent of imperial China. Her brothers are dead, her armies and their war mammoths long defeated and caged behind their borders. Alone and sometimes reviled, she must choose her allies carefully.
