Melville's Moby Dick unfolds in a world of dragon hunters in Black Leviathan, an epic revenge fantasy from German award-winning author Bernd Perplies. Beware! A shadow will cover you, larger than that cast by any other dragon of this world. Black as the lightless chasm from whence it was born at the beginning of time. In the coastal city Skargakar, residents make a living from hunting dragons and use them for everything from clothing to food, while airborne ships hunt them in the white expanse of a cloud sea, the Cloudmere. Lian does his part carving the kyrillian crystals that power the ships through the Cloudmere, but when he makes an enemy of a dangerous man, Lian ships out on the next vessel available as a drachenjäger, or dragon hunter. He chooses the wrong ship. A fanatic captain, hunts more than just any dragon. His goal is the Firstborn Gargantuan—and Adaron is prepared to sacrifice everything for revenge. Star Trek's grittiest and most challenging series may have reached its climactic conclusion on the television screen, but all-new adventures on the frontiers of Federation space continue between the covers of Pocket Books. In the aftermath of the Dominion War that brought the Star Trek universe to the brink of ruin, space station Deep Space Nine - the galaxy's nexus of military and scientific intrigue, situated as it is on the wormhole that links two quadrants - once again becomes a flashpoint of impending Armageddon when a surprise attack cripples the station, killing the First Officer and threatening the fragile peace. Colonel Kira and the surviving crew of DS9 - along with four controversial new officers - are all that stand against the outbreak of a new conflict and a doom foretold by the Prophets to coincide with the birth of Captain Benjamin Sisko's child. Meanwhile, Captain Jean-Luc Picard and the crew of the USS Enterprise make a startling discovery, one that will determine the course of an entire civilisation and profoundly affect the lives of the crew of Deep Space Nine...

Lieutenant Melora Pazlar, first seen in the Deep Space Nine episode that bears her name (Melora), is the only Elaysian in Starfleet. Stationed on board the USS Enterprise, six years after her short-lived romance with Dr Bashir, she receives a desperate call for help from her crystalline, multi-species homeworld. When subspace contact fails, Captain Picard sends the Enterprise to investigate, only to find the ship nearly torn apart by a dimensional rift and stranded, badly damaged, below the shields that protect the carefully constructed planet. With both escape and rescue impossible, Picard and crew set out to discover the cause of the rift and the strange, cancerous growth in the crystal choking the planet itself. A Federation ship attempts to reach the Enterprise but is destroyed, and when thoron radiation threatens to kill the crew, all signs on the planet point to sabotage...

The Federation races to discover the culprits of several terrorist attacks, sending their flagship, the USS Prometheus, to stop war breaking out in the galaxy. The situation in the Lembatta Cluster is deteriorating rapidly. Fleets from the Federation and Klingon Empire are heading for the borders. The crews of the U.S.S. Prometheus and I.K.S. Bortas are racing against time to break the cycle of violence that is spreading through the Alpha Quadrant. Adams and Kromm are on the trail of a secret weapons facility, but instead discover an enemy from their pasts who seems utterly unstoppable. Together, they search for the answers to their questions, before the galaxy goes down in flames.

In the Heart of Chaos

In celebration of one of science fiction's most beloved franchises, an updated edition of the acclaimed Ships of the Line hardcover collection. They dared to risk it all in a skiff of reeds or leather, on a ship of wood or steel, knowing the only thing between them and certain death was their ship. To explore, to seek out what lay beyond the close and comfortable, every explorer had to embrace danger. And as they did so, what arose was a mystical bond, a passion for the ships that carried them. From the very first time humans dared to warp the fabric of space, escaping from the ashes of the third World War, they also created ships. These vessels have become the icons of mankind's desire to rise above the everyday, to seek out and make the unknown known. And these ships that travel the stellar seas have stirred the same passions as the ones that floated in the oceans. While every captain has wished that their starship could be outfitted in the same manner as the sailing ship H.M.S. Beagle—without weapons—that proved untenable. From the start, Starfleet realized that each vessel, due to the limited range of the early warp engines, must be able to stand alone against any attack. Thus arose the idea, taken from the days of wooden sailing ships, that every Starfleet vessel must stand as a ship of the line. Through the actions of their captains and crews, countless starships have taken on that role. Here we remember some of those ships and their heroic crews. In celebration of one of science fiction's most beloved franchises, this updated edition of the acclaimed Ships of the Line hardcover collection now includes dozens of additional images brought together for the first time in book format—spectacular renderings featured in the highly successful Star Trek: Ships of the Line calendar series. With text by Star Trek's own Michael Okuda, the story of each of these valiant starships now comes to life.™, ®, & © 2014 CBS Studios, Inc. A world once teeming with life that now lies ruined, its cities turned to ashes, its surface devastated by a radioactive firestorm—all because of their actions. There, they must find out how and why this tragedy occurred and discover what has become of their captain.

Colonial Marines have taken possession of an "abandoned" alien spacecraft-only to discover its owner is still onboard! There they must contend with hostile alien life forms, as well as the mysterious "Engineers" who are determined to wipe out not just them, but possibly all of humanity! This is the second chapter in the Life and Death story cycle-the follow-up to 2015's epic Fire and Stone crossover event. Before this tale is complete, the story lines of Predator, Prometheus, Aliens, and Aliens vs. Predator will all converge!

For almost three years, the Federation and the Klingon Empire, allied under the Khitomer Accords, have contended with the nascent coalition on a predominantly cold-war footing. But as Starfleet rebuilds itself, factions within the Typhon Pact grow restive, concerned about their own inability to develop a quantum slipstream drive to match that of the Federation. Will leaders such as UFP President Bacco and RSE Praetor Kamemor bring about a lasting peace across the Alpha and Beta Quadrants, or will the cold war between the two alliances deepen, and perhaps even lead to an all-out shooting war?
