Parliamentary Debates

While the anthropological field initially shied away from the debate on multiculturalism, it has been widely discussed within the fields of political theory, social policy, cultural studies and law. Beyond Multiculturalism is the first volume of its kind to offer a comparative, worldwide view of multiculturalism, considering both traditional multicultural/multiethnic societies and those where cultural pluralism is relatively new. Its varied case studies focus on the intersections and relationships between cultural groups in everyday life using employment, identity, consumption, language, legislation and policy making to show the unique

A Zen Buddhist masterpiece, winner of the 2018 Thornton Wilder Prize for Translation. The Platform Sutra occupies a central place in Zen (Ch'an) Buddhist instruction for students and spiritual seekers worldwide. It is often linked with The Heart Sutra and The Diamond Sutra to form a trio of texts that have been revered and studied for centuries. However, unlike the other sutras, which transcribe the teachings of the Buddha himself, The Platform Sutra presents the autobiography of

Hui-neng, the controversial 6th Patriarch of Zen, and his understanding of the fundamentals of a spiritual and practical life. Hui-neng's instruction still matters—the 7th-century school of Sudden Awakening that he founded survives today, continuing to influence the Rinzai and Soto schools of contemporary Zen. Red Pine, whose translations of *The Heart Sutra* and *The Diamond Sutra* have been celebrated and widely received, now provides a sensitive and assured treatment of the third and final sutra of the classic triumvirate. He adds remarkable commentary to a translation that, combined with the full Chinese text, a glossary, and notes, results in a Mahayana masterpiece sure to become the standard edition for students and seekers alike.

particularly in Asia because of its economic importance and richness in nature. The increasing interest in environmental and resource economics applied in regions of Asia will make this book an outstanding resource to the existing literature, particularly in the fields of environmental and resource economics and the integration of applied content in traditional and agricultural development. At present there is no single handbook or text on the state of current knowledge in environmental economics in Asia or one which offers a comprehensive guide to students and academics on the subjects of environmental economics research. This book will help to fill the gap in the existing
