

Street Law A Course In Practical Law Hardcover

Street Law: Understanding Law and Legal Issues is an informative law-based text about people, government, law and community in America. Street Law students will develop a practical understanding of the U.S. legal system and prepare for active community participation in our diverse 21st century democracy by learning essential legal principles for daily living. Street Law is a student text that also serves as a community guide to civic involvement by providing practical information about areas of the law that affect the daily lives of all Americans and U.S. residents. Particularly relevant are the areas of consumer, housing, family, and employment law, along with marriage, and parental rights. As students transition from living with their parents to living on their own or even starting their own families, basic awareness of Street Law subjects will become important in their lives to promote healthy inquiry about public policy and the law. Includes: print student edition

"This book fills a major gap in the literature of the law and of American history.

THE WORDS WE LIVE BY takes an entertaining and informative look at America's most important historical document, now with discussions on new rulings on hot button issues such as immigration, gay marriage, gun control, and affirmative action. In THE WORDS WE LIVE BY, Linda Monk probes the idea that the Constitution may seem to offer cut-and-dried answers to questions regarding personal rights, but the interpretations of this hallowed document are nearly infinite. For example, in the debate over gun control, does "the right of the people to bear arms" as stated in the Second Amendment pertain to individual citizens or regulated militias? What do scholars say? Should the Internet be regulated and censored, or does this impinge on the freedom of speech as defined in the First Amendment? These and other issues vary depending on the interpretation of the Constitution. Through entertaining and informative annotations, THE WORDS WE LIVE BY offers a new way of looking at the Constitution. Its pages reflect a critical, respectful and appreciative look at one of history's greatest documents. THE WORDS WE LIVE BY is filled with a rich and engaging historical perspective along with enough surprises and fascinating facts and illustrations to prove that your Constitution is a living--and entertaining--document. Updated now for the first time, THE WORDS WE LIVE BY continues to take an entertaining and informative look at America's most important historical document, now with discussions on new rulings on hot button issues such as immigration, gay marriage, and affirmative action.

"The abrupt move to online legal education in Spring 2020 accelerated the move to online legal education that has been slowing gathering steam in recent years. As more institutions consider the potential to expand their reach with online courses and programs, law professors must move past "pandemic teaching" and seriously consider how they can create and deliver quality legal education online. Law Teaching Strategies for a New Era: Beyond the Physical Classroom, the first comprehensive book on online legal education, explores techniques, tools, and strategies that can assist all types of law professors in that endeavor. The 34 chapters, authored by law professors from across the country, provide a comprehensive look at expanding legal education beyond the traditional classroom experience. Divided into four sections, the book starts by offering tips for getting started and fostering inclusion in online courses. It then moves to suggestions for course design of blended, synchronous, and asynchronous courses, including a chapter on measuring success through empirical research. Finally, it concludes with two sections on course-specific topics covering the range of legal education--from large first-year courses to seminars to skills-based courses and bar preparation. Both new online educators and seasoned veterans of online education will find tips and strategies to improve their online teaching"--

According to Our Hearts

A Book of Drawings on Natural Selection and Its Consequences

Street Law

Law and Order offers a valuable new study of the political and social history of the 1960s. It presents a sophisticated account of how the issues of street crime and civil unrest enhanced the popularity of conservatives, eroded the credibility of liberals, and transformed the landscape of American politics. Ultimately, the legacy of law and order was a political world in which the grand ambitions of the Great Society gave way to grim expectations. In the mid-1960s, amid a pervasive sense that American society was coming apart at the seams, a new issue known as law and order emerged at the forefront of national politics. First introduced by Barry Goldwater in his ill-fated run for president in 1964, it eventually punished Lyndon Johnson and the Democrats and propelled Richard Nixon and the Republicans to the White House in 1968. In this thought-provoking study, Michael Flamm examines how conservatives successfully blamed liberals for the rapid rise in street crime and then skillfully used law and order to link the understandable fears of white voters to growing unease about changing moral values, the civil rights movement, urban disorder, and antiwar protests. Flamm documents how conservatives constructed a persuasive message that argued that the civil rights movement had contributed to racial unrest and the Great Society had rewarded rather than punished the perpetrators of violence. The president should, conservatives also contended, promote respect for law and order and contempt for those who violated it, regardless of cause. Liberals, Flamm argues, were by contrast unable to craft a compelling message for anxious voters. Instead,

liberals either ignored the crime crisis, claimed that law and order was a racist ruse, or maintained that social programs would solve the "root causes" of civil disorder, which by 1968 seemed increasingly unlikely and contributed to a loss of faith in the ability of the government to do what it was above all sworn to do—protect personal security and private property.

Humanity is a part of Nature, yet every thinking person at one time or another asks herself or himself, "How did we get here? What makes me different from the rest of Nature?" In *The Course of Nature* an artist and a scientist ask those questions with full respect for all contexts, both scientific and not. Amy Pollack's figures stand on their own as elegant summaries of one or another aspect of Nature and our place in it. Robert Pollack's one-page essays for each illustration lay out the underlying scientific issues along with the overarching moral context for these issues. Together the authors have created a door into Nature for the non-scientist, and a door into the separate question of what is right, for both the scientist and the rest of us.

A law textbook for high school students, designed to give them practical advice, knowledge, and skills to survive in our "law-saturated" society. Has additional material on Florida law.

Unsparring and important. . . . An informative, clearheaded and sobering book.—Jonathan Yardley, *Washington Post* (1999 Critic's Choice) Inner-city black America is often stereotyped as a place of random violence, but in fact, violence in the inner city is regulated through an informal but well-known code of the street. This unwritten set of rules—based largely on an individual's ability to command respect—is a powerful and pervasive form of etiquette, governing the way in which people learn to negotiate public spaces. Elijah Anderson's incisive book delineates the code and examines it as a response to the lack of jobs that pay a living wage, to the stigma of race, to rampant drug use, to alienation and lack of hope.

On March 18, 1963, in one of its most significant legal decisions, the U.S. Supreme Court unanimously ruled in *Gideon v. Wainwright* that all defendants facing significant jail time have the constitutional right to a free attorney if they cannot afford their own. Fifty years later, 80 percent of criminal defendants are served by public defenders. In a book that combines the sweep of history with the intimate details of individual lives and legal cases, veteran reporter Karen Houppert movingly chronicles the stories of people in all parts of the country who have relied on Gideon's promise. There is the harrowing saga of a young man who is charged with involuntary vehicular homicide in Washington State, where overextended public defenders juggle impossible caseloads, forcing his defender to go to court to protect her own right to provide an adequate defense. In Florida, Houppert describes a public defender's office, loaded with upward of seven hundred cases per attorney, and discovers the degree to which Clarence Earl Gideon's promise is still unrealized. In New Orleans, she follows the case of a man imprisoned for twenty-seven years for a crime he didn't commit, finding a public defense system already near collapse before Katrina and chronicling the harrowing months after the storm, during which overworked volunteers and students struggled to get the system working again. In Georgia, Houppert finds a mentally disabled man who is to be executed for murder, despite the best efforts of a dedicated but severely overworked and underfunded capital defender. Half a century after Anthony Lewis's award-winning *Gideon's Trumpet* brought us the story of the court case that changed the American justice system, *Chasing Gideon* is a crucial book that provides essential reckoning of our attempts to implement this fundamental constitutional right.

Tried and tested by generations of students, *Street on Torts* provides a wide-ranging, clear and accurate explanation of the law of torts. Witting incorporates the latest learning on each of the torts covered in this book to provide a thoughtful account of the purposes, rules, and operation of the law. Coverage has been closely mapped to undergraduate law courses around the UK and updates and web links can be found on the accompanying Online Resource Centre.

This 396-page book provides specific guidance on pre-trial criminal procedure of all sorts, and explains in understandable terms what you can do and what you can't do under 4th Amendment search and seizure law. From traffic checkpoints and forceful felony arrest, from Miranda warnings to inmate and cell searches, it's all covered in this concise reference. In addition, numerous charts and guides are included throughout the book to make this as practical a guide as possible.

A Doctor's Guide to Personal Finance and Investing

Street on Torts

Practical Law for South African Students. Teacher's manual

Dr. Dropo's Juggling Buffoonery

*Written by a practicing emergency physician, *The White Coat Investor* is a high-yield manual that specifically deals with the*

financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a "Backdoor Roth IRA" and "Stealth IRA" to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For The White Coat Investor "Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place." - Allan S. Roth, MBA, CPA, CFP(R), Author of How a Second Grader Beats Wall Street "Jim Dahle has done a lot of thinking about the peculiar financial problems facing physicians, and you, lucky reader, are about to reap the bounty of both his experience and his research." - William J. Bernstein, MD, Author of The Investor's Manifesto and seven other investing books "This book should be in every career counselor's office and delivered with every medical degree." - Rick Van Ness, Author of Common Sense Investing "The White Coat Investor provides an expert consult for your finances. I now feel confident I can be a millionaire at 40 without feeling like a jerk." - Joe Jones, DO "Jim Dahle has done for physician financial illiteracy what penicillin did for neurosyphilis." - Dennis Bethel, MD "An excellent practical personal finance guide for physicians in training and in practice from a non biased source we can actually trust." - Greg E Wilde, M.D Scroll up, click the buy button, and get started today!

A fully revised and updated edition of the bible of the newspaper industry

People who want to develop an act for birthday parties or street corners will find this book a blessing. Easy-to-follow directions on how to juggle, manipulate cigar boxes, do balancing tricks, and become an hilariously funny juggler. Contains 25 complete comic juggling routines. Simple enough for beginners, funny enough for professionals.

Bangkok Express is an often hilarious, always dangerous, fast moving tale of the tricks and turns in an exotic land where what meets the eye often fools, if not confuses, the observer. Joe leaves behind a life of commuter trains, a messy divorce, and an egotistical boss to undertake an assignment that changes his life forever. For Joe, Thailand is a private investigator's hardest challenge. A land where women, drink and drugs come with no warning attached and nothing is what it seems. Can Joe untangle a web of corruption and lies and write the report that the "suits" want to see? Or is there something else on offer, something that will bring more happiness than that of a "job well done"? Bangkok Express is a beautifully bizarre, exotic novel that will leave the reader feeling like they just stepped off a fast moving train in the world's most exciting city.

Law and Order

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in

all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

This book makes the case for a more legally literate society and then addresses why and how a law school might contribute to achieving that. Moreover examining what public legal education (PLE) is and the forms it can take, the book looks specifically at the ways in which a law school can get involved, including whether that is as part of an academic, credit-bearing, course or as extra-curricular activity. Divided into five main chapters, the book first examines the nature of PLE and why its provision is so central to the functioning of modern society. Models of PLE are then set out ranging from face-to-face tuition to the use of hard-copy material, including the growing importance of e-based technology. One model of PLE that has proven to be very attractive to law schools – Street Law – is described and analysed in detail. The book then turns to look at the considerations for a law school wishing to incorporate PLE into its offerings be that as part of the formal curriculum or not. The subject of evaluation is then raised – how might we find out if what we do by way of PLE is effective and how it might be improved upon? The final chapter reaches conclusions, some penned by the book's author and others drawn from key figures in the PLE movement. This book provides a thorough examination of PLE in a law school context and contains a set of templates that can be implemented and/or adapted for use as the situation and jurisdiction dictate. An accessible and compelling read, this book will be of interest to law students, legal academics, practising lawyers, community activists and all those interested in PLE.

"A ... personal detective story, an uncovering of secret pasts, and a book that explores the creation and development of world-changing legal concepts that came about as a result of the unprecedented atrocities of Hitler's Third Reich. East West Street looks at the personal and intellectual evolution of the two men who simultaneously originated the ideas of "genocide" and crimes against humanity," both of whom not knowing the other, studied at the same university with the same professor, in a city little know today that was a major cultural center of Europe, "the little Paris of Ukraine," a city variously called Lemberg, Lwów, Lvov, or Lviv ... Sands ... realized that his own field of international law had been forged by two men--Rafael Lemkin and Hersch Lauterpacht--each of whom had studied law at Lviv University in the city of his grandfather's birth, each of whom had come to be considered the finest international legal mind of the twentieth century, each considered to be the father of the modern human rights movement, and each, at parallel times, forging diametrically opposite, revolutionary concepts of humanitarian law that had changed the world."--

#1 NEW YORK TIMES BESTSELLER • Michael Brock is billing the hours, making the money, rushing relentlessly to the top of Drake & Sweeney, a giant D.C. law firm. One step away from partnership, Michael has it all. Then, in an instant, it all comes undone. A homeless man takes nine lawyers hostage in the firm's plush offices. When it is all over, the man's blood is splattered on Michael's face—and suddenly Michael is willing to do the unthinkable. Rediscovering a conscience he lost long ago, Michael is leaving the big time for the streets where his attacker once lived—and where society's powerless need an advocate for justice. But there's one break Michael can't make: from a secret that has floated up from the depths of Drake & Sweeney, from a confidential file that is now in Michael's hands, and from a conspiracy that has already taken lives. Now Michael's former partners are about to become his bitter enemies. Because to them, Michael Brock is the most dangerous man on the streets.

An Easy & Proven Way to Build Good Habits & Break Bad Ones

The 48 Laws Of Power

Street Law a Course in Practical Law

DIV This landmark book looks at what it means to be a multiracial couple in the United States today. According to Our Hearts begins with a look back at a 1925 case in which a two-month marriage ends with a man suing his wife for misrepresentation of her race, and shows how our society has yet to come to terms with interracial marriage. Angela Onwuachi-Willig examines the issue by drawing from a variety of sources, including her own experiences. She argues that housing law, family law, and employment law fail, in important ways, to protect multiracial couples. In a society in which marriage is used to give, withhold, and take away status—in the workplace and elsewhere—she says interracial couples are at a disadvantage, which is only exacerbated by current law. /div

Student Workbook

He was famous for telling stories. He could always make the story interesting. He had a way of seeing the best or funniest of every situation. He wrote down over 180 of his best stories in his last few years for all his family and friends. You will laugh, and relate to the stories of childhood, school years, and growing up during the depression. From his northern New Jersey, small town home he shares what it was like growing up in the 20's and 30's. From logging to working with horses, the stories provide a great view of the life style from that time period.

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power. _____ (From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

A Course in Practical Law. Workbook

Beyond the Physical Classroom

The White Coat Investor

The Course of Nature

Street Law: A Course in Practical Law, Student Workbook

****WINNER OF THE 2020 NOBEL PRIZE IN PHYSICS**** The Road to Reality is the most important and ambitious work of science for a generation. It provides nothing less than a comprehensive account of the physical universe and the essentials of its underlying mathematical theory. It assumes no particular specialist knowledge on the part of the reader, so that, for example, the early chapters give us the vital mathematical background to the physical theories explored later in the book. Roger Penrose's purpose is to describe as clearly as possible our present understanding of the universe and to convey a feeling for its deep beauty and philosophical implications, as well as its intricate logical interconnections. The Road to Reality is rarely less than challenging, but the book is leavened by vivid descriptive passages, as well as hundreds of hand-drawn diagrams. In a single work of colossal scope one of the world's greatest scientists has given us a complete and unrivalled guide to the glories of the universe that we all inhabit. 'Roger Penrose is the most important physicist to work in relativity theory except for Einstein. He is one of the very few people I've met in my life who, without reservation, I call a genius' Lee Smolin

A law textbook for high school students, designed to give them practical advice, knowledge, and skills to survive in our "law-saturated" society.

The #1 New York Times bestseller. Over 4 million copies sold! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving--every day.

James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of

small habits to master their craft and vault to the top of their field. Learn how to: • make time for new habits (even when life gets crazy); • overcome a lack of motivation and willpower; • design your environment to make success easier; • get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

Pedagogical Tact describes how teacher-student relations possess an improvisational and ethical character. The daily realities of educators, parents, and childcare specialists are pedagogically conditioned by sensitive insights, active thoughtfulness, and the creative ability to act caringly and appropriately in the immediacy of the moment. Internationally known educator Max van Manen shows through recognizable examples and evocative stories how good teaching is driven by the phenomenology of pedagogy. His book-refocuses educators and others away from an emphasis on instrumental skills and technocratic programs toward the need for pedagogical tact;-describes how pedagogical actions have latent effects that will influence children throughout their lives;-shows how our actions with young people have pedagogically ethical and moral significance;-gives educators back their original vocational motivation and inspiration.
