The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government. The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

This book envisions the formulation of critical perspectives on education reform using the Philippine experience, recognizing the need to address relevant issues and challenges particularly in an increasingly globalized twenty-first century setting. A specific education reform project, the Leaders and Educators in Asia Programme (LEAP), a joint effort between the Philippines' Department of Education, the Ateneo de Manila University in the Philippines, the National Institute of Education-Singapore and Singapore's Temasek Foundation, serves as the analytical focus of how education reform as a globalized movement is implemented, interpreted and made sense of by stakeholders involved in the reform project. This inquiry proposes to examine the problematique of education reform - from a Philippine perspective - by focusing on three analytical starting points: (1) describing the most relevant and urgent issues of education reform; (2) diagnosing the causes and consequences of reform failures; and (3) developing critical and contextualized perspectives on reform trajectories. Mapping the Terrain of Education Reforms: Global trends and local responses in the Philippines discusses the following: Challenges against effective education reforms The oscillation between global and local imperatives The dissociation between policymakers and practitioners Education reform aid in the Philippines This book will be of interest to researchers interested in education policy, politics, and reforms. It will also appeal to scholars examining Asian, and particularly Southeast Asian, educational systems.

Beyond the Enclave sets out to unravel the contradiction of a country, Zimbabwe, where a rich, diverse resource base co-exists with endemic poverty. One reason lies in the colonial economy, which was predicated on an ideology of white supremacy, creating an enclave formal economy employing one-fifth of the labour force. Yet over three decades after independence, the non-formal segment has become even more entrenched. This book assesses Zimbabwe's economy through three main phases: 1980- 0 when a strong social policy framework proved difficult to sustain due to erratic growth, and 1991- 6, when "structural adjustment" demanded a market-driven approach to development. The third phase is characterized by crisis-management leading to policy inconsistencies and reversals. Not surprisingly, such incoherence saw the economy descend into hyperinflation and paralysis in 2007- 8, leading to the signing of the Global Political Agreement in September 2008. In the absence of formal dollarization, economic recovery after the adoption of the multi-currency regime has remained fragile, leaving an estimated 70 per cent of the population outside the banking system. This has further entrenched uneven (enclave) growth as the economy remains locked in a low-income poverty trap. There is a need to facilitate transition towards formality to promote decent jobs. Furthermore, a strategic, developmental role for the state in the economy is now widely recognized as vital for development. Beyond the Enclave argues for a new approach to development in Zimbabwe based on pro-poor and inclusive strategies, which will contribute to the well-being of all of its citizens and wise stewardship of its resources. It offers suggestions on policy formulation, implementation, monitoring and evaluation in all sectors, designed to promote inclusive growth and humane development.
