What originally started out as a few tips and suggestions for friends traveling abroad, Semester Abroad: A College Students Guide to Europe soon began to take shape. Within two years of returning from Europe, the 21 year old author had completed writing her book. Semester Abroad is not a list of where to stay and what to eat --there are plenty of those on the bookstore shelves written by adults for adults and families. It is more of an overview of traveling through Europe as a young adult. The opening chapters discuss important travel information like what to pack, documents needed and how to make the trip as smooth as possible. Most major countries in Europe are covered in their own chapter in this niche travel guide for the student/backpacking traveler. The country chapters discuss the main places of interest, the easiest way to tour each city as well as a historical overview. Reid believes it is important to have a basic understanding of the culture and history to best enjoy what each town and country has to offer. Along with the typical travel do's and don'ts, is important information such as the major holidays, tipping information and the American Embassy phone number. The book is

designed for travelers of all budgets and interests. Semester Abroad is set to be an all-encompassing travel guide for the quick-paced world of study abroad students and backpackers from the perspective of a young college student.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

A time traveling cave. A vicious band of miners and pure gold. When West Virginia teenagers Emma and Brody promised their neighbor, a famous geologist, to help rebuild his decimated rock and mineral collection for a museum display, they didn't know they would be in for the magical ride of a lifetime. After a successful trip to 1775 England where they collected the rare Blue John Fluorite, the teens are quick to jump at the chance to travel to the California Gold Rush in 1851. When they arrive at the Gold Rush and meet an old acquaintance, they think the mission will be easy until they realize their friend may not be able to help them at all. When their actions in the past erase their future, can Emma and Brody right the wrong? With a hostile group of miners hot on their trail, Brody and Emma must collect the gold, save their friends, and salvage the future before it is too late. *Rusher's Gold* is the second book in the middle grade adventure/sci-fi series *Crystal Cave Adventures*. Written entirely by Harvard undergraduates, features travel bargains on accommodations, restaurants, shopping, and attractions in European countries.

This volume provides the first comprehensive examination of travel guidebooks and their conceptualisation, use and impact. Guidebooks have been key tourism paraphernalia for almost two centuries and although researched in some areas, academic knowledge on guidebooks in tourism has not been expansively communicated. The uncritical, unreflective and largely pejorative approach to guidebooks in the public sphere, and to some degree also present in academia, is reassessed in this book. This challenges the current limited tourism research approaches to the topic, including the routinely held

assumption that the internet has all but destroyed the printed guidebook. This book will be a useful resource for postgraduate students and researchers in tourism and tourism communications and consumption.

Speaking at a 1913 National Geographic Society gala, Hiram Bingham III, the American explorer celebrated for finding the "lost city" of the Andes two years earlier, suggested that Machu Picchu "is an awful name, but it is well worth remembering." Millions of travelers have since followed Bingham's advice. When Bingham first encountered Machu Picchu, the site was an obscure ruin. Now designated a UNESCO World Heritage Site, Machu Picchu is the focus of Peru's tourism economy. Mark Rice's history of Machu Picchu in the twentieth century—from its

"discovery" to today's travel boom—reveals how Machu Picchu was transformed into both a global travel destination and a powerful symbol of the Peruvian nation. Rice shows how the growth of tourism at Machu Picchu swayed Peruvian leaders to celebrate Andean culture as compatible with their vision of a modernizing nation. Encompassing debates about nationalism, Indigenous peoples' experiences, and cultural policy—as well as development and globalization—the book explores the contradictions and ironies of Machu Picchu's transformation. On a broader level, it calls attention to the importance of tourism in the creation of national identity in Peru and Latin America as a whole.

So, you want to go to Europe? But how could you not? There's something awfully romantic about spending midnight in Paris, watching the lights shine on the famed La Seine. There's

something special about hearing the growls and grunts of cars on the vias and around the piazzas of Rome. There's something magical about walking on the streets of London in front of Buckingham Palace as the roads close down for the iconic Changing of the Guard. Europe--rich with history, culture, art, and adventure-- is the ultimate destination for any backpacker from any background. For all the hullabaloo around this small piece of land attached to Asia, the fairytale-like legends that you hear from old men in the park, friends, and parents are, for most part, true stories. Well, maybe all except for that one time Uncle Marty claimed he found an old manuscript of Ulysses on a Dublin pub crawl. Pub crawls and pretentious reading material aside, Europe awaits you. Paraglide in the mountains of Gimmelwald, shimmy your way into the most exclusive clubs of Berlin, or scuba dive between two tectonic plates in Iceland. When in Dubrovnik, find love on Lokrum Island and, in Athens, find your Adonis or Aphrodite. Get blown away by the beat of the Pamplona's Running of the Bulls and cheer on European sports

teams in Munich's beer gardens. Europe has been, and will continue to be, the starting point for the adventures of students all around the world. Join the company of your fellow wanderlust-stricken adventure seekers and set your trip apart from the rest. Ready, set, Let's Go!
