**"Fascinating... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war—and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, Guns, Germs, and Steel chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth Club of California's Gold Medal.**

**The New York Times Bestseller. "There aren't many books this entertaining that also provide a cogent crash course in ancient, classical and modern history." -Los Angeles Times Beer, wine, spirits, coffee, tea, and Coca-Cola: In Tom Standage's deft, innovative account of world history, these six beverages turn out to be much more than just ways to quench thirst. They also represent six eras that span the course of civilization-from the adoption of agriculture, to the birth of cities, to the advent of globalization. A History of the World in 6 Glasses tells the story of humanity from the Stone Age to the twenty-first century through each epoch's signature refreshment. As Standage persuasively argues, each drink is in fact a kind of technology, advancing culture and catalyzing the intricate interplay of different societies. After reading this enlightening book, you may never look at your favorite drink in quite the same way again.**
