The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? The pressures of manhood can be enormous, and they're only intensified by the mixed messages you receive from culture. Sometimes it seems as though everyone wants something from you. Does being a real man mean having a perfect family, a corner office, a luxury car, and a massive home? Or, is there something more to life, a source of deeper satisfaction. The Bible has some surprising and counterintuitive things to say about being a man. [7] is a small group experience that enables you to explore God's design for manhood. During the seven sessions, you'll be introduced to seven questions that rattle in the minds of most men. When another brother got himself into college, Tara decided to try a new kind of life. In the classic Mere Christianity, C.S. Lewis, the most important writer of the 20th century, explores the common ground upon which all of those of Christian faith stand together. Bringing together Lewis' legendary broadcast talks during World War Two from his three previous books The Case for Christianity, Christian Behavior, and Beyond Personality, Mere Christianity provides an unequalled opportunity for believers and nonbelievers alike to hear this powerful apologetic for the Christian faith.

In this six-session video Bible study, Andy Stanley gives you five key questions to ask when you have a decision to make and you're not sure what to do. We never

know what or who hangs in the balance of the decisions we make. But what we do know is this: private decisions have public implications. Your private decisions probably won't stay private, and personal decisions will impact some other persons. These five simple questions will empower you to: Make better decisions with fewer regrets Pause when feeling tension over a decision Take the long view Look for the wise option Focus on the relational impact of decisions This pack contains one study guide and one DVD.

He may have become the chief of police, but he's still trying to heal the old wound of having given the testimony that sent his best friend, Vincent King, to prison decades before. And he's in overdrive protecting Duchess and her brother. Now, thirty years later, Vincent is being released. And Duchess and Walk must face the trouble that comes with his return. #1 NEW YORK TIMES BESTSELLER • With richly layered characters and a gripping moral dilemma that will lead readers to question everything they know about privilege, power, and race, *Small Great Things* is the stunning new page-turner from Jodi Picoult. SOON TO BE A MAJOR MOTION PICTURE "[Picoult] offers a thought-provoking examination of racism in America today, both overt and subtle. Her many readers will find much to discuss in the pages of this topical, moving book."—Booklist (starred review) Ruth Jefferson is a labor and delivery nurse at a Connecticut hospital with more than twenty years' experience. During her shift, Ruth begins a routine checkup on a newborn, only to be told a few minutes later that she's been reassigned to another patient. The parents are white supremacists and don't want Ruth, who is African American, to touch their child. The hospital complies with their request, but the next day, the baby goes into cardiac distress while Ruth is alone in the nursery. Does she obey orders or does she intervene? Ruth hesitates before performing CPR and, as a result, is charged with a serious crime. Kennedy McQuarrie, a white public defender, takes her case but gives unexpected advice: Kennedy insists that mentioning race in the courtroom is not a winning strategy. Conflicted by Kennedy's counsel, Ruth tries to keep life as normal as possible for her family—especially her teenage son—as the case becomes a media sensation. As the trial moves forward, Ruth and Kennedy must gain each other's trust, and come to see that what they've been taught their whole lives about others—and themselves—might be wrong. With incredible empathy, intelligence, and candor, Jodi Picoult tackles race, privilege, prejudice, justice, and compassion—and doesn't offer easy answers. *Small Great Things* is a remarkable achievement from a writer at the top of her game. Praise for *Small Great Things* "Small Great Things is the most important novel Jodi Picoult has ever written. . . . It will challenge her readers . . . [and] expand our cultural conversation about race and prejudice."—The Washington Post "A novel that puts its finger on the very pulse of the nation that we live in today . . . a fantastic read from beginning to end, as can always be expected from Picoult, this novel maintains a steady, page-turning pace that makes it hard for readers to put down."—San Francisco Book Review

Finalist for the Pulitzer Prize New York Times Bestseller | A Read with Jenna Today Show Book Club Pick | A New York Times Book Review Notable Book | TIME Magazine's 100 Must-Read Books of 2019 Named one of the Best Books of the Year by NPR, The Washington Post; O: The Oprah Magazine, Real Simple, Good Housekeeping, Vogue, Refinery29, and Buzzfeed Ann Patchett, the #1 New York Times bestselling author of *Commonwealth*, delivers her most powerful novel to date: a richly moving story that explores the indelible bond between two siblings, the house of their childhood, and a past that will not let them go. *The Dutch House* is the story of a paradise lost, a tour de force that digs deeply into questions of inheritance, love and forgiveness, of how we want to see ourselves and of who we really are. At the end of the Second World War, Cyril Conroy combines luck and a single canny investment to begin an enormous real estate empire, propelling his family from poverty to enormous wealth. His first order of business is to buy the Dutch House, a lavish estate in the suburbs outside of Philadelphia. Meant as a surprise for his wife, the house sets in motion the undoing of everyone he loves. The story is told by Cyril's son Danny, as he and his older sister, the brilliantly acerbic and self-assured Maeve, are exiled from the house where they grew up by their stepmother. The two wealthy siblings are thrown back into the poverty

their parents had escaped from and find that all they have to count on is one another. It is this unshakeable bond between them that both saves their lives and thwarts their futures. Set over the course of five decades, *The Dutch House* is a dark fairy tale about two smart people who cannot overcome their past. Despite every outward sign of success, Danny and Maeve are only truly comfortable when they're together. Throughout their lives they return to the well-worn story of what they've lost with humor and rage. But when at last they're forced to confront the people who left them behind, the relationship between an indulged brother and his ever-protective sister is finally tested.

In a world filled with questions, can you provide answers? Scripture tells us to "always be ready to give a defense to everyone who asks you a reason for the hope that is in you" (1 Peter 3:15). The questions we're asked may be tough, but finding the answers doesn't have to be. Finally, an apologetics course that's unintimidating, taught in the same casual, conversational way you'll be sharing what you learn--over coffee with friends. In "Tough Questions," Ray Comfort, Emeal ("E.Z.") You'll learn simple ways to help people think through their beliefs and to reason with those who may seem unreasonable. In these five sessions you'll explore what apologetics is (and isn't), its proper role in evangelism, the fundamentals of worldviews, and the biblical key to unlock the heart of the ungodly. Discover ready answers to questions such as: Who made God? Why is there suffering and evil? How can a loving God send someone to Hell? Isn't the Bible filled with contradictions? Why are Christians anti-science? And much more... Most importantly, you'll be given tools to have life-changing conversations with friends and strangers as you share the truth of the gospel, pointing people to the only Answer they need. Study Guide includes: Discussion questions, equipping answers, homework assignments, at-home Bible study, witnessing how-to.

Winner of the Pulitzer Prize in Fiction Shortlisted for the Man Booker Prize New York Times Bestseller A New York Times Notable Book and a Washington Post, Time, Oprah Magazine, Newsweek, Chicago Tribune, and Kirkus Reviews Best Book of 2018 "The best novel ever written about trees, and really just one of the best novels, period." —Ann Patchett *The Overstory*, winner of the 2019 Pulitzer Prize in Fiction, is a sweeping, impassioned work of activism and resistance that is also a stunning evocation of—and paean to—the natural world. From the roots to the crown and back to the seeds, Richard Powers's twelfth novel unfolds in concentric rings of interlocking fables that range from antebellum New York to the late twentieth-century Timber Wars of the Pacific Northwest and beyond. There is a world alongside ours—vast, slow, interconnected, resourceful, magnificently inventive, and almost invisible to us. This is the story of a handful of people who learn how to see that world and who are drawn up into its unfolding catastrophe.

We've all done dumb stuff in our lives. We all have regrets. Yet none of us plans to mess up our lives. Why, then, does it keep happening? Life doesn't have to be that way. You can fool-proof your life...as this book shows. God's promise and pattern is for something better. In *The Best Question Ever*, Andy Stanley effectively teaches the practical and lasting value of simply asking this question about our actions in all of life's arenas: What is the wise thing for me to do, in light of my past experience, my present circumstances, and my future hopes and dreams? This book probes for honesty—it pushes us to open our eyes to reality and helps us expose the little (and big) self-deceptions we have. Prepare yourself. You are about to be introduced to a single question that will revolutionize the way you make decisions. Over the past twenty years, speaker and author Andy Stanley has shared the power of this question with thousands of students and adults all over the country. In this ground-breaking new book, Andy provides you with a filter through which to evaluate every decision in every arena of your life. As you are about to discover, the *Best Question Ever* will bring clarity to decisions involving your finances, your love life, your schedule, even your career. People everywhere agree that their greatest regret could have been avoided had they asked the *Best Question Ever* and then acted on their conclusions. A time-tested truth that has immediate application, the *Best Question Ever* has the power to change the trajectory of your entire life. *Story Behind the Book* After continually making decisions that were short-sighted and hasty, Andy Stanley sought counsel. In Ephesians 5:15 he read, "Be very careful, then, how you live—not as unwise but as wise." It was there that Andy discovered what he considers to be *The Best Question Ever*. Pastor and author J. D. Greear reveals that the secret to a robust, passionate faith isn't getting all the right answers about God, but seeing God as the awesome, glorious, and infinite presence that He is. We like God small. We prefer a God who is safe, domesticated, who thinks like we think, likes what we like, and whom we can manage, predict, and control. A small God is convenient. Practical. Manageable. For us, thinking of God as so infinitely greater and wiser than we are and who would cause us to tremble in his presence is a leftover relic from an oppressive, archaic view of religion. But what if this small version of God we've created is holding us back from the greatest experience of our lives--from genuine, confident, world-transforming faith? In Not God Enough, J.D. reveals how to discover a God who: is big enough to handle your questions, doubts, and fears is not silent is worthy of worship wants to take you from boring to bold in your faith has a purpose and mission for you on earth is pursuing you right now The truth: God is big. Bigger than big. Bigger than all the words we use to say big. Only a God of infinite power, wisdom, and majesty can answer our deepest questions and meet our deepest longings. God is not just a slightly better, slightly smarter version of you. God is infinite and glorious, and an encounter with Him won't just change the way you think about your faith. It'll change your entire life.

New York Times bestselling author Julie Lythcott-Haims is back with a groundbreakingly frank guide to being a grown-up What does it mean to be an adult? In the twentieth century, psychologists came up with five markers of adulthood: finish your education, get a job, leave home, marry, and have children. Since then, every generation has been held to those same markers. Yet so much has changed about the world and living in it since that sequence was formulated. All of those markers are choices, and they 're all valid, but any one person 's choices along those lines do not make them more or less an adult. A former Stanford dean of freshmen and undergraduate advising and author of the perennial bestseller How to Raise an Adult and of the lauded memoir Real American, Julie Lythcott-Haims has encountered hundreds of twentysomethings (and thirtysomethings, too), who, faced with those markers, feel they 're just playing the part of " adult, " while struggling with anxiety, stress, and general unease. In Your Turn, Julie offers compassion, personal experience, and practical strategies for living a more authentic adulthood, as well as inspiration through interviews with dozens of voices from the rich diversity of the human population who have successfully launched their adult lives. Being an adult, it turns out, is not about any particular checklist; it is, instead, a process, one you can get progressively better at over time—becoming more comfortable with uncertainty and gaining the knowhow to keep going. Once you begin to practice it, being an adult becomes the most complicated yet also the most abundantly rewarding and natural thing. And Julie Lythcott-Haims is here to help readers take their turn.

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the verybeginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. " Some of the key concepts discerned in the study, " comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people. " Perhaps, but who can afford to ignore these findings?

#1 New York Times Bestseller “THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In *Think Again*, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I've never felt so hopeful about what I don't know.” —Brené Brown, Ph.D., #1 New York Times bestselling author of *Dare to Lead*
The bestselling author of *Give and Take* and *Originals* examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life
Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom.
